Preliminary flash estimate for the first quarter of 2021

**GDP down by 0.6% in the euro area and by 0.4% in the EU**

-1.8% and -1.7% respectively compared with the first quarter of 2020

In the first quarter 2021, seasonally adjusted GDP decreased by 0.6% in the **euro area** and by 0.4% in the **EU**, compared with the previous quarter, according to a preliminary flash estimate published by **Eurostat, the statistical office of the European Union**. These declines follow falls in the fourth quarter of 2020 (-0.7% in the **euro area** and -0.5% in the **EU**) after a strong rebound in the third quarter of 2020 (+12.5% in the **euro area** and +11.7% in the **EU**) and the sharpest decreases since the time series started in 1995 observed in the second quarter of 2020 (-11.6% in the **euro area** and -11.2% in the **EU**).

These preliminary GDP flash estimates are based on data sources that are incomplete and subject to further revisions.
Compared with the same quarter of the previous year, seasonally adjusted GDP decreased by 1.8% in the euro area and by 1.7% in the EU in the first quarter of 2021, after -4.9% in the euro area and -4.6% in the EU in the previous quarter.

Among the Member States for which data are available for the first quarter 2021, Portugal (-3.3%) recorded the highest decrease compared to the previous quarter, followed by Latvia (-2.6%) and Germany (-1.7%), while Lithuania (+1.8%) and Sweden (+1.1%) recorded the highest increases. The year on year growth rates were negative for all countries except for France (+1.5%) and Lithuania (+1.0).

* See "Methods and definitions"

** Growth rates to the previous quarter and to the same quarter of the previous year presented in this table are generally both based on seasonally and calendar adjusted figures since unadjusted data are usually not transmitted for the compilation of GDP flash estimate.

*** Percentage change compared with the same quarter of the previous year calculated from calendar adjusted data.

Source dataset: namq_10_gdp

The next estimates for the first quarter of 2021 will be released on 18 May 2021.
Geographical information

**Euro area (EA19):** Belgium, Germany, Estonia, Ireland, Greece, Spain, France, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.

**European Union (EU27):** Belgium, Bulgaria, Czechia, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, the Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland and Sweden.

Methods and definitions

European quarterly national accounts are compiled in accordance with the European System of Accounts 2010 (ESA 2010).

The preliminary flash estimate of the first quarter of 2021 GDP growth presented in this release is based on the data of 17 Member States, covering 93% of euro area GDP and 91% of EU GDP. The country coverage was not affected by the COVID-19 crisis.

Two statistical working papers present the preliminary GDP flash methodology for the European estimates and Member States estimates. The method used for compilation of European GDP estimates is the same as for previous releases.

Revisions and timetable

With this preliminary flash estimate, euro area and EU GDP figures for earlier quarters are not revised.

All figures presented in this release may be revised with the GDP t+45 flash estimate scheduled for 18 May 2021 and subsequently by Eurostat’s regular estimates of GDP and main aggregates (including employment) scheduled for 8 June 2021 and 19 July 2021.

Data on revisions for test estimations, showing that the preliminary flash estimation procedure is sufficiently reliable, are available in chapter 5 of the statistical working paper Euro area and EU GDP flash estimates at 30 days.
