

Table of contents

1	Calculating greenhouse gas emissions	7
1.1	Emissions: an introduction	9
	The issues	9
	Actors and responsibilities	11
	Historical perspective	15
1.2	Emissions: how are they estimated?	16
	Emission inventories	16
	Air emissions accounts	19
1.3	Emissions: main indicators	21
	Greenhouse gases by source	22
	Greenhouse gases by type of gas	26
	Greenhouse gases in the Member States	27
	Emission intensities	28
	Emission intensities by economic activity	30
	Public perceptions	31
2	Official statistics for emission reporting	33
2.1	Land use and agriculture	35
2.2	Energy	47
2.3	Business (industry and services)	59
2.4	Transport	69
2.5	Waste	81
