## 2019 Data Cycle\*

### 1 - Timeliness

	Oil	Gas	Coal	Renewables	Electricity
1.1 Submission dates (base: 30 September)	Very Good	Very Good	Very Good	Very Good	Very Good
1.2 Submission dates (base: 30 November)	Very Good	Very Good	Very Good	Very Good	Very Good
1.3 Average response time to queries	Very Good	Very Good	Very Good	Very Good	Very Good

### 2 - Completeness

	Oil	Gas	Coal	Renewables	Electricity
2.1 Data coverage	Very Good	Very Good	Very Good	Very Good	Very Good
2.2 Share of Non-specified in totals	Very Good	Very Good	Very Good	Very Good	Very Good

### 3 - Data Quality

	Oil	Gas	Coal	Renewables	Electricity
3.1 Overall quality of the answers	Very Good	Very Good	Very Good	Very Good	Very Good
3.2 Size of the statistical differences	Very Good	Very Good	Very Good	Very Good	Very Good
3.3 Breaks in time series	Very Good	Very Good	Very Good	Very Good	Very Good
3.4 Internal consistency	Very Good	Very Good	Very Good	Very Good	Very Good

### 4 - Cross-questionnaire consistency

	Electricity vs Oil	Electricity vs Gas	Electricity vs Coal	Electricity vs Ren.
4.1 Inputs to power generation	Very Good	Very Good	Very Good	Very Good

### Legend and notes

Overall assessment

\*including a comparison with 2018 data cycle

indicates that the performance in the current cycle was very good, versus good in the previous cycle.
