Migrant integration statistics - facts and figures

Statistics Explained

ONLINE PUBLICATION

Migrant integration statistics - facts and figures

Migrant integration statistics – facts and figures is an online Eurostat publication that provides recent statistics on the integration of migrants in the European Union (EU) , focusing on major areas such as the labour market, education, and social inclusion. It is made up of 13 articles providing background context and a comprehensive comparison of integration results for migrants and their descendants, with user-friendly interactive graphs for data exploration.

The publication is complemented by the Migrant integration and inclusion dashboard which visualises migrant integration data.

The individual articles in this publication are updated according to their respective data release date.
