<b>INTRODUCTION</b> .....	11
Statistics on regions and cities .....	12
Historically speaking .....	12
Core content and news in the 2010 edition .....	12
The NUTS classification .....	13
Coverage .....	14
More regional information .....	14
<b>1 POPULATION</b> .....	17
Unveiling the regional pattern of demography .....	18
Population density .....	18
Population change .....	18
Regional population projections .....	27
Conclusion .....	32
Methodological notes .....	33
<b>2 EUROPEAN CITIES</b> .....	35
Introduction .....	36
The topics .....	36
The time frame .....	36
The spatial dimension .....	36
Urbanisation .....	36
Present and future generations — the demographic challenge .....	37
Conclusion .....	43
<b>3 LABOUR MARKET</b> .....	49
Introduction .....	50
Regional sector specialisation .....	50
Brief overview of 2008 .....	50
Regional sector specialisation .....	57
High education levels in the regional labour market .....	58
Conclusion .....	60
Structure of Earnings Survey .....	63
Gross hourly earnings .....	63
Gross annual earnings .....	65
Annual bonuses as a percentage of annual earnings .....	65
Conclusion .....	68
Methodological notes .....	69
Labour Force Survey .....	69
Structure of Earnings Survey .....	69
Definitions .....	70
Labour Force Survey .....	70
Structure of Earnings Survey .....	71

<b>4 GROSS DOMESTIC PRODUCT</b> .....	73
What is regional gross domestic product? .....	74
Regional GDP in 2007 .....	74
Major regional differences even within the countries themselves .....	77
Dynamic catch-up process on the periphery .....	77
Different trends even within the countries themselves .....	80
Convergence makes progress .....	81
Conclusion .....	84
Methodological notes.....	86
Purchasing power parities and international volume comparisons.....	86
Dispersion of per inhabitant GDP.....	86
<b>5 HOUSEHOLD ACCOUNTS</b> .....	89
Introduction: Measuring wealth .....	90
Private household income .....	90
Results for 2007 .....	91
Primary income .....	91
Disposable income .....	91
Dynamic developments at the edges of the Union .....	95
Conclusion .....	97
Methodological notes.....	99
<b>6 STRUCTURAL BUSINESS STATISTICS</b> .....	101
Introduction .....	102
Regional specialisation and business concentration.....	102
Specialisation in business services.....	108
Employment growth in business services .....	110
Characteristics of the top 30 most specialised regions in business services.....	111
Methodological notes.....	116
<b>7 INFORMATION SOCIETY</b> .....	119
Introduction .....	120
Access to information and communication technologies .....	120
Regular use of the Internet.....	123
Online shopping: e-commerce attracts customers.....	123
Non-users of the Internet.....	129
Conclusion .....	130
Methodological notes.....	132
<b>8 SCIENCE, TECHNOLOGY, AND INNOVATION</b> .....	135
Introduction .....	136
Research and development.....	136
Human resources in science and technology.....	138
Patents .....	142
Conclusion .....	143
Methodological notes.....	147

<b>9 EDUCATION</b> .....	149
Introduction .....	150
Students in tertiary education.....	150
Students aged 17 in education.....	151
Participation of 4-year-olds in education.....	151
Pupils in primary or lower-secondary education .....	153
Tertiary educational attainment .....	153
Lifelong learning.....	158
Conclusion .....	158
Methodological notes.....	161
<b>10 TRANSPORT</b> .....	163
Introduction .....	164
Transport infrastructure .....	164
Road safety.....	169
Air transport .....	171
Maritime transport.....	172
Conclusion .....	175
Methodological notes.....	181
<b>11 TOURISM</b> .....	183
Introduction .....	184
Top 20 tourist regions in the EU-27.....	184
Regions with over 8 million overnight stays.....	185
Regions popular with tourists from the same country.....	185
Tourism intensity (carrying capacity).....	186
Tourism density .....	189
Average length of stay .....	189
Trends in tourism .....	189
Inbound tourism .....	189
Conclusion .....	193
Methodological notes .....	197
<b>12 HEALTH</b> .....	199
Introduction .....	200
Causes of death .....	200
Respiratory diseases.....	200
Chronic lower respiratory diseases .....	201
Hospital discharges.....	201
Nurses and midwives.....	201
Conclusion .....	207
Methodological notes.....	209
<b>13 AGRICULTURE</b> .....	211
Introduction .....	212
Contribution of agriculture to GVA.....	212
Labour productivity of agriculture.....	212

Importance of crop production .....	214
Agricultural productivity .....	214
Energy costs in agriculture .....	217
Conclusion .....	217
Methodological notes.....	221
<b>14 COASTAL REGIONS .....</b>	<b>223</b>
Introduction .....	224
Europeans attracted by the coast .....	224
Growing old or retiring on the coast .....	224
Ebb and flow of the active population.....	226
Unemployment in the coastal regions.....	226
Services well-established in the coastal regions.....	229
High gross domestic product in the capital regions .....	229
High density of tourism in the southern regions .....	229
Users of sea transport .....	229
Conclusion .....	234
Methodological notes.....	236
<b>15 A REVISED URBAN-RURAL TYPOLOGY.....</b>	<b>239</b>
Introduction .....	240
Why a new typology? .....	240
The OECD methodology.....	240
Identifying rural local administrative units level 2 .....	240
Classifying the regional level .....	240
The new typology.....	242
Definition based on a population grid.....	242
Definition at the regional level .....	245
Other regional levels .....	249
Conclusion .....	249
<b>ANNEX 1 — NUTS (nomenclature of territorial units for statistics) .....</b>	<b>255</b>
European Union: NUTS 2 regions .....	255
Candidate countries: Statistical regions at level 2 .....	258
EFTA countries: Statistical regions at level 2 .....	259
<b>ANNEX 2 — Cities participating in the Urban Audit data collection .....</b>	<b>260</b>
European Union: Urban Audit cities .....	260
Candidate countries: Urban Audit cities .....	263
EFTA countries: Urban Audit cities.....	264
