Abbreviations	10
Foreword	11
1. Introduction	13
1.1. Overview	14
1.2. Use of regional accounts for policy and analysis	14
1.3. Relevant statistics	15
1.3.1. Regional accounts, a sub-system of national accounts	15
1.3.2. Regional Gross Value Added (GVA) and regional Gross Domestic Product (GDP)	16
1.3.3. Regional labour data	16
1.3.4. Regional Gross Fixed Capital Formation (GFCF)	16
1.3.5. Regional sector accounts of households	17
1.4. Historical background	18
1.5. Principles and concepts of regional accounts	19
1.6. Methods	19
1.7. Quality	19
1.8. Scope of the manual	20
2. General basis for regional accounts	21
2.1. Introduction	22
2.2. Economic territory	22
2.2.1. The regional territory	22
2.2.2. The extra-regio territory	22
2.2.3. The Nomenclature of Territorial Units for Statistics (NUTS)	22
2.2.4. Residence and territory concepts and commuting	23
2.3. Selection of units	24
2.3.1. Statistical units and residence in the case of industries	24
2.3.2. Statistical units and residence in the case of households	27
3. Methods of regionalisation	31
3.1. Introduction	32
3.2. Data required for regionalisation	32
3.2.1. Regional accounts by industry	32
3.2.2. Regional data on GFCF by industry	33
3.2.3. Regional accounts of households	34
3.3. Methods of regionalisation	34
3.3.1. Bottom-up methods	34
3.3.2. Top-down methods	35
3.3.3. Mixed methods	35

3.4.	Theoretical concepts for the use of indicators for GVA by industry	36
3.5.	Preferred methods of regionalisation	38
3.6.	Improving pseudo-bottom-up, top-down and mixed methods	38
3.7.	Adjustment of regional to national values; the non-observed economy	39
3.7.1.	Regional accounts by industry	39
3.7.2.	The non-observed economy	40
3.7.3.	Regional accounts of households	40
3.8.	Final and early regional estimates; revisions	41
3.9.	Accuracy of regional accounts estimates (A, B and C-methods)	42
3.9.1.	Introduction	42
3.9.2.	Regional accounts by industry	43
3.9.3.	Regional labour data by industry	44
3.9.4.	Regional data on GFCF	44
3.9.5.	Regional sector accounts of households	45
4.	General principles and methods for the compilation of regional GVA by industry and regional GDP	47
4.1.	Introduction	48
4.2.	Applying the production and/or income approach	49
4.3.	The choice of indicators in the case of multiregional KAUs, ancillary units and units without permanent labour	49
4.3.1.	Value added of ancillary units of a multiregional enterprise	49
4.3.2.	Value added of units without significant permanent labour	52
4.4.	Transition from regional GVA to regional GDP	52
4.4.1.	Introduction	52
4.4.2.	Regional allocation of Value Added Tax (VAT) and taxes and subsidies on products and imports	52
4.5.	Regional GDP per capita and regional population	52
5.	Applying the principles for the regional allocation of GVA in current prices to particular industries (NACE Rev. 2)	55
5.1.	Introduction	56
5.1.1.	Industries covered	56
5.1.2.	Other industries	56
5.2.	Mining and quarrying (Section B)	56
5.3.	Electricity, gas, steam and air conditioning supply (Section D) and Water supply; sewerage, waste management and remediation activities (Section E)	57
5.4.	Construction (Section F)	57
5.4.1.	Allocation of GVA	58

5.5.	Transportation and storage (Section H) and Information and communication (Section J)	59
5.5.1.	Land and water transport	60
5.5.2.	Rail transport	60
5.5.3.	Air transport	61
5.5.4.	Postal and courier activities	62
5.5.5.	Telecommunications	62
5.6.	Financial and insurance activities (Section K)	65
5.6.1.	Financial service activities, except insurance and pension funding	65
5.6.2.	Insurance, reinsurance and pension funding, except compulsory social security	66
5.7.	The allocation of FISIM to user industries	66
5.8.	Dwelling services of owner-occupiers	66
6.	The compilation of regional GVA in prices of the previous year; volume development of GVA	69
6.1.	Introduction	70
6.2.	The three principles provided by the 'Handbook'	70
6.2.1.	The elementary level of aggregation	70
6.2.2.	The choice of index formula and base year	70
6.2.3.	Regional GVA time series in prices of a reference year	71
6.3.	Criteria for appropriate regional price and volume indicators	71
6.3.1.	National criteria	71
6.3.2.	Regional criteria for appropriate price and volume indicators	72
6.4.	A, B and C-methods for the compilation of regional GVA in prices of the previous year	73
6.5.	Applying the criteria for the compilation of regional GVA in prices of the previous year to some particular industries	74
6.5.1.	Introduction	74
6.5.2.	Agriculture, forestry and fishing (Section A)	75
6.5.3.	Construction (Section F)	75
6.5.4.	Wholesale and retail trade; repair of motor vehicles and motorcycles (Section G)	75
6.5.5.	Accommodation and food service activities (Section I)	76
6.5.6.	Financial and insurance activities (Section K)	77
6.5.7.	Real estate activities (Section L); of which, imputed rent of owner-occupied dwellings	77
6.5.8.	Public administration and defence; compulsory social security (Section O)	78
6.5.9.	Education (Section P)	79
6.5.10.	Human health activities (Division 86, part of Section Q)	79
6.6.	Volume growth rates of regional GVA	79

7.	General principles for allocating Gross Fixed Capital Formation (GFCF) to regions	81
7.1.	Introduction	82
7.2.	Allocation principle	82
7.3.	Sales of existing assets	82
7.4.	Choice of methods	82
7.5.	Preferred methods	82
	7.5.1. The industry by type of asset approach	82
	7.5.2. The industry by sectors approach	87
7.6.	A, B, and C-methods for the compilation of regional GFCF	91
8.	Applying the principles for the regional allocation of GFCF by particular industries	93
8.1.	Introduction	94
8.2.	Mining and quarrying (Section B), Electricity, gas, steam and air conditioning supply (Section D), and Water supply; sewerage, waste management and remediation activities (Section E)	94
	8.2.1. Mining and quarrying (Section B)	94
	8.2.2. Electricity, gas, steam and air conditioning supply (Section D) and Water supply; sewerage, waste management and remediation activities (Section E)	94
8.3.	Construction (Section F)	94
8.4.	Transportation and storage (Section H) and Information and communication (Section J)	95
	8.4.1. Transport (excluding rail and air transport)	95
	8.4.2. Rail and air transport	95
	8.4.3. Telecommunications	95
9.	General principles for regional labour data by industry	97
9.1.	Introduction	98
	9.1.1. Labour Force Survey (LFS)	98
	9.1.2. Structural Business Statistics (SBS)	98
	9.1.3. Administrative data	98
9.2.	Employment	99
9.3.	Compensation of employees	100
9.4.	Labour productivity	100
9.5.	Choice of methods	101

10. General principles for allocating income transactions and aggregates of households to regions	103
10.1. General overview of the household accounts	104
10.2. Clarification of the accounts	104
10.2.1. Allocation of primary income account (Table 24.6 Full sequence of accounts for households, account II.1.2 in ESA 2010)	104
10.2.2. Secondary distribution of income account of households (Table 24.6 Full sequence of accounts for households, account II.2 in ESA 2010)	104
10.2.3. Redistribution of income in kind account of households (Table 24.6 Full sequence of accounts for households, account II.3 in ESA 2010)	105
10.2.4. Use of (adjusted) disposable income account of households (Table 24.6 Full sequence of accounts for households, account II.4.1 and II.4.2 in ESA 2010)	105
10.3. Sources	106
10.4. The choice of sources and indicators	106
10.5. The allocation of consumption of fixed capital (P.51c)	107
10.6. Links between certain transactions	107
10.7. Summary variables, definitions and possible sources	108
Annexes	109
Annex 1: Classifications	109
Annex 1a: Coding of industries (NACE Rev. 2: A*10, A*38 and A*64)	109
Annex 1b: Classifications of transactions in products (P)	111
Annex 1c: Classification of institutional sectors (S)	112
Annex 1d: Distributive transactions (D)	113
Annex 1e: Classification of Individual Consumption According to Purpose (COICOP)	116
Annex 1f: Classification of the Functions of Government (COFOG 1999)	119
Annex 2: Summary variables, definitions and possible sources of household accounts	122
Annex 3: Numerical example of regional household accounts	129
Annex 4: Differences between ESA 1995 and ESA 2010, relevant for regional accounts purposes	132
Index	133
