Abstract .....	3
Table of contents .....	4
<b>1. Introduction .....</b>	<b>5</b>
1.1. The starting point: coverage rates before reconciliation .....	6
1.2. Identifying the gaps: the OECD methodology and distributional national accounts .....	7
1.3. Estimation of total amounts in national accounts and EU-SILC .....	8
1.4. Sampling design considerations .....	9
1.5. Population differences .....	11
<b>2. Conceptual differences and coherence of adjusted EU-SILC and National Accounts disposable income .....</b>	<b>14</b>
2.1. Conceptual differences and adjustments.....	14
2.2. Coverage of EU-SILC and reconciled national accounts income components .....	16
<b>3. Adjusting EU-SILC survey data with national accounts data.....</b>	<b>25</b>
3.1. Simple proportionate adjustments by income components .....	26
3.2. Re-weighting .....	28
3.3. Semi-parametric modelling .....	30
<b>Conclusions .....</b>	<b>34</b>
<b>References .....</b>	<b>35</b>
<b>Annexes.....</b>	<b>37</b>
Annex 1: Review of national accounts items excluded from the comparison.....	37
Annex 2: Adjustment factors of main income components, EU-SILC vs. National accounts, income reference year 2014 (EU-SILC survey year 2015).....	40
Annex 3: Gini coefficients, at risk of poverty rates and thresholds after adjusting totals for micro/macro gap, income reference year 2014 (EU-SILC survey year 2015) .	41
