<b>About the book, its policy context and the EU-SILC instrument</b>	<b>31</b>
<b>1. Monitoring social inclusion in Europe (Anthony B. Atkinson, Anne-Catherine Guio and Eric Marlier)</b>	<b>33</b>
1.1 Aim of the book	33
1.2 Outline of the contents	34
1.3 Future developments of EU-SILC and EU social indicators	40
1.3.1 Linking micro- and macro-	41
1.3.2 Combining survey and register information	42
1.3.3 Confronting income and expenditure data	42
1.3.4 Putting in perspective income-based and material deprivation indicators	42
1.3.5 The concepts of jobs and (quasi-)joblessness	43
1.3.6 Improving the measurement and understanding of the dynamics of poverty and social exclusion	44
1.4 European social goals in the global perspective of 2030	44
1.4.1 The sustainable development goals	44
1.4.2 Extreme poverty in the EU	45
1.4.3 A more ambitious goal for 2030?	46
1.4.4 A new income inequality indicator?	47
1.4.5 An integrated approach	48
References	48
<b>2. Investing in statistics: EU-SILC (Emilio Di Meglio, Didier Dupré, Fabienne Montaigne and Pascal Wolff)</b>	<b>51</b>
2.1 Introduction	51
2.2 The EU-SILC instrument and its governance	51
2.2.1 Scope and geographical coverage	51
2.2.2 Main characteristics of EU-SILC	51
2.2.3 Legal basis	52
2.2.4 Common guidelines	53

<b>2.3 Methodological framework</b>	<b>53</b>
2.3.1 Contents of EU-SILC	53
2.3.2 Income concept	54
2.3.3 Sample requirements	55
2.3.4 Tracing rules	56
<b>2.4 Information on quality</b>	<b>56</b>
2.4.1 Some comparability issues	56
2.4.2 Quality reports	59
<b>2.5 Data and indicators</b>	<b>60</b>
2.5.1 Data access	60
2.5.2 Indicators computation	60
<b>2.6 Way forward</b>	<b>61</b>
<b>Income measurement and distribution</b>	<b>63</b>
<b>3. Monitoring the evolution of income poverty and real incomes over time (Anthony B. Atkinson, Anne-Catherine Guio and Eric Marlier)</b>	<b>65</b>
3.1 Introduction	65
3.2 The headline indicators of income poverty and income inequality in the EU	66
3.3 The AROP social indicator and overall living standards	68
3.4 The bridge to national accounts	73
3.5 Changes in real incomes	78
3.6 An EU-SILC-based real income indicator?	82
3.7 Conclusions	86
References	87
<b>4. Household structure, income poverty and subjective hardship (Maria Iacovou)</b>	<b>89</b>
4.1 Introduction	89
4.2 Data and descriptive statistics	90
4.2.1 Income poverty and subjective hardship	90
4.2.2 Working with clusters of countries	91
4.3 Methodology	92
4.3.1 Defining household types	92
4.3.2 Weighting	93

<b>4.4 Results</b>	<b>94</b>
4.4.1 Income poverty and subjective hardship by household types, counting households rather than individuals	94
4.4.2 Income poverty and subjective hardship by household types, counting individuals rather than households	96
4.4.3 Composition of the income-poor and subjectively-deprived populations	98
<b>4.5 Conclusions</b>	<b>100</b>
<b>References</b>	<b>101</b>
<b>5. Income poverty, affluence and polarisation viewed from the median (Rolf Aaberge, Anthony B. Atkinson and Henrik Sigstad)</b>	<b>103</b>
<b>5.1 Introduction</b>	<b>103</b>
<b>5.2 Poverty, affluence and dispersion in theory</b>	<b>104</b>
5.2.1 The median and poverty measurement	104
5.2.2 Affluence	105
5.2.3 Intersection and cumulation	106
5.2.4 Specific measures	106
<b>5.3 Poverty and affluence in EU-SILC</b>	<b>107</b>
5.3.1 Dominance	107
5.3.2 Summary measures	113
<b>5.4 Dispersion, bi-polarisation and tail-heaviness</b>	<b>117</b>
<b>5.5 Conclusions</b>	<b>121</b>
<b>References</b>	<b>121</b>
<b>6. High incomes and affluence: evidence from EU-SILC (Veli-Matti Törmälehto)</b>	<b>123</b>
<b>6.1 Introduction</b>	<b>123</b>
<b>6.2 Definitions and data source</b>	<b>123</b>
6.2.1 The data and definitions	123
6.2.2 Household surveys and top end of the distribution	124
6.2.3 Sensitivity to measurement errors in the tail	127
6.2.4 Comparison with the World Top Incomes Database	129
<b>6.3 Measures of richness and affluence</b>	<b>132</b>
6.3.1 The line of richness	132
6.3.2 Headcount and transfer-sensitive measures based on multiplier thresholds	132
6.3.3 Top income shares	133
6.3.4 Affluence gaps and redistribution-based measures	134

6.4. High incomes and other dimensions of affluence	137
6.5 Conclusions	138
References	139
<b>7. The distributional impact of imputed rent in EU-SILC 2007-2012 (Veli-Matti Törmälehto and Hannele Sauli)</b>	<b>141</b>
7.1 Introduction	141
7.2 Measuring imputed rents	141
7.2.1 Conceptual and empirical framework	141
7.2.2 Estimation methods	142
7.2.3 The prevalence of rental income imputation, by housing tenure	143
7.3 The data: definitions, completeness and outliers	144
7.3.1 Completeness and comparability	145
7.3.2 Extreme values and excess housing consumption	145
7.4 Distributional effects	147
7.4.1 Changes in average income level and income inequality	147
7.4.2 Changes in income poverty and social exclusion	149
7.5 Conclusions	156
References	157
<b>8. The distributional impact of public services in European countries (Rolf Aaberge, Audun Langørgen and Petter Lindgren)</b>	<b>159</b>
8.1 Introduction	159
8.2 Needs for public services and equivalence scales	160
8.2.1 Needs-adjusted equivalence scale	161
8.2.2 Estimation method	162
8.3 Empirical implementation	163
8.3.1 Population of analysis	163
8.3.2 Value of public services	163
8.3.3 Allocation of public services	164
8.3.4 Estimation and simplified representation of the NA scale	165
8.3.5 Income definitions	167
8.3.6 Household weights	168
8.4 Empirical Results	168
8.4.1 Income inequality	168
8.4.2 At-risk-of-poverty	169
8.4.3 Overlap between poverty and material deprivation	171

8.5 Conclusions	172
References	173
<b>9. Intra-household pooling and sharing of resources: a tentative ‘modified’ equivalised income (Sophie Ponthieux)</b>	<b>175</b>
9.1 Introduction	175
9.2 Theoretical framework and related literature	176
9.3 Methodology: definitions and construction of a ‘modified’ equivalised income	177
9.3.1 To what extent do couples pool their personal incomes?	178
9.3.2 Computing individual ‘modified’ equivalised incomes	180
9.4 Standard and ‘modified’ measures of individual equivalised income	184
9.4.1 Intra-household distribution of individual equivalised income	184
9.4.2 Comparing gender inequality in equivalised incomes and in poverty risk	186
9.5 Conclusions	187
References	188
<b>Material deprivation and multidimensional poverty</b>	<b>191</b>
<b>10. Amending the EU material deprivation indicator: impact on size and composition of deprived population (Anne-Catherine Guio and Eric Marlier)</b>	<b>193</b>
10.1 Introduction	193
10.2 Choice of the threshold	196
10.3 Impact of the definition change on the incidence of material deprivation in the EU	196
10.3.1 Impact on the Standard EU MD indicator	196
10.3.2 Impact on the Severe EU MD indicator	196
10.3.3 Impact on the Europe 2020 social inclusion target	200
10.4 Overlap between the current and alternative indicators	201
10.5 Impact of the definition change on the characteristics of people deprived	203
10.6 Conclusions	206
References	207
<b>11. Measuring child material deprivation in the EU (Anne-Catherine Guio, David Gordon and Eric Marlier)</b>	<b>209</b>
11.1 Introduction	209
11.2 Data on child deprivation in EU-SILC	210
11.3 Need for a holistic and life-cycle approach	211

11.4 Methodological framework	211
11.4.1 Suitability of the items	212
11.4.2 Validity of the items	212
11.4.3 Reliability of the items	212
11.4.4 Additivity of the items	213
11.5 Final list of children MD items	213
11.6 Conclusions	223
References	223
<b>12. Multidimensional poverty in Europe 2006-2012: illustrating a methodology (Sabina Alkire and Mauricio Apablaza)</b>	<b>225</b>
12.1 Introduction	225
12.2 Brief literature review	226
12.3 The Alkire Foster (AF) methodology	227
12.4 Data and measurement design	228
12.4.1 Unit of analysis	229
12.4.2 Dimensions, indicators and weights	229
12.4.3 Uncensored headcount ratios of deprivations in each indicator	230
12.5 Results	233
12.5.1 Results per country	234
12.6 Concluding remarks	237
References	238
<b>13. Comparing poverty estimates using income, expenditure and material deprivation (Paola Serafino and Richard Tonkin)</b>	<b>241</b>
13.1 Introduction	241
13.2 Statistical matching	242
13.3 Headline poverty indicators	243
13.4 Overlap of income and expenditure poverty and material deprivation	244
13.5 Housing-related deprivation	251
13.6 (Quasi-)joblessness	253
13.7 Characteristics of those in expenditure poverty	253
13.8 Conclusions and recommendations	256
References	257

<b>Employment and (quasi-)joblessness, income poverty and the Europe 2020 ‘at-risk-of-poverty-or-social-exclusion’ (AROPE) indicators</b>	<b>259</b>
<b>14. Extensive versus intensive margin: changing perspective on the employment rate (Andrea Brandolini and Eliana Viviano)</b>	<b>261</b>
14.1 Introduction	261
14.2 Accounting for work intensity	262
14.3 Calculation of work intensity from the EU-SILC data	265
14.4 Comparing the evidence from EU-SILC and the EU-LFS	266
14.5 The distribution of work intensity in selected EU countries	268
14.6 Weighted employment rates in European countries	268
14.7 Conclusions	271
References	272
<b>15. Individual employment, household employment and risk of poverty in the EU. A decomposition analysis (Vincent Corluy and Frank Vandebroucke)</b>	<b>279</b>
15.1 Introduction	279
15.2 The distribution of jobs over households	280
15.2.1 Trends in individual and household employment	280
15.2.2 The concept of polarisation	283
15.2.3 Trends in the distribution of individual employment over households	283
15.2.4 Has the distribution of jobs become more unequal over time?	286
15.3 Relationship between changes in labour markets and poverty risks	289
15.3.1 Relationship between poverty risk and employment rates	289
15.3.2 Integrated decomposition of labour market trends and poverty risk changes	291
15.4 Conclusions	296
References	297
<b>16. Risk of poverty or social exclusion over time: a focus on (quasi-)joblessness (Sophie Ponthieux)</b>	<b>299</b>
16.1 Introduction	299
16.2 A statistical overview of (quasi-)joblessness	301
16.2.1 Household composition	301
16.2.2 Employment and work potential in QJ households	302
16.2.3 Permanent or transitory?	306
16.2.4 Poverty risk and material deprivation in QJ households	308

16.3 QJ in AROPE over time	309
16.4 Conclusions and suggested way forward	311
References	315
<b>17. The Euro Area wage distribution over the crisis (Andrea Brandolini and Alfonso Rosolia)</b>	<b>317</b>
17.1 Introduction	317
17.2 Data definitions	318
17.3 Aggregate dynamics of wages and employment	319
17.4 Evolution of the earnings distribution	322
17.5 Decomposition techniques	324
17.6 Decomposing changes in the earnings distribution in the EA	326
17.7 Conclusions	331
References	331
<b>18. Household structure and risk of poverty or social exclusion (Maria Iacovou)</b>	<b>333</b>
18.1 Introduction	333
18.2 AROPE and its three component subscales	333
18.3 Problems with the (quasi-)joblessness measure	334
18.4 Data and methods	335
18.4.1 EU-SILC	335
18.4.2 Weighting	335
18.4.3 Country clusters	335
18.4.4 A typology of household structures	336
18.5 Results	336
18.5.1 Eligibility for the measure of (quasi-)joblessness	336
18.5.2 AROPE by household type	338
18.5.3 Single-person and couple-only households under age 65	339
18.5.4 Couples and lone parents with children under 18	343
18.5.5 Multiple disadvantages	345
18.5.6 The composition of the poor, severely deprived and QJ populations	347
18.6 Conclusions	349
References	350

<b>19. Nowcasting risk of poverty in the EU</b> <b>(Chrysa Leventi, Olga Rastrigina, Holly Sutherland and Jekaterina Navicke)</b>	<b>353</b>
19.1 Introduction	353
19.2 Methodology	354
19.3 The nowcast	356
19.4 Discussion	359
19.5 Conclusions	360
References	361
<b>Dynamics of poverty and social exclusion</b>	<b>365</b>
<b>20. Evolution of material deprivation over time: the impact of the great recession</b> <b>in EU countries</b> <b>(Anne-Catherine Guio, Eric Marlier and Marco Pomati)</b>	<b>367</b>
20.1 Introduction	367
20.2 National trends in incidence and severity of material deprivation	368
20.3 Dynamic analysis of material deprivation	371
20.3.1 Stock versus flux	371
20.3.2 Entry rates into MD and exit rates from MD	373
20.3.3 Evolution of entry and exit rates	377
20.4 Conclusions	382
References	383
<b>21. How do European citizens cope with economic shocks? The longitudinal</b> <b>order of deprivation</b> <b>(Anne-Catherine Guio and Marco Pomati)</b>	<b>385</b>
21.1 Introduction	385
21.2 Data	386
21.3 Deprivation sequence	388
21.3.1 Visual analysis	388
21.3.2 Deprivation sequence: methodology	390
21.3.3 Deprivation sequence: results	392
21.3.4 Item response theory	395
21.4 Conclusions	397
References	398

<b>22. How does attrition affect estimates of persistent poverty rates? The case of EU-SILC (Stephen P. Jenkins and Philippe Van Kerm)</b>	<b>401</b>
22.1 Introduction	401
22.2 Data, definitions, sample selection, weighting	402
22.2.1 At-risk-of-poverty rates and persistent at-risk-of-poverty rates	403
22.2.2 Samples	403
22.2.3 Attrition	404
22.2.4 Sampling weights	404
22.3 How much attrition is there? Who drops out?	405
22.3.1 How much attrition is there overall?	405
22.3.2 Attrition's effect on the precision of estimates	405
22.3.3 Who drops out?	407
22.3.4 Generating bespoke sample weights from retention regressions	412
22.4 What effects does differential attrition have?	412
22.4.1 Indirect evidence of attrition bias: comparisons of estimates of Wave 1 poverty rates	412
22.4.2 Is attrition bias within the range of sampling variability?	415
22.5 Conclusions	416
References	417
<b>23. Exits from poverty and labour market changes: taking up a job does not always help to get out of poverty (Céline Thévenot)</b>	<b>419</b>
23.1 Introduction	419
23.2 The dynamics of poverty	419
23.2.1 The value added of multiannual poverty measurement	419
23.2.2 Entering into and getting out of poverty	421
23.3 The role of labour market transitions in exiting out of the risk of poverty	423
23.3.1 Transitions to employment might refer to various cases	425
23.3.2 Getting a job helps to get people out of the risk of poverty in half of the cases	427
23.4 The role of policies in labour market transitions and exits from poverty	430
23.5 Conclusions	433
References	434
<b>24. The evolution of inequality of opportunity across Europe: EU-SILC evidence (Francesco Andreoli and Alessio Fusco)</b>	<b>435</b>
24.1 Introduction	435
24.2 Indices of inequality of opportunity	436
24.2.1 Ex post perspective	438

24.2.2 Ex ante perspective	438
24.2.3 Comparing the two approaches	439
<b>24.3 Using EU-SILC intergenerational modules to study inequality of opportunity</b>	<b>440</b>
24.3.1 Circumstances	440
24.3.2 Outcome	441
<b>24.4 Results</b>	<b>442</b>
24.4.1 Inequality of opportunity indices	442
24.4.2 Inequality of opportunity and risk of poverty or social exclusion	443
<b>24.5 Conclusions</b>	<b>446</b>
References	447
<b>25. The impact of growing up poor in Europe</b> <b>(Luna Bellani and Michela Bia)</b>	<b>449</b>
25.1 Introduction	449
25.2 Estimation strategy	450
25.3 Data	452
25.4 Results	453
25.4.1 Propensity score-based methods	453
25.4.2 Quantile treatment effect	457
25.5 Conclusions	459

<b>Technical issues in the development of household social surveys</b>	<b>463</b>
<b>26. Standard error estimation and related sampling issues</b> <b>(Yves Berger, Guillaume Osier and Tim Goedemé)</b>	<b>465</b>
26.1 Introduction	465
26.2 Variance estimation approach	465
26.2.1 Description	465
26.2.2 Extension to estimators of changes between two time points	468
26.3 Numerical results	469
26.3.1 Cross-sectional measures	469
26.3.2 Longitudinal measures	471
26.4 Imputation and other sources of variability	471
26.5 Conclusions	477
References	477

<b>27. Design and implementation issues to improve the research value of the longitudinal component of EU-SILC (Maria Iacovou and Peter Lynn)</b>	<b>479</b>
27.1 Introduction	479
27.2 The longitudinal component of EU-SILC	480
27.3 Empirical study of attrition on EU-SILC	481
27.3.1 Household splits	481
27.3.2 Whole-household moves	484
27.3.3 Effect on the study of transitions	484
27.4 Minimising sample attrition	490
27.4.1 Locating sample members	490
27.4.2 Making contact with sample members	491
27.4.3 Obtaining the cooperation of sample members	491
27.4.4 Checklist of best practices	492
27.5 Design options for the longitudinal component of EU-SILC	493
27.5.1 Opportunities for research	493
27.5.2 Non-response and attrition bias	494
27.5.3 Variance of estimates	494
27.5.4 Practicalities of data collection	495
27.5.5 SWOT analysis and recommendations	495
27.6 Conclusions	495
References	496
