12. Comment	The following classification is used for data availability at Eurostat level:	
	The term "not applicable" related to the categories of permits which do not exist in national legislation/administrative procedures and therefore such statistics cannot be issued.	
	• The term "not available" relates to categories of data that exist in the national legal/administrative system but cannot be delivered under Residence permits statistics data collection for various reasons (e.g. data cannot exist, data exist	
	but are not collected, data are unreliable, etc.).
