

## Table of Contents

Part I: Introduction .....	5
Part II: Standard .....	7
1 Introduction to the Statistical Process and Its Outputs.....	7
2 Relevance .....	7
2.1 For All Types of Statistical Process .....	7
2.2 For Statistical Processes Using Administrative Source(s) .....	7
2.3 For Price or Other Economic Index Process .....	8
2.4 For Statistical Compilations .....	8
3 Accuracy.....	8
3.1 For All Types of Statistical Process .....	8
3.2 For Sample Surveys .....	9
3.2.1 Sampling errors .....	9
3.2.2 Coverage Errors.....	11
3.2.3 Measurement Errors .....	12
3.2.4 Nonresponse Errors .....	12
3.2.5 Processing Errors.....	13
3.3 For Censuses .....	14
3.4 Statistical Processes Using Administrative Source(s).....	14
3.5 For Statistical Processes Involving Multiple Data Sources .....	15
3.6 For Price and Other Economic Index Processes .....	15
3.7 For Statistical Compilations .....	16
3.8 Some Special Issues Concerning Accuracy .....	17
3.8.1 Model Assumptions and Associated Errors .....	17
3.8.2 Seasonal adjustment .....	17
3.8.3 Imputation .....	18
3.8.4 Mistakes .....	18
3.8.5 Revisions .....	18
3.8.6 Subject-dependent techniques on evaluation .....	19
4 Timeliness and Punctuality .....	19
5 Accessibility and Clarity .....	20
6 Coherence and Comparability .....	21
7 Trade-offs between Output Quality Components .....	22
8 Assessment of User Needs and Perceptions.....	23
9 Performance, Cost and Respondent Burden.....	24
10 Confidentiality, Transparency and Security .....	25
11 Conclusion.....	27
Annex: Quality and Performance Indicators .....	28
