Introduction 9
1. Introduction 9
1.1. What is the purpose of this User Guide? 9
1.2. How is the information on European ITGS presented online? 9
1.3. Where can I find further guidance and metadata on ITGS? 11
Background information 12
2. Background information 12
2.1. What are European statistics on international trade in goods? 12
2.2. Who uses ITGS and what for? 12
2.2.1. Types of users and requirements 12
2.2.2. Use of trade data in other statistical fields [Rev] 13
2.3. Who is responsible for European ITGS? 13
2.4. Where can I find the rules governing European ITGS? 13
2.4.1. EU legislation on ITGS 13
2.4.2. Compilers guide on European statistics on international trade in goods 15
2.4.3. International recommendations and provisions relevant to ITGS 16
Scope of ITGS 17
3. Scope of ITGS 17
3.1. Special trade system or general trade system? 17
3.2. Which goods are included in ITGS? 17
3.3. Which goods are excluded from ITGS? 18
3.4. Which transactions are outside the scope of ITGS? 18
3.5. Which movements of goods are included in intra-EU trade? 18
3.6. Which movements of goods are included in extra-EU trade? 19
3.7. What are ‘Community’ or ‘Union’ goods? 19
3.8. Are the goods in transit recorded in ITGS? 20
3.9. How are the areas involved in ITGS defined? 20

Data collection 21

4. Data collection 21

4.1. Extrastat and Intrastat: two data collection systems for ITGS 21

4.2. How are ITGS data collected? 21

4.3. Which are the exceptions to the physical movement principle? 22

4.4. Who provides the statistical information? 22

4.5. How is the reporting country defined? Rev 22

4.6. How is the partner country defined? Rev 23

4.6.1. General rule 23

4.6.2. Exceptions 24

4.7. How are goods classified? More 27

4.8. When are movements of goods recorded? More 29

4.8.1. General rule 29

4.8.2. Exceptions 29

4.9. Which data are collected? 29

4.9.1. Using thresholds in Extrastat 29

4.9.2. Using thresholds in Intrastat 29

4.10. What information is recorded for each transaction? 30

4.11. What are the measurement units? More 31

4.11.1. Trade value More 31

4.11.2. Net mass More 32

4.11.3. Supplementary quantity 33

4.12. Are there specific provisions for particular types of goods or movements? 34

Data compilation 36

5. Data compilation 36

5.1. How are EU trade data compiled? 36

5.2. How are euro area trade data compiled? 36

5.3. How is the trade with the world defined? New 36

5.4. How are the trade balances of the EU Member States compiled? 37

5.5. How are not collected intra-EU trade data compensated for? 37

5.5.1. Estimating missing trade 37

5.5.2. Estimating the statistical value 37

5.5.3. Estimating the net mass More 37

5.6. How are not collected extra-EU trade data compensated for? 38

5.7. Why are some of the ITGS confidential? 38

5.7.1. What are ‘confidential data’? 38

5.7.2. Which rules apply? 38

5.7.3. To which data elements does confidentiality apply? 39

5.7.4. How does confidentiality apply to partner countries? 39

5.7.5. How does product confidentiality apply? 40

5.8. What data are sent to Eurostat and when? 41
5.9. When are data revised and considered final? 41
5.10. What are the main reasons for revising data? 42
5.11. What data does Eurostat compile? 42
5.11.1. Unit value and volume indices 42
5.11.2. Data adjusted for working days and seasonal components 43
5.12. Conversion into other product nomenclatures 43
Data quality 44
6. Data quality 44
6.1. Accuracy 44
6.1.1. How accurate are ITGS? 44
6.1.2. How is the data quality checked and monitored? 44
6.1.3. What are the main causes of errors in reporting? 45
6.1.4. What is the impact of quasi-transit or the so-called 'Rotterdam effect'? 45
6.1.5. What is the impact of the Intrastat simplification measures? 45
6.2. Comparability over space and time and across domains 46
6.2.1. Why do asymmetries always exist? 46
6.2.2. What are the methodological causes of asymmetries? 46
6.2.3. Why is the intra-EU trade balance not equal to zero? 47
6.2.4. Why are breaks in time series unavoidable? 47
6.2.5. Why can European data differ from national data? 48
6.3. Coherence with other statistics New 49
6.4. Why do ITGS differ from trade in goods in BoP and national accounts? 50
6.5. Where can I find more information on the quality of European ITGS? 51
Data publication 52
7. Data publication 52
7.1. How is the data dissemination organised? New 52
7.2. What classifications are used? More 52
7.2.1. The Combined Nomenclature as primary product classification 52
7.2.2. Other product classifications 53
7.2.3. The Geonomenclature as country classification 55
7.2.4. the NACE as classification by activity 56
7.3. What is the difference between 'aggregated' and 'detailed' published data? 56
7.4. Which indicators are available for aggregated data? 57
7.4.1. Aggregated data — Short-term indicators 57
7.4.2. Aggregated data — Long-term indicators 57
7.5. Which indicators are available for detailed data? 57
7.6. What are the basic statistical fields? More 57
7.7. What additional statistical information is available? 58
7.7.1. Statistical procedure More 58
7.7.2. Mode of transport 60

7.7.3. Eligibility and tariff regimes [More] 61
7.7.4. Trade by enterprise characteristics (TEC) [Rev] 62
7.7.5. Invoicing currency 64
7.8. When are data updated? 65
7.9. Does Eurostat publish ITGS only for EU Member States? [Rev] 65

Data access 67

8. Data access 67

8.1. How can I access data online? 67
8.1.1. 'Main tables' versus 'Database' 68
8.1.2. ITGS 'Main tables' — Long-term indicators 68
8.1.3. ITGS 'Main tables' — Short-term indicators 71
8.1.4. ITGS 'Database' — Long-term indicators 72
8.1.5. ITGS 'Database' — Short-term indicators 72
8.1.6. ITGS 'Database' — trade by enterprise characteristics 73
8.1.7. ITGS 'Database' — Detailed data 73
8.1.8. Easy Comext and Comext Analytical interfaces [More] 74
8.1.9. the Bulk download facility [Rev] 76
8.2. Publications 78
8.2.1. News Releases 78
8.2.2. News Items 78
8.2.3. Statistics Explained 78
8.3. Where can I find reference metadata? 79
8.4. Multilingual user support 79

Annex 1 — List of goods and movements excluded from ITGS 80

Annex 2 — List of Nature of Transaction codes [New] 81

Annex 3 — Specific goods and movements 82

Vessels and aircraft – Transfer of economic ownership 82
Vessels and aircraft – Processing operation 83
Goods delivered to vessels and aircraft 84
Goods delivered to and from offshore installations 85
Sea products 86
Spacecraft 87
Electricity and gas [More] 88

Annex 4 — Alphanumeric product codes in Comext [Rev] 89

Annex 5 — National authorities involved in ITGS 90

Annex 6 — Overview of the Easy-Comext datasets [More] 92

Annex 7 — Supplementary unit in the bulk download files 98

Glossary 99
