

70/2021 - 16 June 2021

First quarter of 2021

Euro area job vacancy rate at 2.1%

EU rate at 2.0%

In the first quarter of 2021, the job vacancy rate was 2.1% in the **euro area**, up from 1.9% in the previous quarter and 1.8% in the first quarter of 2020, according to figures published by **Eurostat, the statistical office of the European Union**. The job vacancy rate in the **EU** was 2.0% in the first quarter of 2021, up from 1.8% in the previous quarter and in the first quarter of 2020.

In the **euro area**, the job vacancy rate in the first quarter of 2021 was 1.9% in industry and construction, and 2.2% in services. In the **EU**, the rate was 1.9% in industry and construction, and 2.1% in services.

Member States

Among the Member States for which comparable data are available (see country notes), the highest job vacancy rates in the first quarter of 2021 were recorded in **Czechia** (5.0%), **Belgium** (3.5%) and the **Netherlands** (3.0%). In contrast, the lowest rates were observed in **Greece** (0.3%) and **Spain** (0.7%).

Compared with the same quarter of the previous year, the job vacancy rate fell in eight Member States, remained stable in five Member States and increased in twelve Member States. Data were not available for France (first quarter of 2020) nor Ireland (first quarter of 2021). The largest decreases were recorded in **Czechia** and **Luxembourg** (both -0.7 pp) and **Sweden** (-0.4 pp). The largest increases were recorded in **Italy** (+0.8 pp), **Lithuania** (+0.5 pp) and the **Netherlands** (+0.4 pp).

Geographical information

The **euro area** (EA19) includes Belgium, Germany, Estonia, Ireland, Greece, Spain, France, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.

The **European Union** (EU27) includes Belgium, Bulgaria, Czechia, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, the Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland and Sweden.

Methods and definitions

The **job vacancy rate** (JVR) measures the proportion of total posts that are vacant, expressed as a percentage:

$$\text{JVR} = (\text{number of job vacancies}) / (\text{number of occupied posts} + \text{number of job vacancies}).$$

A **job vacancy** is defined as a paid post (newly created, unoccupied or about to become vacant) for which the employer is taking active steps to find a suitable candidate from outside the enterprise concerned and is prepared to take more steps and which the employer intends to fill either immediately or in the near future. Under this definition, a job vacancy should be open to candidates from outside an enterprise. However, this does not exclude the possibility of the employer recruiting an internal candidate for the post. A vacant post that is open only to internal candidates should not be treated as a job vacancy. An occupied post is a paid post within an organisation to which an employee has been assigned.

Job vacancy rates cover NACE Rev. 2 sections B to S. This aggregate is referred to as "**Whole economy**" for the sake of simplification, even if agriculture, activities of households as employers and activities of extraterritorial organisations are excluded. NACE Rev. 2 sections B to S include the industry (B to E), construction (F) and services (G to N) sectors together with (mainly) non-market services (O to S).

The job vacancy rates for the EU and euro area aggregates are based on Member States data, including estimates for recent periods when values are not yet available. If national data are only available for a sub-population, for example excluding smaller units or some activities, this sub-population is used in the computation of the job vacancy rate for the aggregates.

Country notes:

Denmark, France and Italy: data are not strictly comparable. In Denmark, only units within the business economy (NACE Rev 2 sections B to N) are surveyed. In France, only business units with 10 employees or more are surveyed. Moreover, in the case of public administration, education and human health (NACE Rev. 2 sections O, P and Q), public institutions are not covered in France and Italy.

Revisions and timetable

Compared with the rates published in News Release [36/2021](#) of 19 March 2021, the job vacancy rate for the fourth quarter of 2020 remains unchanged in the euro area and the EU.
