*Appendix One:* List of analytical categories ..... 5

*Appendix Two:* Results at level of analytical categories  
for **Intra-EU staff PPP and CC** ..... 6

*Appendix Three:* Results at level of analytical categories  
for **pensioners PPP and CC** ..... 13

*Appendix Four:* Results at level of analytical categories  
for **joint BELU index** ..... 19

## 1. Introduction

This document is an appendix to the Eurostat report on the annual adjustment of remuneration and pensions<sup>1</sup>. While the principal results concerning changes in the cost of living in Belgium and Luxembourg, and the correction coefficients for staff and pensioners, are presented in the main report and appendices 1b and 1c of that report, the purposes of this supplementary report is to present more detailed statistical information at the level of authorised analytical categories.

This report is prepared in accordance with the decision of the Working Group on Article 64 and Article 65 of the Staff Regulations at the March 2015 meeting in Luxembourg to increase transparency by publishing information relating to correction coefficients and the Joint Belgium-Luxembourg index at a greater level of detail, and implements the decision at the March 2017 meeting in Luxembourg to make this information available on the Eurostat Dedicated Section as soon as possible after preparation of the Annual Eurostat Remuneration Report.

Figures are presented according to an approved level of detail as follows:

- **Table 1**: List of 35 "analytical categories" – see **Appendix 1** ;
- **Table 2**: Purchasing power parities for Intra-EU staff (€1 = ???), together with the percentage movement by comparison to the previous year, and corresponding consumption expenditure weights (‰) - see **Appendix 2** ;
- **Table 3**: Purchasing power parities for pensioners (€1 = ???), together with the percentage movement by comparison to the previous year, and corresponding consumption expenditure weights (‰) - see **Appendix 3** ;
- **Table 4**: Joint Belgium-Luxembourg index for the twelve month period, together with expenditure weights (‰) - see **Appendix 4** .

Note: In accordance with the Staff Regulations currently in force, purchasing power parity for staff in Luxembourg City is officially assumed to be equal to that in Brussels, and purchasing power parity for pensioners in Luxembourg is officially assumed to be equal to that in Belgium. However, in response to user requests, Appendix 1 and Appendix 2 of this analytical category report include corresponding hypothetical data for Luxembourg City<sup>2</sup> and for Luxembourg<sup>3</sup>.

Purchasing power parities for Extra-EU staff are not presented below level of global parity.

With the exception of the information about staff numbers which is obtained from internal Commission services, and the information about consumption expenditure patterns which is compiled by Eurostat from direct surveys of active staff and direct surveys of pensioners, and

---

<sup>1</sup> Ares(2021)6803678 dated 28 October 2021

<sup>2</sup> The calculation of hypothetical CC for active staff in Luxembourg City is done using identical methodology and data sources to those used to establish CC for other Intra-EU duty stations: in the absence of a specific family budget survey amongst active staff in Luxembourg, average pool consumption weights are used (average pool weights are also used in other places when there are insufficient replies to surveys).

<sup>3</sup> The calculation of hypothetical CC for pensioners in Luxembourg is done using identical methodology and data sources to those used to establish CC for other Member States, including the results of a family budget survey amongst pensioners in Luxembourg.

a direct survey of international schools, all calculations and figures presented in this report are based on data supplied and validated by the responsible authorities in the Member States.

In the tables, indices are shown rounded to 1 decimal place; parities are shown rounded to 3 decimal places (Euro zone) or 4 significant figures; exchange rates are shown with the same format; correction coefficients are shown rounded to 1 decimal place; percentage movements are shown rounded to 1 decimal place.

Important note: the United Kingdom left the European Union with effect from 1 February 2020 and is now a ‘third country’. The transition agreement introduced by the withdrawal agreement expired with effect from 31 December 2020. This has an important implication for the calculation of correction coefficients. For staff, the United Kingdom is now treated as an Extra-EU country and the production and publication of correction coefficients for London and Culham according to Intra-EU methodology has now ceased. Exceptionally, production and publication of correction coefficients for existing UK pensioners continues.

More information about methodology can be found in the detailed procedural manuals for the Joint Belgium-Luxembourg Index<sup>4</sup> and the calculation of Intra-EU correction coefficients<sup>5</sup>.

## Appendix One

**Table 1: List of analytical categories**

Analytical category	
1	FOOD AND NON-ALCOHOLIC BEVERAGES
2	Food
3	Bread and cereals
4	Meat
5	Fish
6	Milk, cheese and eggs
7	Oils and fats
8	Fruit and vegetables including potatoes and other tubers
9	Other food products
10	Non-alcoholic beverages
11	ALCOHOLIC BEVERAGES AND TOBACCO
12	Alcoholic beverages
13	Tobacco
14	CLOTHING AND FOOTWEAR
15	Clothing
16	Footwear, including repairs and hire
17	HOUSING, WATER, ELECTRICITY, GAS AND OTHER FUELS
18	Rents
19	Electricity, gas and other fuels
20	FURNISHINGS, HOUSEHOLD EQUIPMENT AND ROUTINE MAINTENANCE OF THE HOUSE
21	Furniture and furnishings
22	Major household appliances whether electric or not and small electric household appliances
23	HEALTH
24	TRANSPORT
25	Personal transport equipment
26	Transport services
27	COMMUNICATIONS
28	RECREATION AND CULTURE
29	Audio-visual, photographic and information processing equipment
30	EDUCATION
31	HOTELS, CAFES AND RESTAURANTS
32	MISCELLANEOUS GOODS AND SERVICES
33	TOTAL
34	Total excluding rents
35	EXCHANGE RATE

These analytical categories reflect decisions regarding level of dissemination detail taken by the Expert Working Group on Article 64 & 65 of the Staff Regulations, the Expert Working Group on Purchasing Power Parities (European Comparison Programme) and the Expert Working Group on Price Statistics (Harmonised Index of Consumer Prices). They are consistent with the standard Classification of Individual Consumption by Purpose (COICOP).

## **Appendix Two**

### **Results at level of analytical categories for Intra-EU staff**
