

Glossary: Non-financial non-produced assets

Statistics Explained

In national accounts, **non-financial non-produced assets** consist of assets that have not been produced within the production boundary, and that may be used in the production of goods and services.

Non-financial non-produced assets consist of natural resources (e.g. land, mineral and energy reserves, non-cultivated biological resources such as virgin forest, water resources, radio spectra and others), contracts, leases and licences as well as goodwill and marketing assets.
