## Eurostat regional yearbook 2010

*Eurostat regional yearbook 2010* gives a detailed picture of a large number of statistical fields in the 27 Member States of the European Union, as well as in candidate and EFTA countries. If you would like to take a closer look at social and economic trends in Europe's regions, this publication is for you! The texts are written by specialists in statistics and are accompanied by maps, figures and tables on each subject. There is a broad set of regional indicators for the following 15 subjects: population, European cities, labour market, gross domestic product, household accounts, structural business statistics, information society, science, technology and innovation, education, transport, tourism, health, agriculture, coastal regions and, last but not least, a study on a new urban-rural typology. This publication is available in German, English and French.
