Eurostat

YOUR KEY TO EUROPEAN STATISTICS

COMPACT
GUIDES

eurostat 

**TRUSTED STATISTICS.
INFORMED EUROPEANS.
BETTER DECISIONS.**

Eurostat's mission is to provide high-quality statistics for Europe.

Statistics can answer many questions. Is society heading in the direction promised by politicians? Is unemployment up or down? Are CO₂ emissions higher than 10 years ago? How many women are in work? How is your country's economy performing compared with other EU Member States?

Eurostat provides statistics at European level that allow comparisons between countries and regions. We offer a whole range of data that governments, businesses, the education sector, journalists and the public can use in their work and daily life.

PRODUCTS AND TOOLS

Statistical database

The **database** on Eurostat's website provides free online access to all Eurostat statistics.

Statistics Explained

Statistics Explained presents European statistics in an easily understandable way using a wiki-type system. Articles on all statistical topics are complemented by a glossary explaining the statistical terms and by numerous links to further information and to the database.

Publications

All **publications** are available free of charge from the Eurostat website. Printed publications can be ordered via **EU bookshop**.

News releases and What's new?

News releases provide the latest figures on a range of key topics while **What's new?** presents interesting snippets on Eurostat and its statistics.

Visualisation tools

Eurostat offers a range of **visualisation tools**. Among these, you will find the **Statistical Atlas** that allows you to compare EU regions and create maps, or **Economic Trends**, which provides a clear overview of the main economic indicators.
