1. Introduction

At the meeting in Luxembourg in March 2015 of the Working Group on Article 64 and Article 65 of the Staff Regulations, document A6465/15/02 was presented and discussed. It reviewed the publication policy in force at that time and proposed an increase in transparency.

The approach was adopted subject to a small number of improvements. Document A6465/15/02rev was circulated after the meeting, presenting results according to the agreed level of detail ("analytical categories") from the July 2014 calculation of Intra-EU correction coefficients, namely purchasing power parities for staff (€1 = ???) and for pensioners (€1 = ???), together with corresponding expenditure weights (‰).

The current document presents a breakdown of the updated results for the July 2015 exercise, together with similar information for the Joint Belgium-Luxembourg Index.

As before, this document is presented for information of delegates at the annual meeting of the Article A64&65 Working Group and is not incorporated into the Annual Report or disseminated on the Eurostat website.

2. Conclusion

Delegates are invited to take note of the information presented in this document.
