ANNEX

to the

on the adoption of the work programme and financing decision for 2018 for the implementation of the European statistical programme 2013-2020
ANNEX

1.1. Introduction

- for grants (implemented under direct management) (1.2): EUR 27 015 500;
- for procurement (implemented under direct management) (1.3): EUR 40 480 415;
- for others (implemented under direct management) (1.4): EUR 583 000.

For the purposes of this financing decision, the priorities of the European statistical work programme for 2018 are those set out in Annex 2.

---

1.2. Grants programming

In the tables below, the timetable and the amount per action are indicative.

Implementation for all grants

By DG ESTAT

1.2.1. Award of grants without call for proposals

Eligibility criteria

Two types of grants will be awarded without a call for proposals within the framework of this work programme:

1) Grants to bodies identified by a basic act within the meaning of Article 54 (FR), as beneficiaries of a grant to bodies designated by the Member States under their responsibility, where those Member States are identified by a basic act as beneficiaries of a grant, in line with Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012:

=> In accordance with Article 190(1)(d) FR, grants will be awarded without a call for proposals to bodies that are identified in the list referred to in Article 5 of Regulation (EC) No 223/2009 as national statistical institutes or other national authorities responsible for the development, production and dissemination of European statistics, after evaluation of the projects submitted.

2) Grants for actions with specific characteristics that require a particular type of body on account of its technical competence, its high degree of specialisation or its administrative power, on condition that the action concerned do not fall within the scope of a call for proposals, in line with Article 190(1)(f) of the Delegated Regulation (EU, Euratom) No 1268/2012:

=> in accordance with Article 190(1)(f), grants will be awarded without a call for proposals to the bodies identified in in the text in the following pages.

For both types of grants the following exclusion, selection and award criteria apply:

Exclusion criteria. Grants may not be awarded to applicants who are, at the time of a grant award procedure, in one of the situations referred to in Articles 106(1), 107 and 109(2)(a) of the Regulation (EU, Euratom) No 966/2012.

Selection criteria. The verification of financial capacity, based in particular on an analysis of the supporting documents requested from the applicants, does not apply to public bodies or international organisations.

Based on a risk assessment and in accordance with Article 131(3) of the Regulation (EU, Euratom) No 966/2012, the obligation to verify the operational capacity of public bodies or international organisations is waived for beneficiaries under this section. According to Article
5 of Regulation 223/2009, grants in Eurostat can be awarded directly without calls for proposal to national statistical institutes or other national authorities responsible in each Member State for the development, production and dissemination of European statistics. Member States are responsible for designating the statistical authorities based on common criteria endorsed by the ESS Committee in May 2014, thereby providing reasonable assurance about the operational capacity to carry out the proposed actions.

**Award criteria.** Applications which have successfully passed the selection stage will be assessed on the basis of the following main criteria:

(a) relevance of applications in relation to the objectives of the invitation and the priorities of the annual work programme adopted by the Commission;

(b) quality of the proposal as concerns.

At least the second of the main criteria will be specified by appropriate sub-criteria, like the efficiency of the proposed approach, the organisation and/or the methods proposed, etc.

### 1.2.1.1. Direct award justified by Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

**Action 1 – Award of grants without a call for proposals in the areas of Europe 2020 (PA1), Economic governance (PA2) and Economic and social performance (PA4)**

**Legal basis**

**Specific objective: Quality statistical information to support EU policies**

| Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012 |

**Priorities of the year, objectives pursued and expected results**

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA1, 2 and 4.

**Description of the activities**

The action will cover the following topics:

- Progress towards full implementation of the ESA 2010 (European System of National and Regional Accounts) and its transmission programme for National Accounts, development and implementation of quality framework for National Accounts data
- Processing harmonised Indices of Consumer Prices
- Real estate indicators
- PPPs data collection 2019
- Other activities in the framework of Europe 2020, Economic governance and Economic and social performance

**Expected results**
- Full implementation of ESA 2010; derogations lifted; quality enhancement of national accounts data.
- Quality enhanced price statistics
- Regular quarterly data on house sales. Enabling the production of CPPIs in MS.
- Input for PPP calculation

</tr>
</tbody>
</table>

Maximum possible rate of co-financing of the eligible costs:
- 90%

**Action 2 – Award of grants without a call for proposals in the area of Environmental sustainability (PA5)**

**Legal basis**

**Specific objective: Quality statistical information to support EU policies**

Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

**Priorities of the year, objectives pursued and expected results**

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA5.

**Description of the activities**

The action will cover the following topics:
- Knowledge Innovation Project on accounting for ecosystems
- Environmental accounts
- Other activities in the framework of Environmental sustainability

**Expected results**

- Experimental work to clarify practical needs for comparable and quality accounts on ecosystems.
- Publication of results and methodological reports. This approach will help to develop national statistical infrastructure and networks.

Indicative timetable and indicative amount of the grants awarded without a call for proposals
Maximum possible rate of co-financing of the eligible costs:

- 70%

**Action 3 – Award of grants without a call for proposals in the areas of Economic globalisation (PA3) and Business (PA6)**

Legal basis

**Specific objective:** Quality statistical information to support EU policies

Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA3 and 6.

Description of the activities

The action will cover the following topics:

- Statistics on Foreign Direct Investment
- Support for implementation of profiling activities in the Member States
- International Trade in Services
- Statistics on the usage of Information and Communication Technologies 2018
- Implementation of STS statistics
- Modernisation actions for compiling PRODCOM statistics
- Structural Business Statistics Development
- Other activities in the framework of Economic globalisation and Business

Expected results

- Reports that confirm or reject the feasibility of implementing the concept of ultimate ownership and by distinguishing greenfield investment.
- Improved consistency of business statistics, more multinational enterprise groups profiled and an improved profiling capacity established.
- Data on the international trade in services of EU countries. Both for Modes of Supply (MoS) and for services trade by enterprise characteristics (STEC).
- Updated statistical data on use of ICT in enterprises and use of ICT in households and by individuals, including the use of new data collection modes; Indicators for benchmarking the goals of the Digital Single Market, Digital Agenda for Europe, the Consumer scoreboard and e-commerce in the EU.
- New STS data requirements fully put in place.
- Improved efficiency of production of PRODCOM statistics at national and EU level, harmonised practices and enhanced tools, FRIBS implementation facilitated, reduced administrative burden on businesses.
• Reports that confirm or reject the feasibility of producing Structural Business Statistics (SBS) figures broken down by control and by type of trader.

Indicative timetable and indicative amount of the grants awarded without a call for proposals

<table>
<thead>
<tr>
<th>Reference</th>
<th>Date</th>

<tbody>
<tr>
<td>ESTAT-PA3 and PA6-2018</td>
<td>Q1 2018 for all activities apart from &quot;Statistics on the usage of Information and Communication Technologies 2018&quot; which will be launched in Q2 2018</td>
<td>3,600,000 EUR</td>
</tr>
</tbody>
</table>

Maximum possible rate of co-financing of the eligible costs

• 90% for "Statistics on the usage of Information and Communication Technologies 2018"
• 95% for "Support for implementation of profiling activities in the Member States"
• 70% for the other activities under this action

Action 4 – Award of grants without a call for proposals in the area of People's Europe (PA 7)

Legal basis

Specific objective: Quality statistical information to support EU policies

Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA7.

Description of the activities

The action will cover the following topics:
• Innovative tools and sources for diary-based surveys, the Household Budget Survey and/or Time Use Survey
• Action plan for the EU Statistics on Income and Living Conditions improvements (timeliness, regionalisation, and revision testing)
• Modernisation of social statistics - Implementation of the reinforced role of social indicators
• Support for improving crime statistics
• Labour Force Survey: quality improvement and estimating breaks in time series linked to the introduction of the IESS Framework Regulation
Other activities in the framework of People's Europe

Expected results

- Tools, sources, recommendations and best practices for the implementation of the Household Budget Survey and the Time Use Survey 2020 wave.
- Improvement of timeliness and regional precision of the EU Statistics on Income and Living Conditions data and capacity building with a view to the revision of the EU Statistics on Income and Living Conditions in the context of the Integrated European Social Statistics Framework regulation and for purposes of the transfer of Euromod data collection into EU-SILC.
- Methodological progress and experimental data for social statistics.
- Better quality of crime statistics.

</tr>
</thead>
<tbody>
<tr>
<td>ESTAT-PA7-2018</td>
<td>03/2018</td>
<td>3.792.000 EUR</td>
</tr>
</tbody>
</table>

Maximum possible rate of co-financing of the eligible costs

- 90% for "Action plan for the EU Statistics on Income and Living Conditions improvements", "Modernisation of social statistics - Implementation of the reinforced role of social indicators", "Innovative tools and sources for diary-based surveys, the Household Budget Survey and/or Time Use Survey"
- 70% for "Support for improving crime statistics" and "Labour Force Survey: quality improvement and estimating breaks in time series linked to the introduction of the IESS Framework Regulation" and " Other activities in the framework of People's Europe"

**Action 5 – Award of grants without a call for proposals in the area of Geospatial, environmental, agricultural and other sectoral statistics (PA8)**

Legal basis

**Specific objective: Quality statistical information to support EU policies**

Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA8.
Description of the activities

The action will cover the following topics:

- Merging statistics and geospatial information in Member States
- Waste statistics
- Intermodal transports
- Modernisation of agricultural statistics
- Early estimates of energy balances
- Passenger mobility and Road traffic
- Inland Waterways - Passengers statistics
- Streamlining and simplification of European fishery statistics
- GEOSTAT 4
- Other activities in the framework of Geospatial, environmental, agricultural and other sectoral statistics

Expected results

- Contribution to an intensified cooperation on the integration of statistics with geospatial information.
- Comparable and quality statistics on food waste generation and treatment and on imports and exports of waste.
- Harmonised indicators on intermodal transports needed for the monitoring of Transport White Paper targets.
- Adaptation, development and improvement of data collection and data processing. Set up of statistical farm registers. Introduction of unique farm identifiers to be used in administrative registers and in agricultural statistics. Methodological reports. Detailed documentation of the actions.
- Development and deployment of the systems for producing estimates of annual energy statistics so that these estimates can be transmitted to Eurostat within 5 months after the end of the reference year.
- Harmonisation indicators for Passenger mobility/Road traffic needed for the monitoring of Transport White Paper targets.
- New date collection including methodological aspects.
- Adaptation, development and improvement of data collection and data processing. Methodological reports. Detailed documentation of the actions.
- Creation of the bases for successful integration of geographic information and statistics.

</table>

Maximum possible rate of co-financing of the eligible costs

- 95% for "Passenger mobility and Road traffic", "Inland Waterways - Passengers statistics", "Streamlining and simplification of European fishery statistics"
• 90% for "Modernisation of agricultural statistics", "Early estimates of energy balances"
• 70% for the other activities under the call

Action 6 – Award of grants without a call for proposals in the areas of ESS quality management (PA9)

Legal basis

Specific objective: New methods of production of European statistics

Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA9.

Description of the activities

The action will cover the following topics:

• European Conference on Quality in Official Statistics (Q2020)
• Other activities in the framework of ESS quality management

Expected results

• A conference programme organised under a range of themes related to statistical quality; A high level of participation from statisticians of the NSIs in the ESS and beyond and from academia by providing scientific papers on relevant quality issues; New priorities and areas of development for Eurostat and the NSIs, as well as an increase in international cooperation on quality issues, emerging from the different debates; Training courses on important methods.

</tbody>
</table>

Maximum possible rate of co-financing of the eligible costs

• 50%

Action 7 – Award of grants without a call for proposals in the areas of multipurpose statistics and efficiency gains in production (PA11)

Legal basis

Specific objective: New methods of production of European statistics
Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA11.

Description of the activities

The action will cover the following topics:
- ESS.VIP on administrative data sources (ESS.VIP.BUS.ADMIN) - actions in Member States (grants outside ESSnets)
- Implementation of a redesigned and modernised Intrastat system
- Support to ESS members on IT security improvement
- National deployment of ESS.VIP Validation
- SERV deployment grants
- Steps towards implementing the European system of interoperable business registers and improved reflection of globalisation impacts in business statistics
- Big Data Action Plan
- ESS.VIP on administrative data sources (ESS.VIP.BUS.ADMIN) - ESSnet on quality of statistics from multiple sources (specific grants under FPA)
- Other activities in the framework of Multipurpose statistics and efficiency gains in production

Expected results

- WP6 Pilot studies and applications leading to wider use of administrative data sources in multiple business areas (to support NSIs to access and explore new sources of administrative data and to improve use of already known sources).
- Specific actions aiming at implementing the redesigned and modernised Intrastat system in accordance to the different themes defined in the general framework plan
- Compliance to ESS IT Security framework
- Validation tools used by Member States.
- Renovated production chains in NSIs following ESS EA standards.
- Improved consistency of business statistics, testing of the interoperability framework, support (methodology and implementation) for an improved profiling capacity established
- Support to the execution of the activities of the Big Data action plan. The main activity will be the execution of pilot projects for analysing feasibility and preparing production of statistics from selected big data sources in ESS context. The pilots will also contribute to horizontal topics (methodological and quality framework, metadata requirements, IT infrastructure, skills, partnerships with data providers and scientific community, communication within the ESS and to public). The work should contribute towards preparing the ESS for future integration of Big data sources into the production of official statistics.
- Planned ESSnet deliverables under WP3 (quality measures for statistics using
administrative data) and WP5 (frames for social statistics).

- 95% for "ESS.VIP on administrative data sources (ESS.VIP.BUS.ADMIN) - actions in Member States (grants outside ESSnets)", "Support to ESS members on IT security improvement", "Steps towards implementing the European system of interoperable business registers and improved reflection of globalisation impacts in business statistics" and "ESS.VIP on administrative data sources (ESS.VIP.BUS.ADMIN) - ESSnet on quality of statistics from multiple sources (specific grants under FPA)"
- 70% for other activities in the framework of Multipurpose statistics and efficiency gains in production

Action 8 – Award of grants without a call for proposals in the area of Dissemination and communication (PA12)

Legal basis

Specific objective: New methods of production of European Statistics

Article 190(1)(d) of the Delegated Regulation (EU, Euratom) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA12.

Description of the activities
The action will cover the following topics:

- DIGICOM grants on ESS capacity building
- SDC (Statistical disclosure control) - Centre of Excellence
- Other activities in the framework of Dissemination and communication
- For the topic SDC, the grant agreement will take the form of a special grant agreement under the Framework Partnership Agreement "Statistical disclosure control" signed on 9/10/2014.

Expected results

- Development or adaptation of ESS capacities and products in the areas covered by DIGICOM.
- Align confidentiality practices in Member States in line with EG SDC priorities.

Indicative timetable and indicative amount of the grants awarded without a call for proposals

- 70% for "SDC (Statistical disclosure control) - Centre of Excellence"

1.2.1.2. Direct award justified by Article 190(1)(f) of the Delegated Regulation (EU, Euratom) No 1268/2012 the specific characteristics of the action

**Action 1 – Direct grant to UN trust fund in the area of Environmental sustainability (PA5)**

**Legal basis**

**Specific objective: Quality statistical information to support EU policies**

Article 190(1)(f) of Delegated Regulation (EU) No 1268/2012

**Priorities of the year, objectives pursued and expected results**

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA5.

**Description of the activities**

Cooperation with UN trust fund covers the revision of SEEA Experimental Ecosystem Accounting handbook

This grant must be implemented with the UN which is an international organisation applying standards that offer guarantees equivalent to internationally accepted standards in their accounting, audit, internal control and procurement procedures and with the unique technical
expected results

- International standard handbook available to ensure comparable and quality accounts on ecosystems.

Indicative timetable and indicative amount of the grants awarded without a call for proposals

**Action 2 – Direct grant to OECD in the area Partnership (PA14)**

Legal basis

**Specific objective: Partnership within the European Statistical System and beyond**

Article 190(1)(f) of Delegated Regulation (EU) No 1268/2012

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA14.

Description of the activities

Cooperation with OECD covers the organisation of the 2018 OECD-IAOS Conference

This grant must be implemented with OECD which has the unique technical competence in the field of the grant. The grant will be made in line with the provisions of article 190 (1) (f) from the Commission Delegated Regulation (EU, Euratom) No 1268/2012.

Expected results

The expected results of the OECD-IAOS 2018 conference (to be held in Paris on 19-21 September 2018) are a broader promotion of official statistics through discussions on the most pressing problems regarding the production, dissemination, and use of official statistics in 5 different themes: sustainability, Well-being and Quality of Life, The Future Role of Official
Statistics, Communication and Statistical Literacy and Digitalisation and Globalisation.

The IOAS-OECD 2018 conference aims to bring together representatives from statistical offices, international organisations, governmental institutions, educational institutions, research institutes, medias and every individual who has an interest in the statistical work to exchange their knowledge, experiences in order to improve the communication and the image of the statistics.

- 90%

1.2.2. Open calls for proposals

For all grants under this section the following essential eligibility, selection and award criteria apply:

Eligibility criteria. To be eligible, grant applications must comply with the following criteria:

(a) The applicants must be non-profit organisation (private or public) or public authorities (national, regional, local);

(b) The applicants must be Member States' public sector accounting regulators, in particular public sector standard-setting authorities and those public entities which have a responsibility for leading or coordinating the implementation of public sector accounts standards across or between general government sub-sectors.

Exclusion criteria. Grants may not be awarded to applicants who are, at the time of a grant award procedure, in one of the situations referred to in Articles 106(1), 107 and 109(2)(a) of the Regulation (EU, Euratom) No 966/2012.

Selection criteria.

Financial capacity: Applicants must have stable and sufficient sources of funding to maintain their activity throughout the duration of the grant and to participate in its funding. The verification of financial capacity does not apply to public bodies or international organisations.

Operational capacity: Applicants must have the professional competencies as well as appropriate qualifications necessary to complete the proposed action.

Award criteria. Applications which have successfully passed the selection stage will be assessed on the basis of the following main criteria:

(a) relevance of applications in relation to the objectives of the invitation and the priorities of the annual work programme adopted by the Commission;

(b) quality of the proposal as concerns.

At least the second of the main criteria will be specified by appropriate sub-criteria, like the efficiency of the proposed approach, the organisation and/or the methods proposed, etc.
1.2.2.1. Call/Action 1 – Call for proposals in the area of Economic governance (P 2)

Legal basis

Specific objective: Quality statistical information to support EU policies

Priorities of the year, objectives pursued and expected results

The objectives, priorities and expected results are outlined in Annex 2 Eurostat Annual Work Programme 2018, PA2.

Description of the activities:

The call will cover the following topics:
- European Public Sector Accounting Standards

Expected results

- Modernisation of public sector accounting on an accruals basis in support of European Public Sector Accounting Standards.
