Statistical presentation 1.1. Data description	Legal framework This metadata information is provided by the data provider at national level to ensure compliance with the legal requirements: - Seasonal Workers data collection under Article 26 of Directive 2014/36/EU; - Intra-Corporate Transfers data collection under Article 24 of Directive 2014/36/EU; - Intra-Corporate Transfers data collection under Article 24 of Directive 2014/36/EU; - Students, Researchers, Trainees, Volunteers, Pupils and Au Pairs under Article 38 of Directive (EU) 2016/801. These statistics should be provided, in accordance with Regulation (EC) No 862/2007 of the European Parliament and of the Council of 11 July 2007 on Community statistics on migration and international protection. As required by Article 9 of the Regulation 862/2007, Member States must report to Eurostat on the data sources used, the reasons for the selection of these sources and the effects of the selected data on the quality of the statistics. Member States shall provide it with all the information necessary to evaluate the quality, comparability and completeness of the statistical information. The reference terms for the assessment of quality compliance are provided by Eurostat in the Residence permit statistics technical guidelines General data quality issues Data on Seasonal Workers under Article 26 of Directive 2014/36/EU The Netherlands does not give permissions for seasonal workers from third countries. Because it is not plausible that the labour cannot be done by a person from within the EU, the UWV does not give permission for a permit to people outside the EU. [UWV is the Dutch implementing institute for employee insurances, who decides on these topics] So any request from outside the EU to The Netherlands/UWV concerning working as a SW, does not have a chance to be granted. Data on Intra-Corporate Transfers under Article 24 of Directive 2014/66/EU[The economic sector is not registered by the IND. CBS does have this information in its 'ABR' (General Company Registration), and adds the economic a

12. Comment	The following classification is used for data availability at Eurostat level:
	The term "not applicable" related to the categories of permits which do not exist in national legislation/administrative procedures and therefore such statistics cannot be issued.
	• The term "not available" relates to categories of data that exist in the national legal/administrative system but cannot be delivered under Residence permits statistics data collection for various reasons (e.g. data cannot exist, data exist
	but are not collected, data are unreliable, etc.).
