| <b>INTRODUCTION</b> .....                                       | <b>11</b> |
| <b>EU statistics on regions and cities</b> .....                | <b>12</b> |
| The NUTS classification .....                                   | 12        |
| The use of NUTS in this publication .....                       | 12        |
| Coverage and timeliness .....                                   | 13        |
| More information about regional statistics .....                | 13        |
| More information about statistics on cities .....               | 14        |
| Eurostat online data codes .....                                | 14        |
| Statistics explained .....                                      | 14        |
| <b>EU policies</b> .....  | <b>14</b> |
| Europe 2020 strategy .....                                      | 14        |
| Regional policies .....   | 15        |
| Urban policies .....  | 15        |
| <b>1 ECONOMY</b> .....  | <b>17</b> |
| <b>Main statistical findings</b> .....                          | <b>18</b> |
| Regional GDP per inhabitant .....                               | 18        |
| A more detailed regional analysis .....                         | 19        |
| Major regional differences within countries .....               | 19        |
| Convergence .....   | 23        |
| Overall increase in convergence within the EU .....             | 25        |
| Private household income: 2008 results .....                    | 25        |
| <b>Data sources and availability</b> .....                      | <b>26</b> |
| Comparisons between where people work and where they live ..... | 28        |
| Purchasing power parities .....                                 | 29        |
| Dispersion of regional GDP per inhabitant .....                 | 29        |
| Further information .....                                       | 29        |
| <b>Context</b> .....  | <b>29</b> |
| <b>2 POPULATION</b> .....                                       | <b>31</b> |
| <b>Main statistical findings</b> .....                          | <b>32</b> |
| Population size and density .....                               | 32        |
| Population change .....   | 32        |
| Decline in the fertility rate .....                             | 38        |
| Life expectancy gaps between men and women .....                | 38        |
| Demographic ageing .....  | 40        |
| <b>Data sources and availability</b> .....                      | <b>41</b> |
| Further information .....                                       | 41        |
| <b>Context</b> .....  | <b>41</b> |
