Foreword ... 3

Abstract ... 4

Acknowledgements ... 5

INTRODUCTION ... 11

EU statistics on regions and cities ... 12

- The NUTS classification ... 13
- Coverage and timeliness of statistics on regions and cities ... 14
- More information about regions and cities on Eurostat's website ... 15
- Eurobase — Eurostat's online database ... 16
- Statistics Explained ... 16
- Regional statistics illustrated ... 17
- Statistical atlas ... 18

Principal EU policies impacting upon Europe's regions ... 19

- The Europe 2020 strategy ... 19
- Cohesion policy — alignment with the Europe 2020 strategy ... 20
- Committee of the Regions ... 25
- Urban development policies ... 26
- Rural development policies ... 27

1. POPULATION ... 29

Introduction ... 30

Main statistical findings ... 31

- Population density ... 31
- Population structure and demographic ageing ... 34
- Population change ... 37
- Birth and fertility rates ... 43
- Death and infant mortality rates ... 46
- Life expectancy ... 49

Data sources and availability ... 51

- Census results and likely revisions to population data ... 51
- Indicator definitions ... 51

2. HEALTH ... 53

Introduction ... 54

Main statistical findings ... 55

- Causes of death ... 55
- Healthcare resources ... 67

Data sources and availability ... 70

- Causes of death ... 70
- Healthcare ... 71

3. EDUCATION 73

Introduction 74

Education opportunities for all 74
Education and training 2020 (ET 2020) 74

Main statistical findings 75

Participation of four year-olds in education 75
Early leavers from education and training 78
Students in tertiary education 82
Tertiary educational attainment 85
Lifelong learning 90

Data sources and availability 92

Indicator definitions 92

4. LABOUR MARKET 93

Introduction 94

Europe 2020 94
Employment package 95

Main statistical findings 96

Employment rates 96
Changes in employment rates from 2008 to 2012 98
Male and female employment rates 101
Employment rates for older workers 101
Unemployment rates 104
Changes in unemployment rates from 2011 to 2012 106
Youth unemployment 106
Long-term unemployment 112

Data sources and availability 116

Indicator definitions 116

5. ECONOMY 117

Introduction 118

Measuring economic development 118
Economic policies 118

Main statistical findings 119

Regional GDP per inhabitant 119
A more detailed regional analysis: GDP per inhabitant for NUTS 3 regions 123
Changes in GDP per inhabitant, 2008–11 125
Labour productivity 127
Disposable income 130

Data sources and availability 133

Indicator definitions 133
Purchasing power parities 133

6. STRUCTURAL BUSINESS STATISTICS....135

Introduction....136

Main statistical findings....137

Industrial and services specialisation....137
Detailed specialisation within the non-financial business economy....143
Range of specialisation....146
Business concentration....148

Data sources and availability....151

Indicator definitions....151

7. RESEARCH AND INNOVATION....153

Introduction....154

Europe 2020....154
Framework programmes....156
European research area....156

Main statistical findings....156

Research and development intensity....157
Researchers....160
Human resources in science and technology....162
Employment in high-tech sectors....164
Patents....167

Data sources and availability....169

8. INFORMATION SOCIETY....171

Introduction....172

Main statistical findings....173

People who have never used a computer....173
Broadband connections....173
Regular use of the internet....178
E-commerce....181
Rankings of selected ICT indicators....184

Data sources and availability....186

Indicator definitions....186

9. TOURISM 187

Introduction 188

Policies 188

Main statistical findings 189

Number of overnight stays 189
Most popular tourist regions 193
Tourism pressures 197
Coastal, rural and urban tourism 201
Accommodation capacity 205

Data sources and availability 209

Legal basis 209
Regional and sub-national breakdowns 209
Residents and non-residents 210
Indicator definitions 210

10. TRANSPORT 211

Introduction 212

Transport policy in the EU 212
Trans-European Transport Networks (TEN-T) 212
Road safety 214

Main statistical findings 215

Road passenger transport 215
Passenger transport other than by road 224

Data sources and availability 232

Legal basis 232
Indicator definitions 232

11. AGRICULTURE 235

Introduction 236

Common agricultural policy (CAP) 236
Europe 2020 236
Rural development 237

Main statistical findings 237

Structure of agricultural holdings 237
Economic accounts for agriculture 241
Animals and animal products 245
Agricultural products 248

Data sources and availability 255

Farm structure survey 255
Economic accounts for agriculture 255
Livestock 256
Agricultural products 256
Orchards 256

12. FOCUS ON THE ENVIRONMENT 257
Introduction 258
Seventh Environment Action Programme 258
Europe 2020 259
Main statistical findings 260
Water 260
Data sources and availability 273
Regional environment questionnaires 273
Indicator definitions 274
13. FOCUS ON LAND COVER AND LAND USE 275
Introduction 276
Main statistical findings 278
Landscape diversity 278
A case study for the use of LUCAS — monitoring soil across the EU 282
Data sources and availability 284
What type of information is available 285
14. FOCUS ON EUROPEAN CITIES 287
Introduction 288
Europe 2020 288
Sustainable investment 289
Main statistical findings 290
Resident populations living in Europe's cities 290
Age structure of the resident population 292
Population by place of birth 296
Perceptions concerning foreigners 299
Housing 301
Data sources and availability 304
Urban Audit 304
Indicator definitions 304
15. FOCUS ON REGIONAL COMPETITIVENESS 305
Introduction 306
Main statistical findings 307
Three different stages of competitiveness: an analysis of the sub-indices 311
Data sources and availability 323
ANNEXES 325
