

INCREA project - Boosting social INclusion of migrants through CREAtive industries

Questionnaire for Social Workers

Fields marked with * are mandatory.

INCREA - Questionnaire for Social Workers

The INCREA project is dedicated to support migrants/refugees and social workers in their integration process in the European societies enhancing their language and entrepreneurial skills through the exploitation of ICT tools.

Digital Skills

This questionnaire aims to identify the digital skills of the individuals regarding the IT tools knowledge. The estimated time for answering the questionnaire is approximately 10 minutes. Your response will only be used for survey purposes.

Thank you very much for your time.

* Nation in which you work

* Years of experience

* Educational Qualification

IT TOOLS KNOWLEDGE

* 1. Do you think there is a gap between migrants / asylum seekers and indigenous people in terms of using technological devices?

- Yes
- No
- I do not know

* 2. In your experience of working with migrants / asylum seekers, what are the main gaps between migrants and natives in the knowledge of IT tools?

- 1. Poor knowledge of IT tools
- 2. Simplistic use (only for communicating with the family or for simple exchanges of information, etc.)
- 3. Good knowledge but misuse
- 4. No gap

* 3. Do you think that the best knowledge of IT tools by migrants / asylum seekers could:

- 1. Improve their skills / possibilities of integration
- 2. Improve their quality of life
- 3. Help them in finding a job
- 4. It would not change anything

* 4. Do you think that the ability to use social networks, operating systems, browsers, etc. could:

- 1. Improve their skills / possibilities of integration
- 2. Improve their quality of life
- 3. Help them in finding a job
- 4. It would not change anything

* 5. Do you think that reducing the gap in terms of use of technological devices could:

- 1. Help migrants / asylum seekers find a job
- 2. Help migrants / asylum seekers to a better life in the host country
- 3. Improve the quality of life / economic situation

4. It would not change anything

* 6. Do you think that the communication gap (knowledge of the language of the host country) can:

1. Condition the integration possibilities

2. Condition the chances of finding a job

3. Creating the conditions for a failure of the migratory project

4. The problem lies not in the knowledge of the language but in something else (politics, prejudice, etc.)

* 7. In your experience migrants / asylum seekers have:

1. Better entrepreneurial skills of the natives

2. Worst entrepreneurial ability of the natives

3. Same entrepreneurial ability but fewer possibilities of the natives

4. I do not know

* 8. In your experience what is preventing migrants / asylum seekers from entering the labor market?

1. Poor knowledge of the language

2. Poor knowledge of technological tools

3. Prejudice by employers

4. Regulatory / legislative system

5. Other

In case your answer is 'Other', please fill in.

* 9. In your opinion, what are the topics on which a training could be set up in order to fill the digital gap of migrants / asylum seekers?

Erasmus+
