Notes

EU Member States, Iceland and Norway submit data on their catches in the North West Atlantic under the terms of Council Regulation (EEC) 2018/93, amended by Commission Regulation (EC) 1636/2001.

For statistical purposes the North-West Atlantic fishing area is divided by the Northwest Atlantic Fisheries Organisation (NAFO) into 6 subareas (NAFO 1-6). The NAFO subareas and divisions are shown on the map on page 2.

Catches are reported in the live weight equivalent of the landings. They are derived from the landed weight of the fishery products to which conversion factors have been applied. The data exclude quantities which are caught but not landed.
