Total	85	89	91	95	95	98	92

Note: Empty cells means it existed no enterprises (for example in NACE 07). All values concerning data in NACE 05 and 06 have been set to zero, since there existed no enterprises with 10 employees or more at the time of the sample and in division 09 some small units exist, but have not been sampled because of budget restriction and response burden. Under-coverage because of this is less than 0.01% of the sample from private sector

Response rate from public sector 2020

NACE	Number of employees								Total
	1-4	5-9	10-19	20-49	50-99	100-249	250-499	500-

Total	96	94	87	92	90	86	90	89	91

Note: Empty cells means it existed no local units (for example in NACE 36). In division 16, 33, 35, 43, 45, 46, 47, 49, 51, 55, 59, 62, 63, 70, 71, 74, 78, 79, 80, 82, 94 and 96 some small local units exist, but were not sampled because of budget restriction and response burden. Under-coverage because of this is about 0.5% of the sample from public sector.
