

Unemployment in the EU regions

Unemployment rates in the EU regions ranged from 1.3% to 30.1% in 2019

In 2019, the year before COVID-19 containment measures were widely introduced by EU Member States, unemployment rates continued to vary widely across the NUTS 2 regions of the EU's 27 Member States. The lowest rates were recorded in four Czech regions: **Prague** and **Central Bohemia** (both 1.3%), **South-West** (1.5%) as well as **North-East** (1.7%), followed by **West Transdanubia** (1.8%) in Hungary, two German regions, **Upper Bavaria** and **Tübingen**, and one further Czech region, **South-East** (all 1.9%). At the opposite end of the scale, the highest unemployment rates were registered in **Mayotte** (30.1%) an overseas region of France, the Spanish autonomous cities of **Melilla** (27.0%) and **Ceuta** (25.8%) and two Greek regions, **West Macedonia** (24.6%) and **Western Greece** (24.1%).

Compared with 2018, almost three quarters (74%) of EU's regions saw their unemployment rate for persons aged 15-74 fall. Almost half (48%) recorded a decrease of at least 0.5 percentage points.

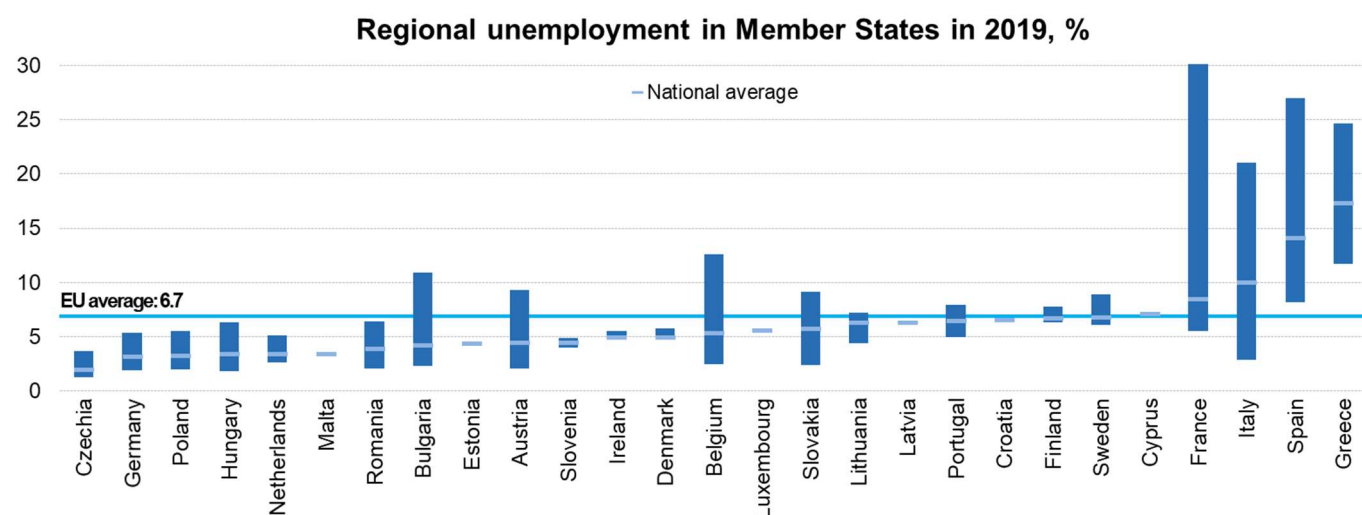

These data on regional unemployment, compiled on the basis of the EU Labour Force Survey, are published by Eurostat, the statistical office of the European Union. A Statistics Explained [article](#) is also available on Eurostat's website.

Over a quarter of EU regions with an unemployment rate half or less of the EU average

Among the 239 EU regions for which data are available, 66 had an unemployment rate of less than 3.4% in 2019, half the average of the EU (6.7%). They included twenty-two regions in **Germany**, eleven in **Poland**, eight in the **Netherlands**, seven in **Czechia**, five in **Austria**, four in **Hungary**, three in **Romania**, two each in **Belgium** and **Bulgaria**, as well as one each in **Italy** and **Slovakia**.

In contrast, 29 regions had an unemployment rate of at least 13.4%, double that of the EU: ten regions in **Greece**, nine in **Spain** and five each in **France** and **Italy**.

The bar shows for each Member State the range from the region with the lowest value to the region with the highest value.

() Data with reduced reliability due to sample size

Youth unemployment rates varied from 2.8% in North-East in Czechia to 64.0% in Melilla in Spain

In 2019, the average unemployment rate for young people aged between 15 and 24 in the **EU** was 15.1%. However, there are marked regional differences in the unemployment rates for young people. The lowest rate was recorded in **North-East** (2.8%) in Czechia, followed by Czech capital city region **Prague** and German region **Upper Bavaria** (both 3.3%) as well as another Czech region, **Central Bohemia** (3.6%), three German regions, **Freiburg** (4.0%), **Swabia** (4.4%) and **Münster** (4.6%) as well as **South-West** (4.7%) in Czechia.

By contrast, the highest rate was recorded in the Spanish region **Melilla** (64.0%), followed by the French region **Mayotte** (54.1%), **West Macedonia** (53.5%) in Greece, **Ceuta** in Spain and **Guadeloupe**, an overseas region of France, (both 52.7%) as well as **Sicily** (51.1%) in Italy.

In over 83% of the **EU** regions for which data are available, the unemployment rate for young people was at least twice that of total unemployment in the same region.

Regions with lowest and highest youth unemployment rates in 2019, %

Young people (15-24 years old)					
Lowest			Highest		
1	North-East (CZ)	(2.8)	1	Melilla (ES)	(64.0)
2=	Prague (CZ)	(3.3)	2	Mayotte (FR)	(54.1)
	Upper Bavaria (DE)	3.3	3	West Macedonia (EL)	(53.5)

() Data with reduced reliability due to sample size

In almost a fifth of regions, the majority of the unemployed out of work for at least a year

The long-term unemployment share, which is defined as the percentage of unemployed persons who have been unemployed for 12 months or more, stood at 41.8% on average in the **EU** in 2019. Across **EU** regions for which data are available, the lowest shares of long-term unemployed were recorded in four Swedish regions, **Stockholm** (11.3%), **Småland and islands** (12.0%), **South Sweden** (13.1%) and **West Sweden** (13.6%), as well as **North and East Finland** (14.2%).

On the other hand, more than three-quarters of the unemployed had been out of work for at least a year in the French overseas region **Mayotte** (84.4%), **North-West** (83.1%) in Bulgaria, **Western Greece** (75.4%), **Peloponnese** (75.3%) and **Attica** (75.2%) in Greece.

Geographical information

These data are based on the **Nomenclature of Territorial Units for Statistics (NUTS) 2016** as set out in the amending [Commission Regulation \(EU\) 2016/2066 of 21 November 2016](#). NUTS 2016 (valid from 1 January 2018) provides a uniform, consistent breakdown of territorial units for the production of regional statistics for the EU and the United Kingdom.

Level 2 of the nomenclature has 281 regions: Belgium (11), Bulgaria (6), Czechia (8), Denmark (5), Germany (38), Ireland (3), Greece (13), Spain (19), France (27), Croatia (2), Italy (21), Lithuania (2), Hungary (8), the Netherlands (12), Austria (9), Poland (17), Portugal (7), Romania (8), Slovenia (2), Slovakia (4), Finland (5), Sweden (8) and the United Kingdom (41). Estonia, Cyprus, Latvia, Luxembourg and Malta are all considered as single regions at NUTS 2 level.

The statistical regions in the candidate and EFTA countries follow the principles of the NUTS classification; however there is no legal base: Norway (7), Switzerland (7), Serbia (8) and Turkey (26), while Iceland, Montenegro and North Macedonia are considered as single regions at NUTS level 2.

The **European Union (EU27)** includes Belgium, Bulgaria, Czechia, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, the Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland and Sweden.

The United Kingdom left the European Union on 31 January 2020. Information on dissemination of European statistics from 1 February 2020 is published on the [Eurostat website](#).

In the text of this News Release, the names of the regions are in English, while the tables in the annex list regions in the national language as set out in the NUTS.

Methods and definitions

The **unemployment rate** is defined as the percentage of unemployed persons aged 15-74 in the labour force population (which comprises the employed and unemployed persons, but excludes the persons outside the labour force).

According to the recommendations of the International Labour Organisation, a person is deemed to be unemployed if all three of the following conditions are met:

- he or she is without work during the survey reference week;
- he or she is available for work, being able to take up employment within two weeks;
- he or she has actively sought work over the past four weeks.

The **youth unemployment rate** is the number of people aged 15 to 24 unemployed as a percentage of the labour force of the same age. Therefore, the youth unemployment rate should not be interpreted as the share of jobless people in the overall youth population.

Country notes

France: The actual net sample for Corsica (FRM0) is too small to have reliable regional results and Mayotte (FRY5) is covered by a specific annual survey. As a result, data for these two regions should be treated with caution.
