II.4) Title attributed to the contract by the contracting authority:

Lot 7: Software for Statistical Disclosure Control.

II.5) Short description:

The increasing production of statistical data and the increasing flow of microdata to Eurostat are reflected in the level of importance attached to confidentiality. Eurostat promotes the best use and analysis of the confidential data in its possession but must balance this with the need to provide an effective guarantee of statistical confidentiality. Many existing procedures are resource-intensive and cumbersome. Procedures to effectively deal with disclosure control are therefore necessary. Software (CIF Confidentiality InterFace v2.0) has been developed for Eurostat for disclosure control of tabular data. This is based on the engines GHQUAR and GHMITER developed by the Landesamt für Datenverarbeitung und Statistik Nordrhein-Westfalen.

II.6) Estimated total value (excluding VAT):

Lot 7: 174 000 EUR for the duration of the work (36 months not renewable).
