Foreword.....	3
Abstract.....	4
Contents.....	7
Introduction: Environmental statistics and accounts in Europe	9
Executive summary.....	12
Abbreviations.....	24
Further information	29
1. Households	31
Household consumption patterns and the environment	31
The trend in European households.....	32
Household consumption from a life-cycle perspective.....	35
The influence of urbanisation on consumption patterns	64
Varying environmental pressures of products	66
Conclusions: The need for sustainable consumption	68
Further information	70
Methodological notes	72
2. Economy-wide material flows	75
Understanding material flows in Europe	75
Material flows trends	76
Resource productivity	80
Domestic and foreign resources	86
Conclusions: Economy-wide material flows	90
Further information	92
Methodological notes	93
3. Waste	97
Defining waste.....	97
Waste generated in European countries.....	99
Waste streams in Europe.....	100
The generation of waste	103
Transportation of waste	116
Waste management	118
The recycling sector	121
EU rules for specific waste streams	123
Conclusions: Waste in the European Union	131
Further information	132
Methodological notes	133

4. Water	135
Cornerstones of water-related policies	135
Further information	163
Methodological notes	164
5. Air emissions accounts	167
Purpose of air emissions accounts	167
European production systems result in air emissions	171
Further information	184
Methodological notes	185
6. Chemicals	187
Production, trade and use of chemicals in Europe	187
Conclusions: Chemicals in the European Union	207
Further information	208
Methodological notes	209
7. Biodiversity and land use	213
Biodiversity: what is it, where is it and how is it faring?	213
Land cover and land use change and biodiversity loss	229
What can be done by the European Union and its Member States?	233
Further information	236
Methodological notes	238
8. Agri-environmental indicators	241
How important is agriculture and how does it affect the environment?	241
Further information	267
Methodological notes	268
9. Forestry	271
Forests and forestry	271
Conclusions: forests of the European Union	289
Further information	290
Methodological notes	293
10. Environmental protection expenditure	297
Defining environmental protection expenditure	297
Conclusions: environmental protection expenditure in Europe	315
Further information	316
Methodological notes	317
11. Environmentally related taxes	319
The importance of environmental taxes as a policy tool	319
Pollution and resource tax revenues	334
Conclusions: Environmental taxes in the European Union	335
Further information	337
Methodological notes	338
