Introduction

Basic figures on European Neighbourhood Policy-South countries — 2021 edition

The 2021 edition of Basic figures on European Neighbourhood Policy-South countries presents series of basic statistical data for the EU's southern neighbourhood countries and compares them with EU data.

The European Neighbourhood South (ENP-South) grouping brings together a number of countries from northern Africa and the Middle East: Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine, Syria and Tunisia. Cooperation with Syria is currently suspended due to the political situation in the country.

Eurostat collects data from national statistical authorities and releases a range of publications, all of which are free of charge, on its website in PDF format: <https://ec.europa.eu/eurostat/web/main>.

More details on the statistical cooperation with the ENP-South countries, and links to the websites of their national statistical authorities and to the data sources of the figures and graphs can be found at the end of the publication.

Statistics Explained

Statistics Explained (<https://ec.europa.eu/eurostat/statistics-explained/index.php>) is a wiki-based system that presents statistical topics in an easy to understand way; it is composed of articles that together make up an encyclopaedia of statistics. There is a wide range of articles on ENP-South countries:

https://ec.europa.eu/eurostat/statistics-explained/index.php?title=European_Neighbourhood_Policy_countries_-_statistical_overview.

Dedicated background articles provide information on the statistical cooperation with the ENP-South countries and the MEDSTAT programme:

[https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Statistical_cooperation_-_European_Neighbourhood_Policy-South_\(ENP-S\)](https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Statistical_cooperation_-_European_Neighbourhood_Policy-South_(ENP-S)) and https://ec.europa.eu/eurostat/statistics-explained/index.php?title=MEDSTAT_programme.

Extraction date

Data were extracted in April 2021.

Statistical cooperation with the European Neighbourhood Policy-South countries

European Neighbourhood Policy (ENP)

The European Neighbourhood Policy (ENP), launched in 2004, supports and fosters stability, security and prosperity in the EU's neighbourhood. The ENP was revised in 2015. The main principles of the revised policy are a tailored approach to partner countries; flexibility; joint ownership; greater involvement of EU member states and shared responsibility. The ENP aims to deepen engagement with civil society and social partners. It offers partner countries greater access to the EU's market and regulatory framework, standards and internal agencies and programmes.

The Joint Communication by the European External Action Service and the European Commission on "Renewed Partnership with the Southern Neighbourhood", accompanied by an EU "Economic and Investment Plan for our Southern Neighbours", of 9 February 2021⁽¹⁾ further strengthens cooperation with the ENP-South countries.

Statistical cooperation with the ENP-South countries

The main objective of Euro-Mediterranean cooperation in statistics is to enable the production and dissemination of reliable and comparable data, in line with European and international norms and standards.

Reliable and comparable data are essential for evidence-based decision-making. They are needed to monitor the implementation of the agreements between the EU and the ENP-South countries, the impact of policy interventions and the reaching of the Sustainable Development Goals (SDGs).

The EU has been supporting statistical capacity building in the region for a number of years through bilateral and regional capacity-building. This takes the form of technical assistance to partner countries' national statistical authorities through targeted assistance programmes and activities such as training courses, working groups and workshops, exchange of best practice and the transfer of statistical know-how.

Geographical coverage of ENP-South countries

The data and their denomination in no way constitute the expression of an opinion by the European Commission on the legal status of a country or territory or on the delimitation of its frontiers.

The ENP-South region covers the following ten countries: Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine⁽²⁾, Syria⁽²⁾ and Tunisia.

For more information, see:

Sources

The figures shown in this document are based on statistics extracted in April 2021 from Eurostat's database:

<https://ec.europa.eu/eurostat/data/database>

The data for the ENP-South partner countries are supplied by and under the responsibility of the national statistical authorities of each of the countries or territories. Data from other sources are very limited and clearly identified. The data have not undergone the same validation process as the data in the other parts of Eurostat's database.

Data were extracted from the following specific Eurostat datasets:

DEMOGRAPHY AND HEALTH

- Population (enps_demo_pjangr and demo_gind)
- Population density (enps_demo_dens and demo_r_d3dens)
- Population by age groups (enps_demo_pjangr and demo_pjangroup)
- Fertility rate (enps_demo_frate1 and demo_find)
- Infant mortality rate (enps_demo_infant and demo_minfind)

LABOUR MARKET AND EDUCATION

- Employment rate (enps_lfsa_ergan and lfsi_emp_a)
- Unemployment rate (enps_lfsa_urgan and une_rt_a)
- Youth unemployment rate (enps_lfsa_urgan and une_rt_a)
- Education (enps_edat_lfse3 and edat_lfse_03)

ECONOMY, TRADE AND FINANCE

- Gross domestic product (GDP) (enps_nama_10_gdp and nama_10_gdp)

- GDP per capita (enps_nama_10_gdp, enps_demo_pjangr and nama_10_pc)
- Real annual growth in GDP (enps_nama_10_gdp and nama_10_gdp)
- Consumer price inflation (enps_cpi and prc_hicp_aind)
- Exports of goods to the EU (enps_ext_sitc)
- Imports of goods from the EU (enps_ext_sitc)

INDUSTRY, ENERGY AND COMMUNICATIONS

- Distribution of economy by sector (enps_nama_10_a10 and nama_10_a10)
- Share of renewables in energy production (enps_nrg_bal_c and nrg_bal_s)

TOURISM

- Bed-places in hotels and similar accommodation (enps_tour_cap_nat and tour_cap_nat)

Basic figures on European Neighbourhood Policy-South countries

2021 EDITION

The 2021 edition of Basic figures on European Neighbourhood Policy-South countries presents series of basic statistical data for the EU's southern neighbourhood countries and compares them with EU data. The ENP-South countries are, at the time of writing: Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine, Syria and Tunisia. Cooperation with Syria is currently suspended due to the political situation in the country.

With data up to and including the year 2019, this publication includes indicators from various domains such as demography, education, labour market, inflation, trade, GDP, energy, etc.
