| <b>Acknowledgements</b> .....  | <b>3</b>  |
| <b>Contents</b> .....  | <b>5</b>  |
| <b>List of Boxes, Figures and Tables</b> .....                               | <b>7</b>  |
| <b>Acronyms</b> .....  | <b>8</b>  |
| <b>1. Introduction</b> .....   | <b>9</b>  |
| A. Background .....  | 10        |
| B. Rationale and scope .....   | 11        |
| C. Linkages to the International Recommendations on Refugee Statistics ..... | 11        |
| D. Report outline .....  | 12        |
| <b>2. The legal and policy framework</b> .....                               | <b>13</b> |
| A. The legal and policy frameworks for protecting IDPs .....                 | 13        |
| 1. International framework .....   | 13        |
| 2. Regional instruments .....  | 14        |
| 3. National laws and policies .....  | 14        |
| 4. Guiding Principles' definition of IDPs .....                              | 15        |
| B. Elements of the definition of IDPs in the Guiding Principles .....        | 15        |
| 1. Forced or obliged to flee or leave .....                                  | 15        |
| 2. Homes or places of habitual residence .....                               | 16        |
| 3. As a result of or in order to avoid .....                                 | 17        |
| 4. Causes .....  | 17        |
| 5. Internationally recognised borders not crossed .....                      | 19        |
| 6. Other issues not explicitly mentioned in the Guiding Principles .....     | 19        |
| C. Durable solutions and the end of internal displacement .....              | 20        |
| D. Conclusion .....  | 21        |
| <b>3. Defining IDPs for the purpose of statistical measurement</b> .....     | <b>23</b> |
| A. From a legal() to statistical definition .....                            | 23        |
| B. Measurements and specifications .....                                     | 25        |
| C. Deviations from technical definition in current practices .....           | 26        |
| D. Conclusion .....  | 28        |
| <b>4. Collecting numbers on IDPs: considerations and sources</b> .....       | <b>29</b> |
| A. Why are numbers useful? .....   | 29        |
| B. Importance of data quality .....  | 29        |
| 1. Preparations .....  | 30        |
| 2. Quality aspects to consider when planning data collection .....           | 30        |
| 3. Aiming for continuous improvements .....                                  | 32        |

|           |  |           |
|-----------|--|-----------|
| C.        | Comparing the main sources of IDP data .....   | 33        |
| D.        | Challenges with collecting IDP numbers .....   | 41        |
| 1.        | Stocks and flows .....   | 41        |
| 2.        | Individual versus household-level .....  | 44        |
| 3.        | Compiling data for international comparisons .....   | 44        |
| E.        | Conclusion .....   | 45        |
| <b>5.</b> | <b>Collecting IDP characteristics: challenges and applications .....</b>                   | <b>47</b> |
| A.        | Why are IDP characteristics useful? .....  | 47        |
| B.        | Identifying IDPs in official statistics .....  | 47        |
| C.        | Characteristics for measuring durable solutions .....                                      | 48        |
| 1.        | SDGs in characteristics determination .....  | 50        |
| D.        | Capacities of data sources .....   | 51        |
| E.        | Comparative analysis .....   | 57        |
| 1.        | Linking different sources to improve information .....                                     | 57        |
| F.        | Conclusion .....   | 58        |
| <b>6.</b> | <b>Coordination systems at national and international levels .....</b>                     | <b>59</b> |
| A.        | Why are coordination systems important? .....  | 59        |
| B.        | Coordination of IDP statistics between national stakeholders .....                         | 59        |
| 1.        | What does statistical coordination cover? .....  | 59        |
| 2.        | Coordination of statistics generated through national and international IDP response ..... | 60        |
| 3.        | Coordination through statistical strategies and systems .....                              | 61        |
| C.        | Coordination on the regional and global level .....  | 64        |
| D.        | Conclusion .....   | 66        |
| <b>7.</b> | <b>Recommendations towards a statistical framework on IDPs .....</b>                       | <b>67</b> |
| A.        | Regarding definitions and specifications .....   | 67        |
| 1.        | IDPs .....   | 67        |
| 2.        | IDP-related populations() .....  | 68        |
| B.        | Regarding quality standards and specifications .....                                       | 69        |
| 1.        | General data quality .....   | 69        |
| 2.        | Data sources .....   | 70        |
| 3.        | Assessing durable solutions .....  | 72        |
| C.        | Coordination .....   | 73        |
| D.        | The way forward .....  | 74        |

## List of Boxes, Figures and Tables

|   |    |
|---|----|
| Box 3.1 Statistical definition of an IDP in Azerbaijan .....  | 26 |
| Box 3.2 Somalia: IDP statistics based on data collected for operational humanitarian purposes .....   | 27 |
| Box 3.3 KRI: Inclusion and exclusion in the IDP registration system for the purpose of assistance provision .....                                 | 28 |
| Box 4.1 Fundamental Principles of Official Statistics .....   | 31 |
| Box 4.2 Côte d'Ivoire: Use of surveys .....   | 34 |
| Box 4.3 Kosovo: Combining multiple data sources for comprehensive analysis .....  | 35 |
| Box 4.4 Colombia: Use of registration .....   | 36 |
| Box 4.5 IDP registration in Ukraine and Bosnia and Herzegovina .....  | 39 |
| Box 5.1 Colombia: The Effective Enjoyment of Rights Framework .....   | 50 |
| Box 5.2 SDGs disaggregated by displacement status in Somalia .....  | 51 |
| Box 5.3 Bosnia and Herzegovina: Choice of characteristics to measure .....  | 56 |
| Box 5.4 Colombia: Combining data from surveys and administrative records .....  | 58 |
| Box 5.5 Kosovo: Housing, land, and property compensation register .....   | 58 |
| Box 6.1 Iraq and KRI: Mixed methods and mixed agencies .....  | 62 |
| Box 6.2 Colombia, Azerbaijan, and Bosnia and Herzegovina: Focal points inside and outside of NSSs .....   | 63 |
| Box 6.3 Somalia: Enhancing statistical coordination to improve response to displacement .....   | 64 |
| Box 6.4 Côte d'Ivoire: Coordination of IDP response, but not of IDP statistics .....  | 64 |
| Figure 5.1 IASC criteria: Proposed process for identifying context specific core indicators .....   | 49 |
| Figure 7.1 Inflows, outflows and stocks from IDP statistics .....   | 69 |
| Figure 7.2 Statistical categories to be included in official IDP statistics .....   | 70 |
| Table 4.1 Key quality considerations and implications in IDP statistics .....   | 32 |
| Table 4.2 Examples of direct IDP-related questions/questionnaires from the 2010-round of censuses .....   | 38 |
| Table 4.3 Summary sheet of the main displacement-related sources .....  | 42 |
| Table 5.1 SDG Indicators recommended to be disaggregated by displacement/migration .....  | 52 |
| Table 5.2 Overview of which data sources can provide a comparative analysis with the non-displaced population on durable solutions elements ..... | 56 |
