Harmonised Data Collection 2020

Data availability by country and by question

November 2022

Introduction

The table below reports on data availability for subsequent questions in Harmonised Data Collection 2020 by country and refers to data provided in the frame of tabular data collection CIS 2020. The table was compiled based on availability of data for at least one indicator derived from the question and for the combination: Total Core NACE and Total Sizeclas categories. Therefore, it does not report on the availability of data and inclusion/exclusion of the questions in national sources.
