

ALI Inventory 2015

Methodological inventory/questionnaire on the
compiling of Agricultural Labour Input (ALI)

Questionnaire identification

Country	Luxembourg
Institution	Service d'Economie Rurale
Author	Jean-Paul Hoffmann
Date	2017

ALI Inventory 2015

PART A - DATA COLLECTION.....	2
A1 DATA SOURCES	2
PART B - AWU DEFINITION, FULL-TIME AND PART-TIME WORKING.....	5
B1 ANNUAL WORKING UNIT (AWU) DEFINITION.....	5
B2 FULL-TIME AND PART-TIME WORKING.....	5
PART C - CLASSIFICATION OF LABOUR INPUT AND COHERENCE WITH EAA.....	7
PART D - ANNUAL VOLUME OF WORK ESTIMATION.....	8
PART E - DIFFERENCES IN COVERAGE BETWEEN THE FSS AND THE ALI DATA ...	9

PART A - DATA COLLECTION

A1 DATA SOURCES

Please indicate below the name and the principal objective of the data sources (direct or indirect) used to compile ALI, indicating for each of them (except for EU surveys) the frequency, the reference period, the enquiry date and the representativeness.

A1.1 PRIMARY SOURCE

A1.1.1 Survey unit

Annual farm structure survey;
Farm structure survey is realised on the basis of EU-regulation every 3 years (2010, 2013, 2016, 2020,...) and on a national basis in the years between.
survey unit = agricultural holding

A1.1.2 Scope or coverage

all agricultural holdings exceeding the following physical thresholds: utilized agricultural area at least 3 ha or horticultural area greater than 0,25 ha or orchards greater than 0,30 ha or nurseries greater than 0,50 ha or vineyards greater than 0,10 ha or livestock of at least 10 horses or 10 cattle or 20 sheep or 20 goats or 50 pigs or 10 breeding sows or 1000 laying hens or 1000 broilers or other poultry or 1000 rabbits or 50 bee hives.

A1.1.3 Frequency of the survey

annual

A1.1.4 Reference period of the observation

1 april

A1.1.5 Reference period of the results

12 month period preceding the reference day of the survey (1 april)

A1.1.6 Enquiry date

answers have to be returned before 15 may

A1.1.7 Representativeness (share of agricultural industry covered by sample)

exhaustive survey (=census)

A1.2 SECONDARY SOURCE

A1.2.1 *Survey unit*

A1.2.2 *Scope or coverage*

Click here to enter text.

A1.2.3 *Frequency of the survey*

Click here to enter text.

A1.2.4 *Reference period of the observation*

Click here to enter text.

A1.2.5 *Reference period of the results*

Click here to enter text.

A1.2.6 *Enquiry date*

Click here to enter text.

A1.2.7 *Representativeness (share of agricultural industry covered by sample)*

Click here to enter text.

A1.3 TERTIARY SOURCE

A1.3.1 *Survey unit*

Click here to enter text.

A1.3.2 *Scope or coverage*

Click here to enter text.

A1.3.3 *Frequency of the survey*

Click here to enter text.

A1.3.4 *Reference period of the observation*

Click here to enter text.

A1.3.5 Reference period of the results

Click here to enter text.

A1.3.6 Enquiry date

Click here to enter text.

A1.3.7 Representativeness (share of agricultural industry covered by sample)

Click here to enter text.

PART B - AWU DEFINITION, FULL-TIME AND PART-TIME WORKING

B1 ANNUAL WORKING UNIT (AWU) DEFINITION

B1.1.1 Annual working days

definition of annual working unit (AWU):
Full-time workers are considered as one annual working unit.
Part-time workers are converted into annual working units on the basis of the number of hours worked per day and the number of days worked per year. The number of working hours corresponding to 1 AWU is 2.200 hours (=275 days x 8 hours/day)

B1.1.2 Daily working hours

Click here to enter text.

*B1.1.3 Annual working hours (B1.1.1 * B1.1.2)*

Click here to enter text.

B1.1.4 Public holidays (number of days)

Click here to enter text.

B1.1.5 Total annual holidays (including public holidays)

Click here to enter text.

B2 FULL-TIME AND PART-TIME WORKING

B2.1.1 Is the number of hours worked in a full-time job the same for the self-employed and employees in the agricultural industry? If not, please explain.

full-time job workers, irrespective of self employed or workers, are not asked to give indications on the number of hours worked per day. Only part-time workers have to indicate the number of hours worked per day and the number of days worked per year.

B2.1.2 Is the number of hours worked in a full-time job the same for agriculture and other branches of the economy? If not, please explain.

no statistical information available

B2.1.3 Do you use the FSS to estimate the volume of part-time work in agriculture? If not, please explain how the estimation is made

yes

PART C - CLASSIFICATION OF LABOUR INPUT AND COHERENCE WITH EAA

C1.1.1 Is there a distinction of the volume of work by salaried/non-salaried labour directly available from the data source(s)?

yes

C1.1.2 If yes, indicate the data source(s).

annual farm structure survey

C1.1.3 If not, please indicate the source(s) of data and the estimation method(s). (In particular, please indicate in which way the breakdown of the family labour into salaried and non-salaried is made.)

[Click here to enter text.](#)

C1.1.4 How do you treat the labour input in the case of mutual assistance between agricultural holdings without remuneration in cash? (salaried with remuneration in kind, or unsalaried).

labour input (in days) by persons not belonging to the staff of the holding (contractors, mutual exchange of machinery and labour between agricultural holdings) is surveyed and taken into account in total labour input.

C1.1.5 How do you ensure the coherence between "compensation of employees" (EAA) and salaried labour input? Please explain briefly.

compensation of employees (EAA) = salaried labour input (from annual farm structure survey) x salary per employee

PART D - ANNUAL VOLUME OF WORK ESTIMATION

Please indicate below how you estimate the annual volume of work.

D1.1.1 Is FSS the only data source that you use? If yes, how do you estimate annual data from this single source? Please explain

the "labour" part of FSS is performed annually (fully exhaustive survey = census)

D1.1.2 Is FSS used in combination with another survey (or other surveys)? If yes, please indicate the data source(s) and the estimation method.

Click here to enter text.

D1.1.3 Please explain if you replied NO to both of the above questions.

Click here to enter text.

PART E - DIFFERENCES IN COVERAGE BETWEEN THE FSS AND THE ALI DATA

E1.1.1 How do you estimate ALI for the holdings that are excluded from the FSS because of their size? Please indicate the data source(s) and the estimation method.

Same coverage for EAA, ALI and FSS
