METHODOLOGICAL NOTES

Countries

EU-25 European Union (25 member countries)

BE Belgium	CY Cyprus	IT Italy	PL Poland
DE Germany	ES Spain	LV Latvia	PT Portugal
EE Estonia	FI Finland	LT Lithuania	SE Sweden
FR France	EL Greece	MT Malta	SI Slovenia
IE Eire/Ireland	DK Denmark	NL Netherlands	UK United Kingdom

Austria, the Czech Republic, Hungary, Luxembourg and Slovakia have no maritime fishing fleets.

The data for France include the vessels of the French overseas departments.

Notes

Eurostat keeps a register of fishing vessels which is updated each year for the EU Member States using extracts from the Community fishing fleet register, maintained by the Directorate-General for Fisheries under the terms of Commission Regulation (EC) No 26/2004 (situation at 31 December of the reference year).

The length of a vessel is its overall length, the tonnage is its gross tonnage and the power is its total maximum continuous power, as defined in Council Regulation (EEC) No 2930/86. The unit for measuring the tonnage of vessels changed recently from gross registered tonnage (Oslo Convention) to gross tonnage (London Convention). This change, involving the re-measurement of all vessels, was time-consuming. Although the process is now virtually complete, care should be taken when comparing data between countries and within a country over time.
