Foreword.....	3
Acknowledgements.....	4
List of contributors.....	6
Contents.....	8
List of tables.....	14
List of figures.....	15
List of boxes.....	16
1.	Introduction
.....	17
1.1 Overview.....	17
1.2 Legal and methodological framework.....	18
1.2.1 Balance of payments statistical legal acts in the context of the European Statistical System.....	18
1.2.2 Methodological guidelines and manuals.....	19
1.2.3 Relevant legislation for the purpose of this <i>handbook</i>	19
1.2.4 Analytical report.....	20
2.	Methodological framework for the compilation of statistics on sea transport
.....	21
2.1 Sea transport companies operating as multi-territory enterprises.....	21
2.2 Establishing notional units for sea transport companies.....	22
2.3 Residency.....	28
2.4 Operator.....	31
2.5 Foreign direct investments relationship.....	33
2.6 Recording of transactions related to sea transport.....	35
2.6.1 General considerations.....	35
2.6.2 Recording in ITGS and national accounts.....	38
2.6.3 Recording in balance of payments statistics.....	39
2.6.4 Stylized recording of voyage charter contracts.....	39
2.6.5 Stylized recording of time charter contracts.....	40
2.7 Data sources for the compilation of statistics on sea transport.....	41
2.7.1 References in international guides.....	41
2.7.2 List of suggested data sources that can be used for recording shipping transactions.....	44
3.	Institutional units providing sea and air transport
.....	46
3.1 Introduction.....	46

3.2	Legal owner.....	46
3.3	Economic owner.....	47
3.4	Operators	48
3.5	Ship management companies	48
3.6	Special Purpose Vehicles	49
3.6.1	Introduction	49
3.6.2	Distinction between asset and liability securitisation	50
3.6.3	Legal form	50
3.6.4	Governance.....	50
3.6.5	Main economic activities of special purpose vehicles.....	50
3.6.6	Examples of holding structures.....	51
3.7	Criteria to identify economic ownership	56
3.7.1	Background.....	56
3.7.2	Economic ownership by type of contractual agreement	57
3.7.3	Definitions of types of ownership according to shipping classification societies	57
4 Contractual agreements for sea and air transport	60
4.1	Introduction	60
4.2	Voyage charter.....	60
4.3	Contract of Affreightment (CoA).....	60
4.4	Time charter	60
4.5	Bareboat charter	61
4.6	Leases.....	61
5 Economic ownership and changes of ownership	70
5.1	Introduction	70
5.2	Bareboat charter	70
5.3	Time charter	74
6 Complex ownership and operations arrangements in the shipping cluster explained	76
6.1	Markets for vessels	76
6.2	Interactions among institutional units.....	78
6.3	Respective transactions for providing transport services	80
6.3.1	Case study lease with the crew	80
6.3.2	Case study bareboat charter	82
6.3.3	Case study standard ship management agreement.....	84
7 The possible impact on macro-economic statistics of IFRS 16 on leases of vessels and aircraft.....	87
7.1	Introduction	87
7.2	Lessee accounting	89

7.3	Lessor accounting	90
7.4	Subleases	91
7.5	Sale and leaseback transactions	92
7.6	Some considerations.....	93
7.7	Example of lessee accounting: IAS 17 vs IFRS 16	93
7.8	References.....	97
7.9	Eurostat information note on the impact on macro-economic statistics of IFRS 16 on leases.....	97
7.9.1	Introduction	97
7.9.2	Recording of leases in business accounts	97
7.9.3	Leases in ESA 2010	100
7.9.4	Proposals to compile macro-economic data on the basis of IFRS 16 methodology	100
7.9.5	Summary	101
8. Recommendations	102
8.1	Economic ownership	102
8.2	Sea and air transport arrangements with change of economic ownership.....	103
8.2.1	Demise or bareboat charter	103
8.2.2	Financial and operating leasing.....	103
8.3	Sea and air transport arrangements without change of economic ownership.....	103
8.3.1	Voyage charter	103
8.3.2	Time charter	104
8.3.3	Dry leasing	104
8.3.4	Wet leasing	104
8.4	Foreign direct investments.....	104
8.5	Standard ship management agreement	105
8.6	Relevance of the flag	105
8.7	Ownership structures	105
8.8	Goods delivered to vessels and aircraft.....	106
8.9	Arrangements in sea and air transport based on IFRS 16 reporting	106
8.9.1	Long-term bareboat charter and long-term dry lease	106
8.9.2	Voyage charter	107
8.9.3	Time charter	107
8.9.4	Wet leases with crew	107
8.10	Vessel pool arrangements	108
8.11	Modelling of payments related to financial and operating leasing	108
8.11.1	Explanatory note	108
8.11.2	Development of a financial leasing model for balance of payments and national accounts purposes	109
8.11.3	FISIM	111
9. Country cases: an overview of national experience with statistical recording of sea and air transport.....	115

9.1	Case study Belgium: Construction of mobile equipment	115
9.2	Country case Denmark: Vessels and aircraft registered in foreign register as extra data source for international trade in goods statistics.....	117
9.2.1	Introduction	117
9.2.2	Compilation system for the international trade in vessels	119
9.2.3	The 'traditional' data source: the Danish International Register.....	120
9.2.4	New data source to capture Danish-owned vessels registered in foreign registers (DFR)	122
9.2.5	Danish compilation system for the international trade in aircraft.....	122
9.2.6	Challenges when compiling international trade with vessels and aircraft	122
9.2.7	References	123
9.3	Case study Ireland: Impact of the Aircraft Leasing Industry on Ireland's Statistics	124
9.3.1	Abstract.....	124
9.3.2	Overview of the Aircraft Leasing Industry in Ireland.....	124
9.3.3	Principle of Economic Ownership for Trade in Aircraft.....	124
9.3.4	Data Sources and Collection	125
9.3.5	Results and Analysis	126
9.3.6	Conclusions	130
9.4	Case study Greece: Greek shipping estimation model	131
9.4.1	Background.....	131
9.4.2	The Greek Shipping Cluster	131
9.4.3	Data Sources	133
9.4.4	Definition of population	134
9.4.5	Estimation of Balance of Payments Items	136
9.4.6	Conclusion and way forward	140
9.4.7	References	141
9.5	Case study Greece: Implementation of the concept of economic ownership in international trade in goods statistics for imports and exports of ships and aircraft	142
9.5.1	Background.....	142
9.5.2	Methodology for the enhanced implementation of the principle of economic ownership in imports and exports of ships	142
9.5.3	Compilation process system.....	146
9.6	Case study Italy: Main features of a business model of cruise shipping lines relevant for the Italian macro-economic accounts	148
9.6.1	Introduction	148
9.6.2	Historical background	148
9.6.3	Business features	148
9.6.4	Cruise industry in Italy	150
9.6.5	Costa Group	150
9.7	Case study Italy: Statistical cooperation between ISTAT and the Bank of Italy on the compilation of statistics on sea transport.....	153
9.7.1	Introduction	153
9.7.2	Statistical cooperation between ISTAT and the Bank of Italy	153
9.7.3	Estimation of merchandise transport: Data sources and methodology.....	154
9.7.4	Estimate of freight rates.....	155
9.7.5	Estimate of market shares.....	156
9.7.6	Gross fixed capital formation in ships.....	157
9.7.7	Final remarks	158
9.8	Case study Cyprus: Compilation of statistics on sea transport	159
9.8.1	Summary	159
9.8.2	Introduction	159
9.8.3	Scale and structure of the industry	160
9.8.4	Methodology and data analysis	160
9.8.5	Annex survey forms	165
9.9	Case study Luxembourg: Most important contracts for sea transport	184

9.9.1	Types of sea transport trades.....	184
9.9.2	Contractual arrangements in sea transport.....	184
9.10	Case study Finland: Compilation of statistics on sea and air transport in national accounts and balance of payments.....	188
9.10.1	Introduction.....	188
9.10.2	Aircraft.....	189
9.10.3	Summary.....	195
9.10.4	Treatment of aircraft in the Finnish national accounts.....	196
9.10.5	Case study: Japanese Operating Lease with Call Option.....	199
9.10.6	Conclusion.....	204
9.10.7	References.....	207
9.10.8	Annex.....	207
9.10.9	Vessels.....	213
9.10.10	Data sources.....	216
9.10.11	ITGS statistics.....	218
9.10.12	Structural business and financial statement statistics.....	219
9.10.13	Data sources for recording inventories.....	220
9.10.14	The main sources of balance of payments statistics.....	221
9.10.15	Changes in inventories of new vessels.....	221
9.10.16	Discussion on the cross-border work on vessels.....	223
9.10.17	Comparison of Finland's practices to other Nordic countries.....	223
9.10.18	Conclusion.....	224
9.10.19	References.....	225
9.10.20	Annex.....	226
9.11	Case study United Kingdom: Compilation of statistics on sea transport in national accounts and balance of payments.....	229
9.11.1	Introduction.....	229
9.11.2	Scale and structure of the industry.....	229
9.11.3	Methodology and data analysis.....	230
9.11.4	Leasing and the impact of IFRS.....	232
9.12	Case study Iceland: Compilation of statistics on sea and air transport in Iceland.....	233
9.12.1	Summary.....	233
9.12.2	Introduction.....	233
9.12.3	Scale and structure of the industry.....	233
9.12.4	Methodology and data analysis.....	233
9.12.5	Statistical treatment of the industry.....	234
9.12.6	Conclusion.....	235
9.13	Case study Norway: Compilation of sea and air transport in the Norwegian national accounts and balance of payments.....	236
9.13.1	Introduction.....	236
9.13.2	Ocean transport in Norway.....	236
9.13.3	Air transport in Norway.....	236
9.13.4	Statistical tools and infrastructure.....	236
9.13.5	Main methodical principles.....	238
9.13.6	Economic ownership and the operator principle.....	238
9.13.7	Operating and supporting units – an example from the airline industry.....	239
9.13.8	Seamless operations – the pro-rata principle.....	240
9.13.9	Exports of freight services.....	241
9.13.10	Ships and airplanes – capital of production.....	241
9.13.11	Crew members – compensation of employees.....	242
9.13.12	Sources and methods of estimation.....	242
9.13.13	Output and intermediate consumption.....	242
9.13.14	Transactions related to imports and exports.....	243
	Glossary.....	245
	Acronyms and abbreviations.....	249
