

INTERESTED TO KNOW ABOUT...

... the amount of fish brought into EU ports by fishing vessels?

We have data on the volume and value of the landings made in each Member State.

... how trout, salmon, mussels and other species are farmed?

We have data on what is farmed in ponds, cages, tanks, on ropes and the like.

... the most common species caught by EU fishing vessels?

We have annual data on the catches made, in terms of species and of areas where they were caught.

... the size of the fishing fleet?

We have information on the characteristics of fishing vessels; there is annual data about their length, age, tonnage and fishing gear.

... how much is produced and where in the EU?

We have annual data on the volume and value of fish, crustaceans, molluscs and seaweeds caught wild or farmed in aquaculture plants.

EUROSTAT: TRUSTED STATISTICS ON FISHERIES INFORMED EUROPEANS BETTER DECISIONS

Eurostat's mission is to provide high-quality statistics for Europe. We provide official statistics at European level that enable comparisons between countries and regions.
