<b>Foreword</b> .....	iii
<b>Preface by the Secretary-General of the United Nations</b> .....	v
<b>Preface</b> .....	vii
<b>Acknowledgements</b> .....	xv
<b>List of abbreviations and acronyms</b> .....	xxvii
<b>I Introduction to the SEEA Central Framework</b> .....	1
1.1 What is the System of Environmental-Economic Accounting Central Framework? .....	1
1.2 Overview of the SEEA Central Framework .....	4
1.3 Key features of the SEEA Central Framework .....	6
1.3.1 Relationship of the SEEA Central Framework to the System of National Accounts. ....	6
1.3.2 Combining information in physical and monetary terms .....	8
1.3.3 Flexibility in implementation .....	8
<b>II Accounting structure</b> .....	11
2.1 Introduction .....	11
2.2 Overview of the SEEA Central Framework .....	11
2.3 Main accounts and tables of the SEEA Central Framework.....	15
2.3.1 Introduction .....	15
2.3.2 Supply and use tables.....	15
2.3.3 Asset accounts .....	19
2.3.4 The sequence of economic accounts .....	21
2.3.5 Functional accounts .....	23
2.3.6 Employment, demographic and social information.....	24
2.4 Combining physical and monetary data.....	24
2.5 Accounting for flows and stocks.....	25
2.5.1 Introduction .....	25
2.5.2 Flows.....	25
2.5.3 Stocks .....	27
2.6 Economic units.....	28
2.6.1 Introduction .....	28
2.6.2 Institutional sectors.....	28

	<i>Page</i>	
2.6.3	Enterprises, establishments and industries . . . . .	29
2.6.4	Geographical boundaries for economic units . . . . .	30
2.6.5	Statistical units . . . . .	31
2.7	Accounting rules and principles . . . . .	31
2.7.1	Introduction . . . . .	31
2.7.2	Recording rules and principles . . . . .	32
2.7.3	Valuation rules and principles . . . . .	33
2.7.4	Volume measures . . . . .	35
<b>III</b>	<b>Physical flow accounts . . . . .</b>	<b>37</b>
3.1	Introduction . . . . .	37
3.1.1	The physical flow accounting framework and subsystems . . . . .	38
3.1.2	Chapter structure . . . . .	39
3.2	The physical flow accounting framework . . . . .	39
3.2.1	The physical supply and use table approach . . . . .	39
3.2.2	Definition and classification of natural inputs . . . . .	44
3.2.3	Definition and classification of products . . . . .	48
3.2.4	Definition and classification of residuals . . . . .	49
3.3	Principles of physical flow accounting . . . . .	56
3.3.1	Introduction . . . . .	56
3.3.2	Gross and net recording of physical flows . . . . .	56
3.3.3	Treatment of international flows . . . . .	56
3.3.4	Treatment of goods for processing . . . . .	59
3.4	Physical flow accounts for energy . . . . .	59
3.4.1	Introduction . . . . .	59
3.4.2	Scope and definitions of energy flows . . . . .	60
3.4.3	Physical supply and use table for energy . . . . .	61
3.4.4	Energy statistics, energy accounts and energy balances . . . . .	68
3.4.5	Energy aggregates . . . . .	69
3.5	Physical flow accounts for water . . . . .	70
3.5.1	Introduction . . . . .	70
3.5.2	Scope of water flows . . . . .	70
3.5.3	Physical supply and use table for water . . . . .	70
3.5.4	Water aggregates . . . . .	78
3.6	Physical flow accounts for materials . . . . .	79
3.6.1	Introduction . . . . .	79
3.6.2	Product flow accounting . . . . .	80
3.6.3	Accounting for air emissions . . . . .	81
3.6.4	Accounting for emissions to water and associated releases to economic units . . . . .	85
3.6.5	Solid waste accounts . . . . .	88
3.6.6	Economy-wide material flow accounts (EW-MFA) . . . . .	92
<b>IV</b>	<b>Environmental activity accounts and related flows . . . . .</b>	<b>95</b>
4.1	Introduction . . . . .	95
4.2	Environmental activities, products and producers . . . . .	96
4.2.1	Introduction . . . . .	96
4.2.2	The scope and definition of environmental activities . . . . .	96

	<i>Page</i>
4.2.3 Other economic activities related to the environment . . . . .	97
4.2.4 Classification of environmental activities . . . . .	98
4.2.5 Environmental goods and services. . . . .	100
4.2.6 Environmental producers . . . . .	100
4.3 Environmental activity accounts and statistics . . . . .	101
4.3.1 Introduction . . . . .	101
4.3.2 Environmental protection expenditure accounts . . . . .	102
4.3.3 Environmental goods and services sector (EGSS) . . . . .	111
4.3.4 Relationship between the EPEA and the EGSS. . . . .	115
4.3.5 Accounts for resource management expenditures . . . . .	116
4.4 Accounting for other transactions related to the environment . . . . .	116
4.4.1 Introduction . . . . .	116
4.4.2 Environmental payments by government . . . . .	118
4.4.3 Environmental payments to government. . . . .	120
4.4.4 Environmental transfers by non-government institutional units . . . . .	124
4.4.5 Permits to use environmental assets. . . . .	125
4.4.6 Transactions concerning fixed assets used in economic activities related to the environment . . . . .	129
<b>V Asset accounts . . . . .</b>	<b>133</b>
5.1 Introduction . . . . .	133
5.2 Environmental assets in the SEEA Central Framework . . . . .	134
5.2.1 Introduction . . . . .	134
5.2.2 Scope of environmental assets . . . . .	134
5.2.3 Valuation of environmental assets . . . . .	137
5.3 The structure of asset accounts . . . . .	139
5.3.1 Introduction . . . . .	139
5.3.2 Conceptual form of the physical asset account . . . . .	139
5.3.3 Conceptual form of the monetary asset account . . . . .	143
5.4 Principles of asset accounting . . . . .	146
5.4.1 Introduction . . . . .	146
5.4.2 Defining depletion in physical terms. . . . .	146
5.4.3 Principles of asset valuation. . . . .	149
5.4.4 The net present value (NPV) approach . . . . .	151
5.4.5 Approaches to estimating resource rent and net present values . . . . .	153
5.4.6 Measurement of environmental assets in volume terms. . . . .	159
5.5 Asset accounts for mineral and energy resources. . . . .	160
5.5.1 Introduction . . . . .	160
5.5.2 Definition and categorization of mineral and energy resources. . . . .	161
5.5.3 Physical asset accounts for mineral and energy resources . . . . .	162
5.5.4 Monetary asset accounts for mineral and energy resources . . . . .	166
5.5.5 Other issues in the measurement of mineral and energy resources . . . . .	170
5.6 Asset accounts for land . . . . .	173
5.6.1 Introduction . . . . .	173
5.6.2 Definition and classification of land . . . . .	174
5.6.3 Physical asset accounts for land. . . . .	178
5.6.4 Physical asset accounts for forest and other wooded land . . . . .	181
5.6.5 Monetary asset accounts for land . . . . .	184

	<i>Page</i>
5.6.6 Links to ecosystem accounting . . . . .	187
5.7 Accounting for soil resources . . . . .	187
5.7.1 Introduction . . . . .	187
5.7.2 Characterization of soil resources . . . . .	188
5.7.3 Accounting for the area and volume of soil resources . . . . .	189
5.7.4 Other aspects in accounting for soil resources . . . . .	191
5.8 Asset accounts for timber resources . . . . .	191
5.8.1 Introduction . . . . .	191
5.8.2 Scope and definition of timber resources . . . . .	192
5.8.3 Physical asset accounts for timber resources . . . . .	194
5.8.4 Monetary asset accounts for timber resources . . . . .	196
5.8.5 Carbon accounts for timber resources . . . . .	198
5.9 Asset accounts for aquatic resources . . . . .	199
5.9.1 Introduction . . . . .	199
5.9.2 Definition and classification of aquatic resources . . . . .	200
5.9.3 Physical asset accounts for aquatic resources . . . . .	202
5.9.4 Monetary asset accounts for aquatic resources . . . . .	206
5.10 Accounting for other biological resources . . . . .	210
5.10.1 Introduction . . . . .	210
5.10.2 Accounting for natural biological resources . . . . .	210
5.11 Asset accounts for water resources . . . . .	211
5.11.1 Introduction . . . . .	211
5.11.2 Definition and classification of water resources . . . . .	212
5.11.3 Physical asset accounts for water resources . . . . .	213
5.11.4 Other water resource measurement issues . . . . .	216
Annex A5.1 The net present value method for valuation of stocks and the measurement of depletion and revaluation for natural resources . . . . .	219
Annex A5.2 Discount rates . . . . .	226
Annex A5.3 Description of the United Nations Framework Classification for Fossil Energy and Mineral Reserves and Resources 2009 (UNFC 2009) . . . . .	233
Annex A5.4 Catch concepts: a diagrammatic presentation . . . . .	235
<b>VI Integrating and presenting the accounts . . . . .</b>	<b>237</b>
6.1 Introduction . . . . .	237
6.2 Integration within the SEEA Central Framework . . . . .	238
6.2.1 Introduction . . . . .	238
6.2.2 Integration of supply and use tables in physical and monetary terms . . . . .	239
6.2.3 Integration of asset accounts and supply and use tables . . . . .	241
6.2.4 The sequence of economic accounts . . . . .	241
6.2.5 Functional accounts . . . . .	247
6.2.6 Employment, demographic and social information . . . . .	247
6.3 Combining physical and monetary data . . . . .	248
6.3.1 Introduction . . . . .	248
6.3.2 The concept of combining physical and monetary data . . . . .	249
6.3.3 Organization of information . . . . .	249
6.4 SEEA Central Framework aggregates and indicators . . . . .	253

	<i>Page</i>	
6.4.1	Introduction . . . . .	253
6.4.2	Descriptive statistics . . . . .	253
6.4.3	Environmental asset aggregates and indicators . . . . .	254
6.4.4	Aggregates related to financing and cost recovery of economic activity related to the environment. . . . .	254
6.4.5	Environmental ratio indicators . . . . .	255
6.4.6	The SEEA Central Framework and international indicator initiatives. . . . .	256
6.5	Examples of combined physical and monetary presentations . . . . .	256
6.5.1	Introduction . . . . .	256
6.5.2	General structure for combined presentations. . . . .	257
6.5.3	Combined presentations for energy data . . . . .	257
6.5.4	Combined presentations for water data . . . . .	259
6.5.5	Combined presentations for forest products . . . . .	263
6.5.6	Combined presentations for air emissions . . . . .	265
<b>Annex I</b>	<b>Classifications and lists . . . . .</b>	<b>267</b>
<b>Annex II</b>	<b>Research agenda for the SEEA Central Framework. . . . .</b>	<b>305</b>
<b>Glossary</b>	<b>. . . . .</b>	<b>311</b>
<b>References</b>	<b>. . . . .</b>	<b>323</b>
<b>Index</b>	<b>. . . . .</b>	<b>329</b>
<b>TABLES</b>		
2.1	Basic form of a monetary supply and use table . . . . .	16
2.2	Basic form of a physical supply and use table . . . . .	17
2.3	Basic form of an asset account . . . . .	19
2.4	Connections between supply and use tables and asset accounts . . . . .	21
2.5	Basic SEEA sequence of economic accounts . . . . .	22
2.6	Basic, producers' and purchasers' prices . . . . .	34
3.1	General physical supply and use table. . . . .	41
3.2	Classes of natural inputs . . . . .	45
3.3	Examples of natural resource inputs . . . . .	46
3.4	Typical components for groups of residuals . . . . .	54
3.5	Physical supply and use table for energy . . . . .	64
3.6	Physical supply and use table for water . . . . .	72
3.7	Air emissions account . . . . .	82
3.8	Water emissions account. . . . .	87
3.9	Solid waste account . . . . .	90
4.1	Classification of Environmental Activities: overview of groups and classes. . . . .	99
4.2	Production of environmental protection specific services . . . . .	103
4.3	Supply and use of environmental protection specific services . . . . .	105
4.4	Total national expenditure on environmental protection . . . . .	106
4.5	Financing of national expenditure on environmental protection . . . . .	110
4.6	Environmental goods and services sector . . . . .	114

	<i>Page</i>
4.7 Comparison of the EPEA and the EGSS . . . . .	116
4.8 Selected payments to and from government and similar transactions . . . . .	118
4.9 Environmental taxes by type of tax . . . . .	122
4.10 Account for tradable emissions permits . . . . .	128
5.1 Classification of environmental assets in the SEEA Central Framework . . . . .	135
5.2 General structure of the physical asset account for environmental assets . . . . .	142
5.3 Conceptual form of the monetary asset account . . . . .	144
5.4 Derivation of accounting aggregates . . . . .	145
5.5 Relationships between different flows and income components . . . . .	153
5.6 Categorization of mineral and energy resources . . . . .	163
5.7 Stocks of mineral and energy resources . . . . .	164
5.8 Physical asset account for mineral and energy resources . . . . .	165
5.9 Monetary asset account for mineral and energy resources . . . . .	166
5.10 Entries for allocating the income and depletion of mineral and energy resources	171
5.11 Land use classification . . . . .	176
5.12 Land cover classification . . . . .	178
5.13 Physical account for land cover . . . . .	179
5.14 Land cover change matrix . . . . .	181
5.15 Physical asset account for forest and other wooded land . . . . .	183
5.16 Monetary asset account for land . . . . .	184
5.17 Physical asset account for area of soil resources . . . . .	189
5.18 Physical asset account for volume of soil resources . . . . .	190
5.19 Physical asset account for timber resources . . . . .	194
5.20 Monetary asset account for timber resources . . . . .	197
5.21 Classification of aquatic resources . . . . .	200
5.22 Physical asset account for aquatic resources . . . . .	203
5.23 Monetary asset account for aquatic resources . . . . .	207
5.24 Classification of inland water bodies . . . . .	212
5.25 Physical asset account for water resources . . . . .	214
6.1 Supply and use tables in physical and monetary terms . . . . .	240
6.2 Connections between supply and use tables and asset accounts . . . . .	242
6.3 SEEA Central Framework sequence of economic accounts . . . . .	243
6.4 Possible structure of and typical content for combined presentations . . . . .	258
6.5 Combined presentation for energy data . . . . .	260
6.6 Combined presentation for water data . . . . .	262
6.7 Combined presentation for forest products . . . . .	264
6.8 Combined presentation for air emissions . . . . .	266

## FIGURES

2.1 Physical flows of natural inputs, products and residuals . . . . .	13
3.1 Physical flows in relation to the production boundary of the economy . . . . .	40
3.2 Flows in water emissions accounts . . . . .	86
5.1 Relationship between environmental and economic assets . . . . .	139
5.2 Stylized sustainable yield curve . . . . .	148
5.3 Elements of the global hydrological system . . . . .	211
