1. Introduction

At the meeting in Luxembourg in March 2015 of the Working Group on Article 64 and Article 65 of the Staff Regulations, document A6465/15/02 was presented and discussed. It reviewed the publication policy in force at that time and proposed an increase in transparency by publishing information relating to Intra-EU correction coefficients at a greater level of detail.

The approach was adopted subject to a small number of improvements. Document A6465/15/02rev was circulated after the meeting, presenting results according to the agreed level of detail ("analytical categories") from the July 2015 calculation of Intra-EU correction coefficients, namely purchasing power parities for staff (€1 = ???) and for pensioners (€1 = ???), together with corresponding expenditure weights (‰).

The current document presents a breakdown of the updated results for the July 2016 exercise, together with similar information for the Joint Belgium-Luxembourg Index.

As with the preceding exercise, the 2016 document was prepared after finalisation of the Eurostat Annual Report and has been prepared for information of delegates at the annual meeting of the Article A64&65 Working Group. It has not been disseminated on the Eurostat website.

2. Proposal

As with similar requests to extend the level of information disseminated to interested users, preparation of this supplementary set of analytical categories cannot be allowed to delay publication of the statutory results themselves (ie. the Eurostat Annual Report).

However, subject to other workload, Eurostat has found it is nevertheless able to prepare this supplement without waiting to present it at the next Working Group meeting following publication of the statutory results. For this reason, Eurostat proposes to make the report available to delegates via the Restricted CIRCABC site, and to the general public on the Dedicated Section and Public CIRCABC site, as soon as it has been prepared. Other things being equal, this is likely to be during the course of the calendar month following publication of the statutory results.

3. Conclusion

Delegates are invited to take note of the information presented in this document, and to comment on the proposed change to dissemination policy.
