1. INTRODUCTION	5
2. LEGAL CONTEXT	5
3. BASIC CONCEPT: ACCIDENT AT WORK	5
3.1. Cases included.....	5
3.2. Cases excluded.....	6
4. SCOPE OF DATA COLLECTION	6
4.1. Fatal accident at work.....	6
4.2. Accidents at work with more than three calendar days' absence from work.....	6
4.3. Population coverage.....	6
5. VARIABLES	7
5.1. Main characteristics of the accident, the victim and the employer (‘Phase I’ and ‘Phase II’ variables)	9
5.1.1. Case Number	9
5.1.2. Economic activity of the employer	9
5.1.3. Victim’s occupation	9
5.1.4. Employment status of the victim	10
5.1.5. Age of the victim.....	10
5.1.6. Sex of the victim.....	10
5.1.7. Nationality of the victim.....	10
5.1.8. Geographical location of the accident.....	10
5.1.9. Date of the accident.....	11
5.1.10. Time of the accident.....	11
5.1.11. Size of the enterprise	11
5.1.12. Type of injury.....	11
5.1.13. Part of body injured.....	11
5.1.14. Days lost (severity)	11
5.1.15. Weight	11
5.2. Variables on causes and circumstances (‘Phase III’ variables)	12
5.2.1. Workstation	12
5.2.2. Working environment	13
5.2.3. Working process.....	13
5.2.4. Specific Physical Activity	13
5.2.5. Deviation.....	13
5.2.6. Contact and mode of injury	13
5.2.7. The Material Agents	13
5.2.7.a. Material Agent of the Specific Physical Activity	14
5.2.7.b. Material Agent associated with the Deviation	14
5.2.7.c. Material Agent associated with the Contact — Mode of injury.....	14
5.2.7.d. Coding of Material Agents.....	14

5.2.8. Weight Causes and Circumstances.....	14
6. METADATA.....	14
7. INDICATORS AND METHODS OF STANDARDISATION OF DATA.....	15
7.1. Reference population.....	15
7.2. Incidence rates.....	16
7.3. Standardised incidence rates.....	16
ANNEX I: CLASSIFICATIONS.....	17
ANNEX II: ESAW CLASSIFICATIONS GUIDELINES.....	35
