

**TABLE OF CONTENTS**

<b>Foreword</b> .....	i
<b>Acknowledgments</b> .....	ii
<b>Executive Summary</b> .....	1
Introduction .....	1
Background.....	1
Data requirements .....	4
Organisation of comparisons.....	8
Collection and editing of data .....	9
<i>Consumer goods and services</i> .....	9
<i>Government services</i> .....	14
<i>Capital goods and services</i> .....	16
Computation of PPPs .....	19
Publication of results .....	21
Updating and revising results .....	22
<b>Chapter 1: International comparisons of GDP</b> .....	25
Introduction .....	25
Gross domestic product (GDP) .....	25
Eurostat-OECD approach.....	25
Exchange rates.....	26
Purchasing power parities (PPPs).....	29
Price and volume measures .....	29
Nominal value measures .....	30
Users and uses of PPPs.....	30
Limitations of price and volume measures .....	31
<b>Chapter 2: Data requirements and organisation</b> .....	35
Introduction .....	35
<i>Part I: Data requirements</i> .....	35
Background.....	35
Consistency .....	35
Comparability.....	36
Representativity .....	36
Primacy of volume comparisons.....	37
Actual data requirements.....	38
<i>Part II: Organisation</i> .....	39
Background.....	39
Rolling benchmark approach.....	40
The 2005 comparison.....	42
Linking groups .....	43
Responsibilities.....	43
<b>Chapter 3: Final expenditure on GDP and its classification</b> .....	47
Introduction .....	47
Final expenditure on GDP .....	47
Actual and imputed expenditures .....	47
Individual and collective consumption expenditures .....	48
Actual individual and collective consumption .....	49
Market and non-market services .....	49
Gross capital formation.....	50
Structure of the classification.....	51

	Derivation of actual individual consumption .....	51
	Treating market and non-market services .....	52
	Main aggregates .....	53
	Presentation of the classification .....	54
	Correspondence with COICOP, COPNI, COFOG 98 and CPA 96 .....	56
	Classification by type of product .....	56
	Reporting and validation of expenditure data .....	57
	Statistical discrepancy .....	60
<b>Chapter 4:</b>	<b>Consumer goods and services .....</b>	<b>61</b>
	Introduction .....	61
	Background .....	61
	Product selection .....	63
	Group product lists .....	65
	Overlap products .....	66
	Product specifications .....	67
	Price collection .....	71
	Selection of outlets .....	72
	Number of products to be priced per basic heading .....	73
	Number of price observations per product .....	74
	Prices to be collected .....	76
	Medical goods and services .....	77
	Seasonal products .....	77
	Assigning representativity indicators .....	78
	Housing services and the rent survey .....	80
	Reporting and validation of prices .....	84
	From average survey prices to national annual prices .....	89
	Annex to chapter 4: Quantity approach for housing services .....	90
<b>Chapter 5:</b>	<b>Government services .....</b>	<b>95</b>
	Introduction .....	95
	Individual and collective services .....	95
	Market and non-market services .....	95
	Treatment of non-market services .....	96
	Treatment of market services .....	97
	Reference PPPs .....	97
	Survey of compensation of employees .....	100
	Reporting prices .....	102
	Validation of prices .....	104
	Annex to chapter 5: Productivity adjustments .....	105
<b>Chapter 6:</b>	<b>Capital goods and services .....</b>	<b>109</b>
	Introduction .....	109
	<b>Part I: Pricing equipment goods .....</b>	<b>109</b>
	General approach .....	109
	Product specification .....	110
	Representativity .....	111
	Pre-survey .....	111
	Equivalent products .....	112
	Reporting items and their prices .....	113
	Source of prices .....	114
	Validation of prices .....	114
	<b>Part II: Pricing construction projects .....</b>	<b>115</b>
	General approach .....	115
	Standard construction projects .....	115
	Variants and compromise quantities .....	117
	Flexibility in interpretation .....	117
	Unit prices .....	118

	Reporting prices .....	119
	Sources of prices .....	119
	Validation of prices .....	121
	<b>Part III: Estimation of PPPs for GFCF in interim years</b> .....	122
<b>Chapter 7:</b>	<b>Calculation and aggregation of PPPs</b> .....	125
	Introduction .....	125
	<b>Part I: Calculation of PPPs for a basic heading</b> .....	125
	Overview of the calculation procedure .....	125
	Calculation of binary PPPs: Fisher type PPPs .....	126
	Achieving transitivity: EKS PPPs .....	126
	A modified version of the Fisher type approach: EKS-S method .....	127
	CPD method .....	129
	CPD and EKS methods compared .....	129
	<b>Part II: Aggregation of PPPs above the basic heading</b> .....	130
	EKS method .....	130
	Additivity .....	130
	Gerschenkron effect .....	130
	GK method .....	130
	EKS and GK aggregation methods compared .....	131
	Missing PPPs and reference PPPs .....	131
<b>Chapter 8:</b>	<b>Presentation, dissemination and updating of results</b> .....	137
	Introduction .....	137
	Fixity .....	137
	Presentation of Eurostat-OECD results .....	137
	PPPs for country groups .....	140
	Purchasing power standards (PPS) .....	141
	Selected GK results .....	141
	Publication of annual results .....	142
	Publication of survey price level indices .....	143
	Access to data and results .....	143
	Global extrapolation .....	144
	Nowcasting .....	144
	Revision of PPPs .....	145
<b>Annex I:</b>	<b>Brief history of the programme</b> .....	147
	Introduction .....	147
	International Comparison Project .....	147
	European Comparison Programme .....	149
	Eurostat-OECD PPP Programme .....	150
	The “great debate” .....	151
	Fixity .....	152
	The Castles report .....	152
	ECP reform .....	153
	Annex tables .....	155
<b>Annex II:</b>	<b>Classification of final expenditure on GDP</b> .....	161
<b>Annex III:</b>	<b>Survey cycle coverage</b> .....	201
	First year of cycle: survey 1 – Food, drinks and tobacco .....	202
	First year of cycle: survey 2 – Personal appearance .....	205
	Second year of cycle: survey 1 – House and garden .....	207
	Second year of cycle: survey 2 – Transport, restaurants and hotels .....	210
	Third year of cycle: survey 1 – Services .....	212
	Third year of cycle: survey 2 – Furniture and health .....	215

<b>Annex IV:</b>	<b>Quaranta editing procedure.....</b>	<b>217</b>
<b>Annex V:</b>	<b>Calculation and aggregation of PPPs.....</b>	<b>223</b>
	Introduction .....	223
	<b>Part I: Calculation of PPPs for a basic heading.....</b>	<b>223</b>
	Basic headings, representative products and quasi expenditure weights.....	223
	Stages of calculation.....	223
	<b>Part II A: Aggregation of basic heading parities: EKS method.....</b>	<b>229</b>
	Stages of calculation.....	229
	<b>Part II B: Aggregation of basic heading parities: GK method.....</b>	<b>236</b>
	Introduction .....	236
	Progression of a round .....	237
<b>Annex VI:</b>	<b>Differences between Eurostat and OECD comparisons.....</b>	<b>243</b>
	Introduction .....	243
	Timetable and organisation .....	243
	Expenditures .....	243
	Consumer goods and services .....	244
	Rents.....	245
	Government services.....	245
	Capital goods.....	245
	Calculation and aggregation of PPPs.....	246
	Presentation of results .....	246
	Updating PPPs for GDP between benchmark calculations.....	246
<b>Annex VII:</b>	<b>Glossary of terms and abbreviations .....</b>	<b>247</b>
