### Purchase of milk and production of milk products

The purchase price of milk must include the entire purchase price, including contractual additions or deductions. If some of the additions or deductions are made retroactively for previous months, the data on previous months are not corrected and the retroactively made additions or deductions are reported in the month of actual payment.

The values of quantities in rows "Purchased cows' milk and cream" and "Milk fat in purchased milk and cream" are prefilled with data from ARIB on day 17 of the month. Please double-check the prefilled fields and correct where necessary. The data submission deadline has changed: it is now the 18th of the month. The change was required by the Ministry of Rural Affairs in accordance with Regulation (EU) 2017/1185.
