INTRODUCTION 11
EU statistics on regions and cities 12
The NUTS classification 12
Coverage and timeliness of statistics on regions and cities 13
More information about statistics on regions and cities 14
Eurobase — Eurostat's online database 14
Statistics explained 14
EU policies 15
Europe 2020 strategy 15
Regional policies 15
Future cohesion policy — alignment with the Europe 2020 strategy 16
Rural development policy 16
Future rural development policy — alignment with the Europe 2020 strategy and the reform of the CAP 17
Urban policies 17
Urban development — future cohesion policy 17

1. ECONOMY 19
Main statistical findings 20
Regional GDP per inhabitant 20
A more detailed regional analysis 21
Changes over time 21
Focus on longer-term changes in selected regions 24
Around a quarter of the EU's population lived in regions where GDP was less than 75 % of the EU-27 average 24
Major regional differences within countries 28
Data sources and availability 29
Comparisons between where people work and where they live 29
Purchasing power parities 29
Context 29
Measuring economic development 29
Economic policies 30

2. POPULATION 31
Main statistical findings 32
Population size and density 32
Population change 34
Decline in the fertility rate 38
Declining infant mortality 40
Life expectancy gaps between men and women 40
Demographic ageing 43
Data sources and availability 47
Context 50

3. HEALTH 51

Main statistical findings 52

Causes of death 52

Diseases of the circulatory system 52

Diseases of the respiratory system 53

Cancer (malignant neoplasms) 56

Hospital beds 60

Healthcare professionals 61

Data sources and availability 61

Causes of death 61

Healthcare 64

Context 64

4. EDUCATION 65

Main statistical findings 66

Participation of 4-year-olds in education 66

Students aged 17 in education 66

Early leavers from education and training 68

Students in tertiary education 71

Tertiary educational attainment 75

Data sources and availability 78

Context 80

Diversity of national education systems 80

Education and training 2020 80

5. LABOUR MARKET 83

Main statistical findings 84

Employment rates 84

Changes in employment rates from 2008 to 2011 84

Male and female employment rates 86

Employment rates for older workers 88

Unemployment rates 91

Changes in unemployment rates 93

Youth unemployment 96

Earnings at a regional level 100

Data sources and availability 100

Context 101

6. STRUCTURAL BUSINESS STATISTICS 105

Main statistical findings 106

Industrial and services specialisation 106

Detailed specialisation within the non-financial business economy 110

Range of specialisation 112

Business concentration 115

Data sources and availability 117

Context 117

7. TOURISM 119
Main statistical findings 120
Number of overnight stays 120
Recent trends in hotel tourism 122
Recent trends in camping tourism 123
Share of inbound tourism 123
Top 20 tourist regions in the EU-27 visited by foreign tourists 123
Most popular regions 128
Tourism intensity 130
Average length of stay 130
Accommodation capacity 130
Size of accommodation establishments 133
Data sources and availability 133
Context 136
Tourism diversity 136
Policies 137

8. INFORMATION SOCIETY 139
Main statistical findings 140
Access to information and communication technologies 140
Regular use of the Internet 143
E-commerce by individuals 143
Data sources and availability 147
Context 147

9. AGRICULTURE 149
Main statistical findings 150
Economic significance of agriculture 150
Agricultural labour productivity 152
Structure of agricultural holdings 153
Livestock and crops 156
Agri-environmental indicators 160
Data sources and availability 163
Context 166

10. TRANSPORT 167
Main statistical findings 168
Motorway networks 168
Stock of passenger cars, buses and coaches 168
Stock of road freight vehicles 170
Road safety 175
Air transport 175
Rail transport 178
Maritime transport 179
Data sources and availability 183
Context 184

11. SCIENCE AND TECHNOLOGY 185
Main statistical findings 186
Research and development intensity 186
Researchers 188
Human resources in science and technology 190
Employment in high-tech sectors 193
Patents 194
Data sources and availability 196
Context 196

12. FOCUS ON EUROPEAN CITIES 199
Main statistical findings 200
Living in cities and urban areas 200
Age and old age 204
Transport 207
Tourism 211
Cultural facilities 211
Data sources and availability 215
Context 215
Europe 2020 215
Sustainable investment 215

13. FOCUS ON CITIES AND METRO REGIONS 217
Main statistical findings 218
Larger urban zones:
a city and its commuting zone 218
A typology of metro(politan) regions 219
Links between the definition of a city and its commuting zone and the degree of urbanisation typology 222
No link between metro regions and the urban–rural regional typology 222
Context 223

14. FOCUS ON INCOME AND LIVING CONDITIONS 225
Main statistical findings 226
People at risk of poverty or social exclusion 226
People at risk of poverty 227
Severe material deprivation rate 228
People living in households with very low work intensity 229
Overcrowded households 230
Overburden of housing costs 230
Severe housing deprivation 231
A comparison summarising indicators across the whole of the EU 232
A comparison summarising indicators across the Member States 233
Data sources and availability 234
Degree of urbanisation 234
Statistics on income and living conditions 234
Indicator definitions 234
Context 235

15. FOCUS ON RURAL DEVELOPMENT 237
Main statistical findings 238
Focus on the population in predominantly rural regions 238
Focus on the labour market in predominantly rural regions 246
Focus on the economy in predominantly rural regions 251
Focus on agriculture and tourism in rural regions 252
Data sources and availability 260
Urban–rural typology 260
Context 260
Regional issues for rural areas 260
Policies 262
Employment in rural areas 262
Annex 1 — Classification of territorial units for statistics, 2010 version 263
European Union: NUTS level 2 regions 263
EFTA countries: statistical regions at level 2 266
Acceding and candidate countries: statistical regions at level 2 266
Annex 2 — Cities participating in the Urban Audit data collection 267
European Union: Urban Audit cities 267
EFTA countries: Urban Audit cities 275
Acceding and candidate countries: Urban Audit cities 275
