

CONTENTS

■ INTRODUCTION	9
New shape for Europe — new NUTS nomenclature	11
A detailed look at the new nomenclature	11
Enlargement.	11
Content and structure	11
Specialist input	12
NUTS 2003 — regions list	12
More regional information needed?	12
Regional interest group on the web	13
Closure date for the yearbook data	13
■ POPULATION	15
Introduction.	17
Ageing population.	17
Causes of the ageing population.	20
Consequences of an ageing population	22
Expectations for the future	23
Literature	24
■ AGRICULTURE	25
Introduction.	27
Animal-rearing in Europe's regions	27
Pigs	27
Sheep	27
Cattle	30
Location of milk production	31
Milk production.	31
■ REGIONAL GROSS DOMESTIC PRODUCT	35
What is regional gross domestic product?	37
Regional GDP in 2001	39
Major regional differences within the countries	40
Peripheral regions and new Member States catching up.	40
■ HOUSEHOLD ACCOUNTS	43
Introduction: Measuring wealth.	45
Private household income	45
Results for 2001.	46
Extended concept of income	50
Regional income of all sectors.	52
Conclusion	52
■ REGIONAL LABOUR MARKET	53
Introduction.	55
Employment rate of age group 15–64	55
Change in employment	55
Agriculture	57

Services	59
Unemployment rate	60
Change in unemployment	60
Female unemployment	61
Youth unemployment	64
Long-term unemployment.	66
■ STRUCTURAL BUSINESS STATISTICS	67
Introduction.	69
Industry predominates in the new Member States.	71
High wages around capital cities, particularly in industry.	73
Employment in industry unevenly distributed across the regions	76
Capital-intensive industries in the regions.	79
Conclusion	79
■ HEALTH	81
Introduction.	83
Mortality in the EU regions	83
Many factors influence regional mortality.	83
Remarkably few cerebrovascular deaths in France	84
Colon-cancer rates reflect similarities in eating habits.	87
High UK female mortality from influenza and pneumonia	87
Prostate cancer — clear north–south divide	88
Breast cancers: sharp geographical distinction.	90
Fatal accidents — men in traffic, women in falls	91
Fewer traffic deaths in urban areas	91
Falls — regional diversity in Belgium and Germany.	92
Healthcare resources in EU regions	94
Changes in the number of doctors	94
Changes in the number of hospital beds	95
Comments on methodology.	96
Socio-health regions.	97
Mortality indicators.	97
Resource indicators	97
■ TOURISM	99
Introduction.	101
Methodological notes	101
Capacity (infrastructure) statistics.	101
Occupancy data.	103
Conclusion	105
■ URBAN STATISTICS	109
Background	111
Content and spatial coverage	111
Some interesting results	112
Dissemination of results.	120
Next steps.	120

■ NUTS 1 STATISTICS	123
NUTS 1 — potential unrealised	125
NUTS 1 in the Member States.	125
Administrative NUTS 1 regions — historical and cultural entities.	125
Non-administrative — primarily geographical divisions.	127
What does the NUTS 1 level offer?	127
Contrasting NUTS 1 with NUTS 2	129
Constraints and expansion	131
■ EUROPEAN UNION: NUTS 2 REGIONS	133
■ ACCESSION COUNTRIES: NUTS 2 REGIONS	135
