### Geographical information

The **euro area** consists of Belgium, Germany, Estonia, Ireland, Greece, Spain, France, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.

The euro area data refer to the country composition at a specific point in time. Changes in the composition of the euro area are incorporated using a chain index formula.

### Methods and definitions

**Annual inflation** is the change of the price level of consumer goods and services between the current month and the same month of the previous year. **Monthly inflation** is the change of the price level between the current month and the previous month.

### Revisions and timetable

The euro area inflation flash estimate is issued at the end of each reference month.

The complete set of harmonised indices of consumer prices (HICP) for the euro area, EU and Member States is released around the middle of the month following the reference month. The next release with full data for May 2022 is scheduled for 17 June 2022.
