[07.1] Social statistics	[PopProj] Processing Population Projections: - Population Projections on national level (EUROPOP 2013) to be disseminated in the first half of 2014.	807	Regional population projections		Neutral (or not applicable)
[07.1] Social statistics	[QoL] Processing indicators on Quality of Life: Finalisation of the framework for indicators on quality of life. Publication based on existing data.	120	Quality of life		Neutral (or not applicable)
[07.1] Social statistics	[SocMod] Modernisation and coordination of social statistics: Actions which contribute to the modernisation of social statistics, including actions for increasing the efficiency of data production, for use of different data sources, for enhancing the analytical potential of the data produced through further integration and for improving the responsiveness of the system towards new policy needs. It includes the coordination of developments across different areas of social statistics as well as the production and dissemination of cross-cutting social statistics.	609	Communication of final results of the ESSnet on data collection in social surveys using multiple modes. Launching of follow-up activities in the field of data collection for social surveys (implementation, dissemination, continuation of development work).	ESTAT	Neutral (or not applicable)
		804	Review of availability, type and development of base registers on persons and buildings.	ESTAT	Neutral (or not applicable)
		805	Dissemination of cross-cutting social statistics. This output covers coordination within Eurostat of dissemination products for culture, sport, youth etc.	ESTAT	Neutral (or not applicable)
		810	Test implementation of the ESeG (European Socio-economic Groups) classification developed in the ESSnet-ESeG	ESTAT	Neutral (or not applicable)
		919	Preparatory work for the organisation of a conference on social statistics that will take place in 2016	ESTAT	Neutral (or not applicable)
[07.1] Social statistics	[SocReg] Regulatory framework for social statistics: Development of a framework for a modernised system of European social statistics that is capable of integrating the ongoing modernisation activities, that accommodates different situations in Member States and that supports the management of change.	603	Draft proposal of the European Commission for a framework regulation		Neutral (or not applicable)
[07.1] Social statistics	[SocStandVar] Standardised social variables: Standardisation of variables used across different data sources of social statistics.	601	Proposal for a basic set of standardised variables.		Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[07.1] Social statistics	[SocVIPstream] VIP Streamlining social surveys: Elaboration of a proposal to streamline core social surveys providing data (including microdata) on persons and households in order to achieve efficiency gains, increase responsiveness and increase the analytical potential of the data collected through an integrated system.	602	Specification of the technical elements required by an integrated system of social surveys	ESTAT	Neutral (or not applicable)
[07.1] Social statistics	[SPHE] Developing "satellite" accounts in the area of Social Protection, Health and Education: On the basis of existing experiences in the area of social protection (ESSPROS) and health (SHA), the project aims at developing the links with National Accounts for education, health and social protection. The availability of satellite accounts is planned in the long term perspective.	131	Initial developments for social protection satellite accounts		Neutral (or not applicable)
		811	Initial developments for education satellite accounts		Neutral (or not applicable)
		812	Initial developments for health satellite accounts		Neutral (or not applicable)
[07.1] Social statistics	[Sport] Sport statistics: Production and dissemination of statistics on sport on the basis of data collected by Eurostat through existing surveys.	144	Sport statistics. Note: dissemination of sport statistics is covered by the output "Dissemination of cross-cutting statistics".	EAC	Neutral (or not applicable)
[07.1] Social statistics	[TUS] Processing statistics of Time Use Survey: Collection and dissemination of the 2010 wave. Methodological development needed for the next round.	129	Time use (2010 wave)	ESTAT	Neutral (or not applicable)
[07.1] Social statistics	[Youth] Youth statistics: Production and dissemination of statistics on youth on the basis of data collected through existing surveys. Development of new indicators for the monitoring of the EU2020 flagships 'youth on the move' and 'an agenda for new skills and jobs'. Output available in 2015/2016.	133	Youth statistics. Note: dissemination of youth statistics is covered by the output "Dissemination of cross-cutting statistics" (output available in 2015/2016)		Neutral (or not applicable)
[08.1] Spatial information	[523] Nomenclature of Territorial Units for Statistics (NUTS) Classification and related Regulations maintenance: Coordination of the NUTS classification and regular revision via amendment regulations as well as Implementing Regulations in order to coordinate the adaptation of statistics to the NUTS changes. The process includes annual collection of Local Administrative Unit 2 (LAU 2, commune level) as basis for definition of NUTS boundaries. This data is also disseminated.	574	Implementation Plan for Nomenclature of Territorial Units for Statistics (NUTS) 2013 discussed and accepted by stakeholders	ESTAT	Neutral (or not applicable)
		575	Concept for a Regulation on territorial classification	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[526] Regional Yearbook Coordination and Statistical Atlas production: Planning and coordination of the Regional Yearbook in all phases of the production cycle (data extractions, map and graph creation, text drafting, translation, proofreading, layout, printing work, electronic publication, etc.). The Regional Yearbook is accompanied by an annual version of the electronic Statistical Atlas covering the maps of the Regional Yearbook.	577	Eurostat Regional Yearbook 2015 and related Electronic Statistical Atlas	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[527] Production of statistical and thematic maps: Production of statistical or thematic maps in paper and electronic form based on extractions from statistical databases and based on geographic data layers for the purpose to assist Eurostat units and also policy DGs.	578	High quality statistical maps	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

		785	Tools to support the production and/or display of statistical and topographic maps and geographic information	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[528] Coordination of INSPIRE (Infrastructure for Spatial Information in Europe) Implementation within Eurostat and Commission DGs: Cooperation with DGs to achieve Commission compliance with the INSPIRE Regulations and standards	579	Availability of INSPIRE compliant datasets for operational work of Commission services	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[529] GEOSTAT: ESS-Net project on European population grid: Preparation of a European population grid based on Census data: methodology for collection of geo-referenced demographical data	580	Use cases for grid based population statistics	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[530] Commission internal geoportal operation and maintenance: The INSPIRE@EU Geo-portal is a service to provide access to geographical datasets within the Commission and other EU Institutions as well as to external datasets via the INSPIRE technical infrastructure	581	Operational Geo-portal for Commission Services and for link into INSPIRE (Infrastructure for Spatial Information in Europe) European wide network	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[531] Coordination of geospatial information in the Commission within the European Statistical System (ESS) and on international level: Coordination within the Commission via Interservice Group (COGI), related technical committee (UTC) and within the ESS via Member States Working Group	582	Coordinated approach to geospatial information in the Commission	ESTAT	Neutral (or not applicable)
		583	Capacity building and exchange of best practices within ESS and on international level	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[532] Preparation and execution of the LUCAS (Land use and land cover statistics) 2015 Survey: Methodological, technical and organisational preparation, operation and exploitation of the survey. The approach follows the recommendations of the Advisory Group on Land Use/Land Cover and includes cooperation with sponsoring Commission DGs.	840	Operational LUCAS survey organisation	AGRI, CLIMA, ENV, ENTR	Neutral (or not applicable)
[08.1] Spatial information	[533] Development of a concept for Labour Market Areas: Based on the results of an exploratory study on Labour Market Areas (LMAs), a Task Force with Member States and REGIO explores the possibilities to establish a common EU concept and definition of LMAs to be used in statistical concepts.	839	Concept for Labour Market Area definition to be proposed as European Methodology	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[535] Creation of cooperation structures for Geographical Information System (GIS) related work in NSIs and on international level: Eurostat aims at concentrating its GIS related activities on an improved cooperation between statistics and geospatial information. Intensive cooperation with NSIs as well as on the international level is required. The appropriate structures need to be set up.	588	Cooperation and governance structure for the cooperation on the link between geospatial information and statistics	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[GISCO] Processing geospatial datasets: Operation and maintenance of the GISCO (Geographic Information Systems for the Commission) technical system and related tools within Eurostat and the Commission Data Centre. Procurement, maintenance and dissemination of geographic datasets for Eurostat and the Commission.	76	Demographic data at geospatial grid level	ESTAT	Neutral (or not applicable)
		589	Geospatial datasets made available to the European Commission, related Agencies and the general public	ESTAT, REGIO	Neutral (or not applicable)
		590	Functionally and user interface enhanced distance calculation tool (formerly WeblSE)	ESTAT	Neutral (or not applicable)

[08.1] Spatial information	[Reg] Coordination of Regional Statistics: Cooperation with Eurostat thematic units on regional statistics data collection in all phases of the statistical production cycle, the further evolution of indicators, metadata maintenance and their methodological basis as well as dissemination issues. Coordination with policy DGs of the Commission on regional, maritime, rural and urban statistics. Cooperation with ESS on regional, maritime, rural and urban statistics related issues. The process includes the actions related to the revision and maintenance of the thematic classifications, such as urban-rural typology.	80	EU regions: indicators	ESTAT	Increase of MS costs in the reference year
		81	EU regions: coordinated primary data & indicators	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[SubN] Processing Sub-National statistics: The process covers: - regional labour market statistics both at NUTS 2 and NUTS 3 level, including the calculation of structural indicators - rural development data collection - compilation of indicators important for maritime policy - compilation of aggregates based on regional typologies (metropolitan/urban/rural)	77	Regions' degree of urbanisation	ESTAT	Neutral (or not applicable)
		78	Regions' typology (metropolitan regions, coastal regions)	ESTAT	Neutral (or not applicable)
[08.1] Spatial information	[Urb] Urban statistics: Urban Statistics (Urban Audit) cover a range of statistical indicators for European cities. A smaller set of indicators are collected on an annual basis and a larger one on a multi-annual basis.	79	Key indicators for European cities	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvBioDiv] Processing biodiversity indicators: Publication of biodiversity indicators on the Eurostat database. Review of statistical needs and options to monitor the 2020 Biodiversity Strategy (for DG Environment).	66	Biodiversity statistics		Neutral (or not applicable)
[08.2] Environment	[EnvChem] Processing chemical indicators: Further develop and maintain the set of indicators to monitor the effectiveness of the EU chemicals policy.	69	Chemicals / hazardous substances	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvDCW] Processing statistics on waste streams - Data Centre Waste (DCW): Collect, validate and disseminate data on generation and management of: waste electrical and electronic equipment; packaging waste; end-of-life vehicles; batteries, household and construction&demolition waste; waste shipments. Manage, operate and further develop the environmental data centre on waste.	787	Waste streams statistics (waste electrical and electronic equipment; packaging waste; end-of-life vehicles; batteries, waste recycling target monitoring; waste shipments)	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvNRDC] Environmental data centre on natural resources: Manage, operate and further develop the data centre on natural resources	568	Statistical information for the EU2020 flagship initiative on resource efficiency (statistics, resource efficiency indicators, assessments and articles, data centre website).	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvReg] Regional environmental statistics: Collect regional environmental statistics by means of the regional environmental questionnaire (REQ).	70	Regional environmental statistics	ESTAT	Reduction of MS costs within the reference year

ESTAT Annual Work Programme 2015 List of outputs

[08.2] Environment	[EnvRES] Managing the resource efficiency scoreboard: Manage and further develop the resource efficiency scoreboard. Coordinate Eurostat activities on the Europe 2020 flagship initiative for resource efficiency.	64	Resource efficiency scoreboard	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvStream] Streamlining of environmental indicators: Streamline the various environmental indicators, in particular regarding clear and descriptive names and coherent definitions across indicator sets. The indicator sets considered are maintained by ESTAT, DG ENV, the JRC and the EEA. Work is done in close cooperation with indicator users.	570	Consistency of European environmental indicators and metadata, including concise and user-friendly information on data availability. Metadata catalogue available on website.	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvWat] Processing statistics on water resources, water use and wastewater treatment: Collect, validate and disseminate statistics on water resources, water uses and wastewater treatment. Domain was under review in 2014.	65	Water resources, water use and wastewater treatment statistics	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvWMun] Processing statistics on municipal waste: Collect, validate and disseminate data on municipal waste generation and management.	72	Municipal waste statistics	ESTAT	Neutral (or not applicable)
[08.2] Environment	[EnvWSReg] Processing statistics on waste generation and management according to Regulation 2150/2002: Manage the Waste Statistics Regulation. Collect, validate and disseminate data on generation and treatment of waste.	75	Statistics deriving from the Waste Statistics Regulation	ESTAT	Neutral (or not applicable)
[08.2] Environment	[OrgFarm] Processing Organic Farming statistics: Collection, validation and dissemination of data on organic farming.	140	Organic farming		Neutral (or not applicable)
[08.3] Energy and transport	[536] Revise the Energy Statistics Regulation (comitology procedure): Modify the Energy Statistics Regulation (a) responding to new policy requirements (b) in response to priority setting / burden reduction	593	Follow-up the inclusion of statistics on final energy consumption in households into the scope of Energy Statistics Regulation (EC) No 1099/2008		Increase of MS costs in the reference year
[08.3] Energy and transport	[537] Evolutive maintenance of the database: Modifications to the database induced by the changes in the annual (and monthly) questionnaires; evolutive maintenance of the database and loading and up-loading routines	594	Maintenance of the database, creation of a tool to populate time series of annual questionnaires in launching new data cycle	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[538] Preparation of input data for Purchasing Power Parity (PPP) calculations derived from electricity and gas prices: The PPP working group endorsed in November 2012 a proposal to use the electricity and natural gas prices as input parameters for the PPP calculations. This project was finished in December 2012, and a new process started in 2013 to routinely supply the necessary data to Unit C4.	595	Tables for PPP calculations for gas and electricity expenses		Neutral (or not applicable)
[08.3] Energy and transport	[539] Quality reporting in Energy Statistics: Development of quality reporting framework for annual and monthly Energy Statistics as provided in Regulation (EC) No 1099/2008	596	Preparation for the 2nd quality reporting cycle in cooperation with the MS		Neutral (or not applicable)
[08.3] Energy and transport	[540] Methodological manuals on energy statistics: Development work on detailed description of energy statistics methodology for data compilers at a national and EU level and for analysts of energy statistics data.	597	Outline of the methodological work established - tendering procedure to be initiated - creation of manuals internal & external work	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[08.3] Energy and transport	[541] Modernisation and integration of Transport Information System (TRIS): TRIS (TRansport Information System) is an Information System Framework implementing/integrating/documenting the Transport Statistics IT systems as sub-systems (Road, Rail, Aviation, Maritime, Inland Water Ways, Regional Transport, Common Questionnaire and Modal Split Indicators). Key point: a feasibility study on a common TRIS data warehouse approach.	598	Evolutive maintenance of all TRIS subsystems; Production of a feasibility study on the integration of TRIS with IS4STAT	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[636] Regulation of the European Parliament and of the Council on electricity and natural gas price statistics : Proposal for a Regulation of the European Parliament and of the Council on electricity and natural gas price statistics repealing Council Directive 2008/92/EC; the new legal act will cover prices both for households and non-households end-users	794	Draft Regulation of the European Parliament and of the Council on electricity and natural gas price statistics		Neutral (or not applicable)
[08.3] Energy and transport	[674] Sankey diagrams for energy balances: Production of Sankey diagrams for energy balances as Eurostat used to produce in the past in the paper form under the name Energy Flow Charts. There are possibilities to add additional features to the paper form and to utilise modern technologies, for the improvement of user-friendliness of the dissemination for complicated energy flows.	904	Production of Sankey diagrams for energy balances	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[Avia] Processing Air transport statistics: Annual/quarterly/monthly data collection on the carriage of passengers, freight and mail by commercial air services as well as on civil aircraft movements to or from Community airports, based on Regulation (EC) No 437/2003 of the European Parliament and of the Council.	97	Statistics on air transport	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[CO2] Processing short term CO2 emission estimates: Preparation of CO2 emission estimates on the basis of 2011-2015 monthly and other energy statistics using a methodology developed in an earlier study. Analysing the quality of monthly data by evaluating the coherence of monthly and other energy statistics and describing clearly the process to be followed to improve this quality if necessary.	84	Early CO2 emission estimates	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[HDD+CDD] Processing the indicators Heating Degree Days and Cooling Degree Days: Initiation actions for launching the "Heating Degree Days"-Project. The project aims at the development and the implementation of a common method for the calculation and dissemination of Heating Degree Days (HDD) and Cooling Degree Days (CDD).	92	Heating degree days and Cooling degree days		Neutral (or not applicable)
[08.3] Energy and transport	[IWW] Processing Inland WaterWay freight transport statistics: Annual/quarterly data collection (goods transported by type, transport by nationality and type of vessels, vessel traffic) on inland waterway freight transport, based on Regulation (EC) No 1365/2006 of the European Parliament and of the Council.	99	Statistics on inland waterway transport	ESTAT	Increase of MS costs in the reference year

ESTAT Annual Work Programme 2015 List of outputs

[08.3] Energy and transport	[Mar] Processing Maritime transport statistics: Annual/quarterly data collection (carriage of goods and passengers by sea) on maritime transport statistics, based on Directive 2009/42/EC of the European Parliament and of the Council and Regulation (EU) 1090/2010. Besides the currently produced statistics, Eurostat will continue the collaboration with DG MOVE through the Working Group on Maritime Transport Statistics, so as to develop a methodology for the production of more detailed statistics on Short Sea Shipping.	96	Statistics on maritime transport	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[NRG-A] Processing annual energy statistics: Update of Eurobase with annual energy statistics data, preparation of energy balance sheets, publications, reports on compliance monitoring and quality assurance, databases regular maintenance and support, user support output, answers to interservice consultations and EP questions. Develop indicator methodology and produce their values in order to monitor energy efficiency targets arising from Commission legislative acts and Europe 2020 strategy.	85	Energy dependence	ESTAT	Neutral (or not applicable)
		86	Energy efficiency	ESTAT	Neutral (or not applicable)
		87	Energy production, consumption and stocks: balance sheets	ESTAT	Neutral (or not applicable)
		88	Energy production, consumption and stocks: annual data	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[NRG-M] Processing monthly energy statistics: Collect monthly statistics (short-term trends) on solid fuels, oil and natural gas, electricity and certain renewable energy sources, in accordance with the Energy Statistics Regulation (EC) No 1099/2008.	89	Energy production, consumption and stocks (incl. oil): monthly data	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[NRG-Price] Processing energy price statistics: Energy Price Statistics dataset including: bi-annual publications in Statistics Explained, Updates of Eurobase, User support output, answers to interservice consultations and EP questions.	90	Energy Prices (electricity and gas)		Neutral (or not applicable)
[08.3] Energy and transport	[NRG-RES] Processing renewable energy sources statistics: Calculating and reporting the share of energy from renewable sources, in response to the mandatory targets set by Directive 2009/28/EC on the promotion of the use of energy from renewable sources. Pursue further the development of the statistical system to respond to the principles and methodology defined in Directive 2009/28/EC and at international level. Continue to implement actions to improve data coverage and quality. Develop IT tools (SHARES tool) to ensure monitoring of the national targets consistent with Regulation (EC) No 1099/2008 on energy statistics.	91	Renewable Energy Sources		Neutral (or not applicable)
[08.3] Energy and transport	[Pipe] Processing of statistics on transport equipment and infrastructure: Annual voluntary data collection on inland transport statistics (common ESTAT/ITF/UNECE questionnaire): infrastructure, equipment, enterprises, partly traffic and safety [it concerns all Products on inland transport].	93	Statistics on transport equipment and infrastructure	ESTAT	Reduction of MS costs within the reference year

ESTAT Annual Work Programme 2015 List of outputs

[08.3] Energy and transport	[Rail] Processing Rail transport statistic: Quinquennial/annual/quarterly data collection (goods, passengers and rail safety) on rail transport, based on Regulation (EC) No 91/2003 of the European Parliament and of the Council.	98	Statistics on rail transport	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[Road] Processing Road transport statistics: Freight transport: quarterly data collection (vehicle, journey and goods-related data) on road freight transport, based on Regulation (EU) 70/2012 of the European Parliament and of the Council. Road traffic volumes and Passenger mobility: annual voluntary data collection on the volume of road transport measured in VKm (Vehicle Kilometre); produce guidelines for harmonisation of national travel surveys for monitoring the targets of the White Paper.	95	Statistics on transport of goods by road; Road transport measured in Vkm (Vehicle kilometre); guidelines on Passenger Mobility Statistics comprising a set of indicators relevant for monitoring of the EU policy needs	ESTAT	Neutral (or not applicable)
[08.3] Energy and transport	[TranInd] Processing Indicators derived from Transport statistics: Transport safety: data collection on transport safety statistics, having as data suppliers DG MOVE, European Rail Agency, European Maritime Safety and European Aviation Safety Agency. Modal split indicators represent the relative share of each individual transport mode in the overall transport performance and are obtained from datasets of various transport modes using the same measurement unit. Intermodal transport statistics, including logistics indicators. Emissions by the transport sector: develop a methodology for calculating emissions from rail and inland waterways based on activity data improving comparability with emissions produced from other transport modes.	100	Indicators and analysis derived from transport statistics: Transport Safety, Modal split indicators, Intermodal transport, Emissions from the Transport sector	ESTAT	Reduction of MS costs within the reference year
[08.4] Agriculture, fisheries and forestry	[510] eDAMIS/Generic Web Forms component (domains: ANI, MILK, CROPS, API and EAA); Coordination of migration from Fame to Multi-Dimensional Tables, development of Euro Process Metadata Structure, Dissemination of agricultural and fisheries statistics: Analysis and request of new features; testing exercise of new versions, creation of templates for all datasets; addition of pre-validation rules; coordination of the migration process from Fame to Multi-Dimensional Tables, dissemination of agricultural and fisheries statistics (ANI: Animal, API: Agriculture Price Indices, EAA: Economic Accounts for Agriculture) (DSD: Data Structure Definition)	557	Simplification, integration, increased efficiency and additional functions of statistical processes in Eurostat. Creation of eDAMIS Webforms from existing DSDs. Coordination of migration from Fame to MDT. Development of EPMS. Dissemination work.		Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[511] Agricultural structures - Implementation work following Regulation 1166/2008 for farm structure survey 2016 and New approach for collection of agricultural structure data after 2016: Collection and validation of farm structure survey statistics after 2013	558	Draft Regulation farm surveys to be applied post 2016	ESTAT, AGRI	Increase of MS costs in the reference year
[08.4] Agriculture, fisheries and forestry	[513] Simplification of catch statistics legislation: Merge Regulations (EC) No 216/2009, No 217/2009 and No 218/2009 to cover the catches' data collection for the major fishing areas of EU27 fishing countries. Synergies between ESTAT and DG MARE concerning data collection for fisheries will be continued.	560	Revision of the existing legislation on data for fisheries will be considered in the light of the agreed synergies between ESTAT and DG MARE as well as the newly adopted strategy for fisheries statistics		Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[08.4] Agriculture, fisheries and forestry	[514] Long term system for collecting data needed for agro-environmental indicators: Create synergies in the field of agricultural statistics and other areas to optimize the ownership of information for agro-environmental indicators, through possible changes to regulations and/ or creating new ones.	561	Data collected through amendments of existing surveys and from new ones.	ESTAT, AGRI	Increase of MS costs in the reference year
[08.4] Agriculture, fisheries and forestry	[667] Strategy for the future surveys on Land Use and Land Cover statistics (LUCAS): Definition of a longer-term approach in cooperation with Commission DGs and Member States based on analysis of outcome of earlier surveys, policy requirements and Member States data and objectives.	592	Long term strategy for LUCAS Survey for 2018 and beyond	ESTAT	Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[AAct] Processing Agriculture economic Accounts: Validation, production and dissemination of Economic Accounts for Agriculture; Timely dissemination of quality data on agricultural income.	40	Economic accounts for agriculture	ESTAT	Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[AEI] Processing Agro-Environment Indicators: Farm management, including sale of pesticide (Regulation (EC) No 1185/2009) + Agricultural production systems + Pressures and risks, including Gross Nutrient Balance (GNB). A Memorandum of Understanding (EC services involved: Eurostat, DG AGRI, DG ENV, JRC and EEA) has been drawn up to ensure that already available data are fully used and to pool the different skills and resources, with the medium term objective of setting up a system for collecting data on the relation between agriculture and environment.	53	Agro-environment: Farm management (incl. sale of pesticide) + Agricultural production systems + Pressures and risks + incl. Gross Nutrient Balance (GNB)	ESTAT	Increase of MS costs in the reference year
[08.4] Agriculture, fisheries and forestry	[APri] Processing Agricultural Prices and Indices: Validation, production and dissemination of Agricultural Prices and Indices, including statistics on land prices and rents. Analysis of the outcome of special investigations through co-financing actions started in 2012 aiming to improve the land prices and rents will be evaluated.	54	Agricultural prices (incl. land prices and rents)	ESTAT, AGRI	Increase of MS costs in the reference year
		55	Agricultural price indices	ESTAT	Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[APro] Processing statistics on Animal Production: Collection, analysis, validation, production and Eurobase database update of statistics on livestock and meat , eggs and chicks. Implementation of Regulation 1165/2008.	43	Animal production: meat, livestock, (incl. Nomenclature of Territorial Units for Statistics (NUTS) 2 or 1) and structure of rearing.		Neutral (or not applicable)
		44	Animal production: poultry (eggs and chicks). Pilot data collection on eggs for human consumption.	ESTAT	Increase of MS costs in the reference year
[08.4] Agriculture, fisheries and forestry	[AProCPP] Processing crop statistics: Crop statistics - validation and production of annual statistics on area, production and yields production database and Eurobase database update, crop supply balance sheets production for main grain products; database and dissemination Eurobase database updated.	52	Statistics on annual crop production, area and yields		Neutral (or not applicable)
		914	Supply balance sheets for main grain products (wheat, maize, rice, barley, repeseed, soybean and sunflower)		Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[AProMk] Processing statistics on milk and dairy products: Processing statistics on milk and dairy products	49	Milk and milk products (incl. Nomenclature of Territorial Units for Statistics (NUTS) 2) and on dairies structure (triennial). An activity on developing a methodology for disclosure control at EU level will continue.		Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[08.4] Agriculture, fisheries and forestry	[Fish] Processing landings and catch statistics: Data collection, analysis and dissemination; data quality assessment. Focus on quality of statistics, using the new informatics tools implemented in the framework of the eDamis single point as well as the fisheries pilot project using the SDMX; data analysis and dissemination.	41	Fishery (2/4): Landings of fishery products		Reduction of MS costs within the reference year
		42	Fishery (1/4): Catches by fishing area		Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[FishAq] Processing aquaculture statistics: Data collection, analysis and dissemination of aquaculture statistics; data quality assessment. Follow up of the report submitted to EP and Council in 2012 on the data relevance and quality and follow up of this report. Special attention will be devoted to actions highlighted in this report.	50	Fishery (3/4): Statistics on annual production of aquaculture and structure of the aquaculture sector.		Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[FishFleet] Processing Fishing Fleet Register: Eurobase updating (from DG MARE database).	51	Fishery (4/4): Fishing fleet		Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[Forest] Processing forestry statistics and accounts: Collect, validate and disseminate forestry statistics and accounts. Forestry accounts: develop and improve the methodology, in particular the coverage of the physical and monetary asset accounts.	67	Forestry statistics and accounts		Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[FSS] Processing data of Farm Structures Survey (census 2009/2010 and sample survey 2013): Collection, validation and dissemination of 2009/2010 census data; Validation processes; National Methodological Reports; New dissemination strategies; implementation farm sample survey 2013 following Regulation 1166/2008.	46	Structure of agricultural holdings (Nomenclature of Territorial Units for Statistics (NUTS) 3 in census years, NUTS 2 in intermediate sample surveys)	ESTAT, AGRI	Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[LUCAS] Land use and land cover statistics (LUCAS): Collecting, processing and dissemination of European data on land use and land cover by implementing the LUCAS approach; by assessing and collecting available data in countries and by taking into account the need for harmonisation of these data and by co-operating with Commission DG, the EEA, other international bodies and Member States.	82	Land cover and use, landscape: indicators	ESTAT	Neutral (or not applicable)
		83	Land cover and use, landscape: primary data & indicators	ESTAT	Neutral (or not applicable)
		591	Regular land cover/land use survey coordinated with policy DGs and Member States	ESTAT, AGRI, CLIMA, ENTR, ENV	Neutral (or not applicable)
[08.4] Agriculture, fisheries and forestry	[Orch+Vit] Processing statistics on permanent crops (former orchard and vineyard surveys): Update of production database in MDT (MultiDimensional table) and/or FAME (Forecasting Analytical Modelling Environment) and of Eurobase database; implementation of Regulation 1337/2011 (former Vineyard and Orchard surveys).	47	Statistics on orchards area		Neutral (or not applicable)
		48	Statistics on vineyard holdings and area		Increase of MS costs in the reference year

ESTAT Annual Work Programme 2015 List of outputs

[09.1] Quality management	[375] Co-operation and coordination of quality work: Support, facilitate and assure the coordination of statistical quality initiatives in Eurostat, the Commission, the ESS and wider; work on statistical co-operation on quality issues (e.g. Coordination Group 5 on Quality, Working Group on Quality, Quality conferences, training courses and presentations etc).	883	Preparation, award and monitoring of the implementation of the grant agreement for the organisation of the biennial quality conferences	ESTAT	Neutral (or not applicable)
[09.1] Quality management	[376] Mid-term evaluation of the European Statistical Programme (ESP) 2013-2017: Mid-term report to the EP and Council describing the evaluation of the ESP 2013-2017 and recommendations to follow.	421	Report adopted by the Commission by end of June 2015		Neutral (or not applicable)
[09.1] Quality management	[666] Development and promotion of European Statistical System (ESS) quality standards and guidelines: Work on the development and promotion of ESS quality standards and guidelines (e.g. advice and support on quality issues, development and promotion of ESS quality reporting standards, etc).	896	Follow-up of the work of the TF on Quality Reporting (Sponsorship on Quality, ESSC approval): contribution to the implementation of Single Integrated Metadata Structure, preparing the second update of the Handbook (ES-Inventory of Sources and Methods)		Neutral (or not applicable)
[09.1] Quality management	[680] Explore with Member States possible enhancements to quality management in the European Statistical System (proposed ESS.VIP): Work in close cooperation with Member States and in particular the Working Group on Quality on possible ways to enhance quality management in the European Statistical System.	912	Quality actions under the umbrella of the ESS Vision 2020 are agreed with the Member States		Neutral (or not applicable)
[09.1] Quality management	[PR] Monitoring Code of Practice compliance: Peer Review : Management of the second round peer review exercise in the ESSC, which includes 32 countries and Eurostat	738	Draft report to the EP and the Council on the new round of peer reviews. Innovative practices so as to be re-used within the European Statistical System will be highlighted.		Neutral (or not applicable)
[09.1] Quality management	[QAF] Updating of the European Statistical System Quality Assurance Framework (ESS QAF): Updating of the ESS QAF taking into account the experience of the second round of peer reviews.	836	Meetings of the "ESS TF on peer reviews" to update the ESS QAF. Experience gained during the peer review exercise will be an important input for this updating.	ESTAT	Neutral (or not applicable)
		908	Regular update of the ESS QAF whenever appropriate		Neutral (or not applicable)
[10.1] Priority setting and simplification	[AWP] Annual Work Programme (AWP): Plan, co-ordinate and monitor the definition monitoring of the Commission's Statistical Annual Work Programme for year Y+1, including priority setting.	225	AWP 2016: adoption of the Commission Decision on the Annual Work Programme including the list of negative priorities		Neutral (or not applicable)
		228	Draft strategic priorities for the European Statistical System (ESS) in 2017 in the European Statistical System Committee (ESSC) meeting of November 2015		Neutral (or not applicable)
[10.1] Priority setting and simplification	[PMO] Project Management support, including support to pilot projects of Cost-benefit TF: Project Management Support	792	Support to ESS VIP pilots applying the cost-benefit methodology		Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[380] Hosting services for statistical production: Provide technical expertise to EUROSTAT units related to IS hosting.	425	Hosting services of DIGIT and follow-up on hosting strategy.	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[381] End-user equipment: Manage hardware and software of IT end-users.	427	Proper management of hardware used by end-users. This includes the timely provisioning of PCs/laptops to ESTAT staff and the correct inventarisation of equipment.	ESTAT	Neutral (or not applicable)
		428	Management of licenses for software (which is) used on end-user devices. This includes the timely extension of maintenance contracts.	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[11.1] Integrated production + ESS functioning	[382] Eurostat server infrastructure: Ensure a high level of availability of Eurostat server infrastructure (including shared drives).	429	VIP-SICON (Secure infrastructure for sharing confidential data) project management, evolution and maintenance.	ESTAT	Neutral (or not applicable)
		430	Ensure a high level availability of local IT infrastructure.	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[401] Renovation of Eurostat's dissemination chain for reference data: The Eurostat dissemination chain for reference data composed of several databases and other components will be renovated to make it more stable and upgrade the underlying technology.	756	First phase of deliverables for a renovated dissemination chain for reference data	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[404] Support to the Eurostat/European Statistical System/other data and metadata producer: This process contains: support to the Eurostat domain manager with regard to central data production and dissemination; support to Eurostat and ESS domain manager on the harmonisation, integration, production and dissemination of metadata; provide services to other DGs of the European Commission (related to data structure standardisation and the reuse of the Eurostat Dissemination Chain) ;	458	Central data and metadata support services provided to the Eurostat/ESS data and metadata producer	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[405] Implement the Statistical Data and Metadata Exchange (SDMX) standards in European Statistical System (ESS) statistical domains: This process contains: implement the SDMX standards in statistical domains, support the harmonisation and integration of the underlying statistical business processes.	459	SDMX standardisation services provided for statistical domains	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[406] Provide user services for European Statistical System (ESS) data validation and eDAMIS (electronic Data files Administration and Management Information System): This process contains: provide first level Edamis user services to the Eurostat user and to the ESS user; provide first level user services related to data validation services to the Eurostat user and the ESS user.	460	User services provided for eDAMISand ESS data validation	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[408] Support the legislation of European Statistical System standards: This project contains: support the legislation of statistical and technical standards in statistical domains; monitor and evaluate the ESS vision implementation grants.	461	Legal advice services related to ESS standards provided; ESS vision implementing grants finalised		Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[409] Provide European Statistical System classifications, structural and other metadata: This process contains: Produce, update and disseminate ESS classifications and related metadata in the ESS Metadata Handler; produce and update and disseminate harmonised ESS structural metadata (code lists) and other metadata (e.g. CODED) ; ensure the user support for ESS classifications and other metadata to the ESS and professional associations.	462	Standardisation services related to ESS classifications and structural metadata provided	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[410] Provide input to the SDMX (Statistical Data and Metadata Exchange) standards and SDMX constituency: This process contains: Provide input to the maintenance and updating of the SDMX statistical standards; provide input to the work of the SDMX constituency (in particular the SDMX Secretariat and to the SDMX Statistical Working Group).	463	Input/services provided related to SDMX statistical standards and SDMX governance		Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[11.1] Integrated production + ESS functioning	[567] Co-ordination of national Business Registers and Statistical Units: Co-ordinate and monitor the implementation of the Business Registers and Statistical Units Regulations	633	Report submitted to the EP and Council on the implementation of BR Regulation (Art. 6 of the BR Regulation)		Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[573] Modernisation and coordination of European business statistics: Modernisation and coordination activities in business statistics, including the BSDG Secretariat	641	European Statistical System Centre of competence on data warehousing	ESTAT	Reduction of MS costs within the reference year
[11.1] Integrated production + ESS functioning	[577] EuroGroups Register (EGR) maintenance and frames production process: Production cycle for producing frames based on the EuroGroupsRegister	630	Maintenance and development of the IT architecture to manage the EGR	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[617] Implementation of the Scheveningen memorandum: The Scheveningen Memorandum was adopted by the ESSC on 27 September 2013 and paves the way for the future co-operation between members of the EEC on the use of big data for official statistics. The Memorandum requires the development of an ESS roadmap and action plan which should be implemented in the annual statistical programming.	753	Creation of dedicated ESSnets for implementing specific strands of the Memorandum	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[619] Big Data Privacy Issues: Many of the big data sources are held by third parties and contain personal data. Access and use of such data raise several issues regarding the protection of privacy. This work will examine in detail the adequacy of the provisions of the current EU data protection legislative reforms in the age of Big Data.	754	Report to the European Statistical System Committee on the adequacy of current legislation	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[620] Development of model applications on the use of big data in official statistics: The aim of developing model applications is to demonstrate best practice within the ESS on the use of big data for official statistics. It is only through concrete use-cases that we can address methodological, technological, and legal issues.	755	Prototyping of successful use-cases and testing of new ones	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[621] IT for dissemination of data and metadata: Maintenance and support of Information Systems for the dissemination of data and metadata - for Eurostat, and for potential sharing in the ESS	757	Dissemination chain for reference data: support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
		760	ESS-MH (Metadata Handler): support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[622] IT for data exchange: Maintenance and support of Information Systems for the exchange of data and metadata in the ESS	761	EDAMIS: support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
		763	Feasibility study for implementing pull mode in data collection.	ESTAT	Neutral (or not applicable)
		767	Outline and implementation plan for a renovated EDAMIS	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[623] IT for data processing: Maintenance and support for processing of statistical data	769	Information systems for statistical production: support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
		770	Compliance validation of data: support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
		775	Implementation of production chains for new data collections	ESTAT	Neutral (or not applicable)
		776	Migration of "local" production chains towards corporate solutions	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[11.1] Integrated production + ESS functioning	[624] IT for standardisation of data and processes: Maintenance, support and development of tools and services for standardisation of data and processes	762	Standard data collection tool based on Excel and SDMX: support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
		771	Data Validation Service that can be shared in the European Statistical System	ESTAT	Neutral (or not applicable)
		772	SDMX tools: support, and corrective and evolutionary maintenance	ESTAT	Neutral (or not applicable)
		774	Based on a prototype, continue with a streamlined system for statistical production inside Eurostat (integration and consolidation of existing systems)	ESTAT	Neutral (or not applicable)
		777	Participate in international activities related to standardisation such as SDMX and CSPA (Common Statistical Production Architecture)	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[625] IT governance: IT strategy, IT governance (reaches across several units in B!)	778	IT strategy: regular update and progress reporting	ESTAT	Neutral (or not applicable)
		779	Product management and product family management	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[ADMIN] ADMINistrative data (ESS.VIP Business Project ADMIN): The ADMIN project is a coordinated set of actions aiming to support Member States in using administrative data sources without compromising output quality. It includes the ESSnet on quality of multisource statistics.	605	Start of implementation of agreed work packages, if approved by the ESSC.	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[Census] Census 2011 data - processing: - Operationalisation of Census Hub. - Dissemination of 2011 Census data through other channels.	758	Census HUB: support, and corrective and evolutionary maintenance and information of Member States	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[CoE DWH] Centre of Excellence on Data Warehousing (ESSnet): Main goal of the Centre of Excellence on DWH is to support member states implementing the results of the ESSnet on DWH. The Centre offers (ad-hoc) support and consultancy to ESS members on specific subjects and projects as requested.	907	Support to ESS in DWH implementation	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[CoE SA] Centre of Excellence on Seasonal Adjustment (ESSnet): Activities supporting the testing and the promotion of JDemetra+ (seasonal adjustment software). Support, training and coaching of Seasonal Adjustment practitioners.	418	Launch and monitoring of pilot Centre of Excellence on Seasonal adjustment.	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[DARA] Infrastructure for the release of confidential data for scientific purposes – decentralised and remote access to confidential data in the ESS (ESS.VIP Business Project DARA): To set up a network of national safe centres in the ESS providing access to EU secure use files; data should be accessible remotely from the safe centres to the central node.	915	Progress in development of remote access system connecting safe centres in national statistical institutes to the central node where the data are stored	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[DWH] Statistical Data Warehousing: Activities devoted to strengthen the ESS information infrastructure and the development of a solution for storing, processing and redistributing shared data and metadata across partners and processes as required by the ESS.VIPs. Definition of a ESS strategy for more integrated ESS data & metadata management.	893	Conceptual framework for data warehousing infrastructural architecture	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[11.1] Integrated production + ESS functioning	[EA] Enterprise Architecture: Coordination of cross cutting solution architectures supporting the integration of EU statistics production processes. Design of corporate solution architecture for improving efficiency and quality of statistical production. Development, maintenance and promotion of standards aiming at higher integration of ESS processes. Ensure the overall coherence. Support the ESS.VIP projects.	487	Review and assess cross cutting architecture development.	ESTAT	Neutral (or not applicable)
		488	Maintain architectural principles and framework for Vision implementation and process integration.	ESTAT	Neutral (or not applicable)
		493	Service Oriented Architecture (SOA) competence is supporting the transition to a new common statistical production architecture	ESTAT	Neutral (or not applicable)
		494	Capacity building for describing and documenting official statistics production processes in a modular (SOA) way, making use of reference standards.	ESTAT	Neutral (or not applicable)
		800	Implementation of ESS Vision 2020	ESTAT	Increase of MS costs in the reference year
[11.1] Integrated production + ESS functioning	[ESBRs] European System of Interoperable Business Registers (ESS.VIP Business Project ESBRs): Establishment of a European system of interoperable statistical Business Registers. This project includes also the ESSnet ESBRs.	644	Implementation of a European system of interoperable statistical registers as a backbone for business statistics	ESTAT	Increase of MS costs in the reference year
		645	Implementation of EuroGroups Register (EGR) data quality management integrating profiling results	ESTAT	Neutral (or not applicable)
		646	Development of e-Services	ESTAT	Neutral (or not applicable)
		766	EGR (EuroGroups Register)/ESBRs (European System of Business Registers): contribute to set-up, support and maintenance	ESTAT	Increase of MS costs in the reference year
		833	European profiling: methodological developments and promotion of European Statistical System activities	ESTAT	Increase of MS costs in the reference year
[11.1] Integrated production + ESS functioning	[ESDEN] European Statistical Data Exchange (ESS.VIP Cross-cutting infrastructure ESDEN): Designing and implementing regular and secure channel for sending non-confidential and confidential data.	764	Evaluate the usage of CCN (Common Communication Network) and sTesta for exchange of data and metadata in the European Statistical System, based on the SIMSTAT pilot	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[ESS.VIP PGM] ESS.VIP Programme management: ESS.VIP programme governance, responsibilities, resources, administrative mechanisms, communication, monitoring	801	Implementation of ESS Vision 2020	ESTAT	Increase of MS costs in the reference year
[11.1] Integrated production + ESS functioning	[IMS] Information Models and Standards (ESS.VIP Cross-cutting infrastructure IMS): Develop, maintain and build capabilities for information models and related standards for ESS data and metadata exchange and ESS.VIP projects.	495	Standards for the design and implementation of statistical services and production processes.	ESTAT	Neutral (or not applicable)
		496	Analysis of needs and requirements for standard-agnostic metadata repositories and registry.	ESTAT	Neutral (or not applicable)
		497	Capacity-building and training material for proposed standards.	ESTAT	Neutral (or not applicable)
		803	Guidelines for describing and handling macro and micro-data in the corporate information system.	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[11.1] Integrated production + ESS functioning	[ITSEC GOV] Put in place a security governance in Eurostat and in the European Statistical System: Define and put in place with ESS members IT security standards in order to ensure secure and reliable exchange of confidential information. Put in place a decision body related to IT security related issues within the ESS. Ensure IT security governance in Eurostat	485	Management of the WG on ESS IT security for elaborating and monitoring security aspects of information (data, email, micro-data, documentation) exchange in the ESS.	ESTAT	Neutral (or not applicable)
		486	Implementation and communication about the common IT security standards for Information Exchange. Documentation of ESS hardware and software architectures for security purposes in order to cope with the diversity of the ESS environments.	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[ITSEC PROT] Protection of information systems: Detection of intrusion, penetration test on ESTAT IT systems, liaison with DIGIT CSIRC for detection of vulnerabilities, reporting on security incident, monitoring, follow-up and provision of recommendations for improving security of Information Systems.	482	Receipt and analysis of logs coming from all ESTAT IT systems with Splunk. Penetration tests.	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[METHODOLOGY] Methodological for official statistics: (1) Provide methodological expertise to improve production processes and quality of output. (2) Development, maintenance and promotion of methodological standards. (3) Specification, assessment, user support and training for methodological tools. (4) Launch and monitor methodological ESSnets (European Statistical System collaboration networks). (5) Contribute to Eurostat and ESS VIP projects. (6) Methodological helpdesk. (7) Monitoring of methodological framework contract.	407	Pilot and evaluation of the model for Centres of Excellence in the European Statistical System.	ESTAT	Neutral (or not applicable)
		409	Internal methodological support to other Commission DGs and services	ESTAT	Neutral (or not applicable)
		411	Methodological guidelines for statistical production to Commission DGs	ESTAT	Neutral (or not applicable)
		413	Contribute to Vision Implementation Project (VIP) on admin data for social statistics.		Neutral (or not applicable)
		414	Provision of general methodological support	ESTAT	Neutral (or not applicable)
		416	Launch methodological actions supporting reengineering of production processes and quality improvement.	ESTAT	Neutral (or not applicable)
		417	Coordination of the Seasonal Adjustment activities in the European Statistical System and in Eurostat	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[NAPS-S] National Accounts Production System - validation and dissemination: Follow-up project of the VIP NAPS that will move the harmonised and consolidated ESTAT National Accounts production system into a SOA-like architecture and incorporate 1-2 services to be shared with the Member States	523	Eurostat National Accounts production system offering 1-2 shared services to the Member States in an Service Oriented Architecture (SOA)-like architecture		Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[SERV] Sharing SERVICES (ESS.VIP Cross-cutting infrastructure SERV): Platform for Sharing SERVICES and Information System for Statistical Production. The project includes the ESSnet "Sharing common functionalities in the ESS" that aims at analysing and describing the needed preparations for developing and sharing, among National Statistical Institutes and other ESS authorities, Statistical Services and exposing these on an ESS Service Oriented Architecture (SOA).	773	Prototype for a platform to share services in the European Statistical System (part of ESS.VIP programme; SERV activity)	ESTAT	Neutral (or not applicable)

[11.1] Integrated production + ESS functioning	[SGA3] ESSnet on Standardisation (SGA 3): Activities supporting the implementation of standardisation in the European Statistical System (e.g. maintenance of inventory of standards, templates and guidance documents, impact assessment, communication)	906	Support to ESS standardisation	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[SIMSTAT] Single Market STATistics (ESS.VIP Business Project SIMSTAT): Micro-data exchange for Intrastat statistics. The pilot project aims at the establishment of a system for the micro data exchange between Member States. Data include confidential microdata on Intra-EU dispatches at enterprise level. The project should demonstrate the technical feasibility of the SIMSTAT proposal aiming at substantial burden reduction on respondents as well as better quality figures for Intrastat. The project is also linked to FRIBS (Framework Regulation for Integrating Business Statistics). Eurostat launches an ESSnet (European Statistical System collaboration networks) on implementation of the micro-data exchange to conduct the trial tests in 2015.	677	Trial tests for the micro-data exchange implemented via ESSnet		Neutral (or not applicable)
		765	SIMSTAT pilot: set-up, support and maintenance	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[SMIS] Coordination of Standards, Methods and Information Systems: Monitoring and/or coordinating the ESS and Eurostat activities related to standards, information models, methods, reserach and information systems. Organisation of the Director's Group on Standards, Methods and Information Technology.	892	Guidelines and support for the establishment of standards and information models	ESTAT	Neutral (or not applicable)
[11.1] Integrated production + ESS functioning	[VALIDATION] Common data VALIDATION Policy (ESS.VIP Business Project): Common rules and language for validation. Office wide extension of the VIP on validation projects aiming at developing a more efficient distribution of validation tasks within the ESS. The project includes also the ESSnet VALIDATION.	556	Common way to describe validation rules and validation processes	ESTAT	Reduction of MS costs within the reference year
		917	Harmonising the validation approaches in the ESSnet	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[402] Manage, improve and further develop the content of the Eurostat Dissemination Chain and Basext (Bases de données extérieures): This process contains: Manage, improve and further develop the Eurostat dissemination chain (in particular Eurobase); ensure and monitor daily updates of the reference database Eurobase; maintain and improve the data tables for European statistics; Maintain, improve and further develop the data and metadata disseminated in Basext.	456	Central data production and dissemination services provided for European and other statistics (including Basext)	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[403] Manage the production, dissemination and standardisation of European Statistical System (ESS) reference metadata: The process contains: Manage the production, dissemination and standardisation of ESS reference metadata (using the ESMS, the ESQRS and the EPMS); maintain and improve the ESS Metadata Handler; manage the content of the Euro SDMX Registry; provide reference metadata services to other DGs of the European Commission.	457	Central ESS metadata production and dissemination services provided (including SDMX Registry services)	ESTAT	Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[12.1] Dissemination and communication	[404] Support to the Eurostat/European Statistical System/other data and metadata producer: This process contains: support to the Eurostat domain manager with regard to central data production and dissemination; support to Eurostat and ESS domain manager on the harmonisation, integration, production and dissemination of metadata; provide services to other DGs of the European Commission (related to data structure standardisation and the reuse of the Eurostat Dissemination Chain) ;	684	Central data and metadata support services provided to other DGs of the European Commission	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[412] Eurostat website: The website provides a stable access to Eurostat products and services, with enhancements for users. Evolutionary maintenance and quality assurance of the website, including purchases of hardware and software.	465	Make of our website an attractive and easy source of information on European statistics for citizens. Ensure high availability, performance and continuous improvements of functionality, usability and web content	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[413] Statistics Explained: Maintenance, further development and content management of the on-line dissemination system "Statistics Explained".	466	Wide range of explanatory information and analysis is continuously updated and delivered to users through an on-line dissemination system. New articles on "European statistics" published on Statistics Explained, provided by the NSIs of the Member States	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[414] Dissemination products for mobile devices: Development of dissemination products which enable users to obtain statistics on a range of mobile devices, including smartphones, tablets, and e-readers.	467	Innovative added-value dissemination products to take advantage of mobile devices such as smartphones and tablets	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[415] Improve user orientation of dissemination products and services, develop visualisation tools adapted to user needs.: Collect and analyse information about user interaction with Eurostat dissemination products and services	468	In depth analysis of user opinions about dissemination products and services, based on surveys, focus groups, benchmarking and e-reputation monitoring; additional analysis of website traffic and user support requests	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[416] Enhance reusability: Facilitation of the re-use of Eurostat data, metadata and tools by external organisations, including NSIs, companies and the open data community	469	Information and promotion towards users, to achieve the widest possible re-use of statistical information produced by the European Statistical System (ESS), to implement the common ESS policy on free access to and re-use of data		Neutral (or not applicable)
[12.1] Dissemination and communication	[417] Provide a selected number of dissemination products and services in all languages: Users have access to selected information in all EU languages, as well as support in all languages	470	Selected Statistics Explained content available and updated in EU languages. Statistics Explained glossary extended in several EU languages.	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[421] Publications: Widespread dissemination of Eurostat's value-added output through electronic and paper publications. Production, dissemination and archiving of statistical publications, including the implementation of the annual publications programme and the further exploitation of the on-line dissemination system "Statistics Explained"	474	Full range of publications oriented to users' needs, all available via the website. Small number of printed publications, included two planned flagship publications on "Population" and "Quality of Life". Editorial services offered to the production units.	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[501] European Statistical System (ESS) report: Preparation of the annual report of the ESS	550	Publication of the annual report of the ESS		Neutral (or not applicable)
[12.1] Dissemination and communication	[504] News release: Preparation, validation and dissemination of Eurostat news releases.	553	Publication of around 200 news releases in three languages		Neutral (or not applicable)

ESTAT Annual Work Programme 2015 List of outputs

[12.1] Dissemination and communication	[593] Setting up standard procedures for the qualitative and quantitative analysis of the disseminated data: Set up standard procedures for the qualitative and quantitative analysis of EU disseminated trade data including error detection, improve and automate the structured communication with Member States with the use of XT-Net Assist (External Trade Network tool).	891	Improved communication with Member States with the use of XT-Net Assist	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[594] Improvement of Comext dissemination tools: Improvement of the Easy Comext and Web and standalone Analytical Comext interfaces to take into account users needs, ergonomics and internet browsers or operating systems evolution.	666	Improved interface of Easy Comext	ESTAT	Neutral (or not applicable)
		667	Improved interfaces of Analytical Comext	ESTAT	Neutral (or not applicable)
[12.1] Dissemination and communication	[597] Comext Database management: (1) Preparation, management and maintenance of three Comext Databases (Confidential, on-line Comext, public Comext). The contents of the databases count for several tenths of billion of data. They contain data, metadata and other information. (2) Trade in goods: Electronic data dissemination. Data and metadata accessible on-line and by DVD/free dissemination. Enhancements of the derivation procedures (by Classification of Products by Activity (CPA), Standard International Trade Classification (SITC), Broad Economic Categories (BEC), external trade by means of transport (NSTR), combinations of them), GSP trade and improvement data linking of trade statistics with tariffs database. (3) Comext user support: technical and statistical support for Commission services, Member States and users in general.	670	Comext databases maintained. International trade data and metadata made available to users through the Comext interfaces	ESTAT	Neutral (or not applicable)
