HOUSEHOLD BUDGET SURVEYS

Metadata at table level

EuroBase HBS Domain: Table-level Meta-data

| Table | Title | UNIT |
|-------|--|-------------|
| t111 | Mean CE ¹ by household and per adult equivalent | EUR/NAC/PPS |
| t121 | Mean CE per household by COICOP consumption purpose | PPS |
| t123A | Mean CE per household with expenditure greater than zero by COICOP consumption purpose | PPS |
| t123B | Households with expenditure greater than zero by COICOP consumption purpose | % |
| t131 | Mean CE by socio-economic category of the reference person | PPS |
| t132 | Mean CE by number of active persons | PPS |
| t133 | Mean CE by income quintile | PPS |
| t134 | Mean CE by type of household | PPS |
| t135 | Mean CE by age of the reference person | PPS |
| t136 | Mean CE by degree of urbanisation | PPS |
| t137 | Mean CE by main source of the household's income | PPS |

| | | |
|------|--|----------|
| t211 | Structure of CE by COICOP consumption purpose | Per 1000 |
| t221 | Structure of CE by activity and employment status of the reference person (COICOP level 2) | Per 1000 |
| t222 | Structure of CE by number of active persons (COICOP level 2) | Per 1000 |
| t223 | Structure of CE by income quintile (COICOP level 2) | Per 1000 |
| t224 | Structure of CE by type of household (COICOP level 2) | Per 1000 |
| t225 | Structure of CE by age of the reference person (COICOP level 2) | Per 1000 |
| t226 | Structure of CE by degree of urbanisation (COICOP level 2) | Per 1000 |
| t227 | Structure of CE by main source of income (COICOP level 2) | Per 1000 |

| | | |
|------|---|-----------|
| t311 | Household characteristics by activity and employment status of the reference person | %, Number |
| t312 | Household characteristics by number of active persons | %, Number |
| t313 | Household characteristics by type of household | %, Number |
| t314 | Household characteristics by age of the reference person | %, Number |
| t315 | Household characteristics by degree of urbanisation | %, Number |
| t316 | Household characteristics by main source of income | %, Number |

¹ CE = Consumption Expenditure

Version History

Version 1: 09-02-2023

General Comments That Concern All Tables

The household *Final Consumption Expenditure* of the countries are not fully comparable because the methodologies used for data collection are not fully harmonised. The most important methodological difference in quantitative terms, is **owner-occupier imputed rent**. The following countries have not imputed any rent for the use of owner-occupied dwellings as household main residence: for 2010 United Kingdom, Czechia, Hungary and North Macedonia, for 2015 United Kingdom, Czechia, Malta and North Macedonia, for 2020 wave Czechia and Malta.

The methodologies used by EU countries are much more harmonised nowadays, but there are still some methodological differences between countries. In general, the newer data are more complete. The full comparability of data from different reference years cannot be guaranteed.

HBS 2020 wave:

- the Cyprus, France and Malta Household Budget Survey Data for the year 2020, have been produced by converting the Cyprus, France and Malta Household Budget Survey Data for the year 2015 to 2020 Reference Year prices using the 2020 HICP coefficient. Tables T211-T227 (structure of expenditures) and tables T311-T316 (household characteristics) remained the same in 2020 as in HBS 2015 wave.
- only COICOP at 2-digit level is used for Romania.
- not all lower/detailed COICOP levels are available for Germany.

The survey years do not always coincide with the Reference Years specified by Eurostat. When this is the case, the data are adjusted using the general consumer price index of the country concerned.

For further details, please consult the HBS methodological guides mentioned in the HBS domain general information pages: <https://ec.europa.eu/eurostat/web/household-budget-surveys/overview>.

Mean Consumption Expenditure

T111: Mean CE by household and per adult equivalent

Sweden - no data for 2020

Finland - no data for 2020

Ireland - no data for 2020

Portugal - no data for 2020

T121 Mean CE per household by COICOP consumption purpose

Sweden - no data for 2020

Finland - no data for 2020

Ireland - no data for 2020

Portugal - no data for 2020

T123A Mean CE per household with expenditure greater than zero by COICOP consumption purpose

Netherlands - no data for 2010

Sweden - no data for 2020

Finland - no data for 2020

Ireland - no data for 2020

Portugal - no data for 2020

T123B Households with expenditure greater than zero by COICOP consumption purpose

Netherlands - no data for 2010

Sweden - no data for 2020

Finland - no data for 2020

Ireland - no data for 2020

Portugal - no data for 2020

T131 Mean CE by socio-economic category of the reference person

Italy - no data for 2010

Montenegro - no data for 2010

Netherlands - some breakdowns are missing for 2010

North Macedonia - some breakdowns are missing for 2010

Netherlands - no data for 2015

Turkey - no data for 2015

Kosovo - no data for 2015

Sweden - no data for 2020

Finland - no data for 2020

Ireland - no data for 2020
Portugal - no data for 2020
Netherlands - some breakdowns are missing for 2020
Czechia - no data for 2020

T132 Mean CE by number of active persons

Sweden - no data for 2010
Montenegro - some breakdowns are missing for 2010
Kosovo - no data for 2015
Denmark - no data for 2015
Sweden - no data for 2020
Finland - no data for 2020
Ireland - no data for 2020
Portugal - no data for 2020

T133 Mean CE by income quintile

Italy - no data for 2010
Luxembourg - no data 2010
Italy - no data for 2015
Sweden - no data for 2020
Finland - no data for 2020
Ireland - no data for 2020
