

EuroGEOSS Request 2018

Fields marked with * are mandatory.

Request for Expressions of Intent to scale-up and showcase EuroGEOSS Pilot Applications

EuroGEOSS is a regional initiative launched in October 2017 by the European countries, the European Commission and organizations participating to the Group on Earth Observations (GEO). From 2018 onwards, the EuroGEOSS initiative plans to launch periodic Requests for Expressions of Intent. All organizations located in European GEO member countries which are involved in developing, promoting or deploying innovative EO derived solutions are invited to come forward with voluntary Expressions of Intents for networking with other stakeholders along the value chain and scaling-up their activities within a timeframe of maximum three years.

This EuroGEOSS Request provides the online form to submit your Expression of Intent to the EuroGEOSS initiative. Submissions are accepted until 30 June 2018.

Why to submit an Expression of Intent?

- To share good practice, benchmark experiences and scale them up across different local contexts and across the EU;
- To network including with users and other stakeholders not yet involved in European Research and innovation EO activities;
- To get high visibility and recognition - including in GEO and Copernicus events - and take part in a more strategic dissemination at European and international level under the EuroGEOSS flag;
- To benefit from EuroGEOSS as a regional gateway to GEO;
- To link with important EO projects and programmes in Europe including Copernicus, Horizon 2020 and its follow-up programme after 2020;
- To benefit from and contribute to a reinforced European EO marketplace;
- To get regularly informed on funding opportunities;
- To participate in a European-wide, lasting partnership where shared competences, resources and skills are combined.

The Expressions of Intent should build upon the combination of existing funded developments. They must address the EuroGEOSS scoping priorities and selection criteria annexed to the text of the EuroGEOSS Request 2018.

All Expressions of Intent submitted online to the EuroGEOSS Request 2018 will be analyzed by the EuroGEOSS Coordination Group.

Action Groups will be established for each of those application areas where critical mass and market potential is identified from the submitted Expressions of Intent. Being selected for an Action Group is the prime mechanism to get your activity labelled as a EuroGEOSS activity. Each Action Groups shall facilitate upscaling of a specific EO applications characterized by a Technology Readiness Levels (TRLs) equal or above 5.

The Action Groups are not subject to a contractual basis. They represent ad hoc voluntary partnerships aiming at advancing the EuroGEOSS innovation agenda on a best effort basis and for a period of maximum three years.

For more information on this survey - including the EuroGEOSS selection criteria - see the "*Request 2018 for Expressions of Intent*" and the related *Frequently Asked Questions (FAQ)* available from the [EuroGEOSS](#) web site. You can also send your eventual questions to RTD-EUROGEOSS@ec.europa.eu.

DEADLINE FOR SUBMISSIONS: 30 June 2018

FEEDBACK BY EMAIL TO CONTRIBUTORS: end August 2018

LAUNCH OF SELECTED ACTION GROUPS: mid September 2018

1 PARTNERSHIP SUPPORTING THE EXPRESSION OF INTENT

1.1 LEAD ORGANISATION

* Lead organisation name

100 character(s) maximum

* Lead organisation address (Address, city, country)

100 character(s) maximum

* Lead organisation URL/website

100 character(s) maximum

Lead organisation profile in relation to GEO and/or Copernicus

If applicable, please describe briefly the links between your organisation and the GEO initiative and/or the Copernicus programme.

1000 character(s) maximum

* Contact person (Name and firstname)

50 character(s) maximum

* Contact person e-mail

1.2 OTHER ORGANISATIONS

Name of other organisations (Please include the name and country of the other organisations separated by comma.)

1000 character(s) maximum

Types of organisations (Please select all types of organisations participating in your coalition)

- International organisation
- Public authority
- Research
- Business
- Non-governmental organisation
- Interest group
- Other (please specify below)

Other type(s) of organisation(s)

500 character(s) maximum

Are you looking for additional, specific expertise along the value chain?

- Yes
- No

Specify the profile of partners you are looking for

500 character(s) maximum

2 YOUR EXPRESSION OF INTENT

* Descriptive title

200 character(s) maximum

Acronym (optional)

20 character(s) maximum

* Abstract/executive summary (including the overall description of the intended EuroGEOSS pilot application)

2000 character(s) maximum

EXPECTED INNOVATION OUTCOMES

(to tick one or several options from the form)

* What main EuroGEOSS innovation outcomes?

- Real life, user-driven demonstrated EO applications
- Reviews of user-related experience and questions
- Catalogues of good practices available in different languages
- Strategies for scaling-up new services including critical success factors
- Guidelines for business models, evidences on return on investment
- Innovative procurements of interoperable innovative solutions
- Innovation deals in the field of service solutions
- Reference site with high potential for replication in Europe
- Inter-regional cooperation
- Cooperation with H2020 projects
- Awareness raising campaigns
- Emerging themes of novel interest for European research & innovation.
- Education and training modules, including for trainers
- Other (please specify below)

Other innovation outcome(s)

1000 character(s) maximum

EuroGEOSS POLICY PRIORITIES ADDRESSED BY YOUR INTENT (to tick relevant options from the form)

*** EuroGEOSS priorities**

- | | |
|--|--|
| <input type="checkbox"/> SDG2: Zero hunger | <input type="checkbox"/> SDG 14: Life below water / SDG 15: Life on land |
| <input type="checkbox"/> SDG 3: Good health and well-being | <input type="checkbox"/> SDG 13: Climate action - Paris agreement |
| <input type="checkbox"/> SDG 6: Clean water and sanitation | <input type="checkbox"/> SDG 13: climate action Paris agreement |
| <input type="checkbox"/> SDG 7: Affordable and clean energy | <input type="checkbox"/> Sendai Framework |
| <input type="checkbox"/> SDG 9: Industry innovation and infrastructure | <input type="checkbox"/> EU policies |
| <input type="checkbox"/> SDG 11: Sustainable cities and communities | |

*** Link to GEO SBAs**

- | | |
|--|--|
| <input type="checkbox"/> Food sustainability and sustainable agriculture | <input type="checkbox"/> Sustainable urban development |
| <input type="checkbox"/> Public health surveillance | <input type="checkbox"/> Biodiversity and ecosystem sustainability |
| <input type="checkbox"/> Water resources management | <input type="checkbox"/> Crosscutting: climate change and impact |
| <input type="checkbox"/> Energy and mineral resource management | <input type="checkbox"/> Disaster resilience |
| <input type="checkbox"/> Infrastructure and transport management | |

Is your Intent supporting directly the implementation of a specific EU policy?

- Yes
 No

In case of support to EU policies, please specify

500 character(s) maximum

EO application domains

- | | |
|--|---|
| <input type="checkbox"/> EO for sustainable agriculture | <input type="checkbox"/> EO for resilient cities |
| <input type="checkbox"/> EO for public health surveillance | <input type="checkbox"/> EO for nature conservation |
| <input type="checkbox"/> EO for sustainable water management | <input type="checkbox"/> EO for climate services |
| <input type="checkbox"/> EO for renewable energies and energy efficiency | <input type="checkbox"/> EO for disaster risk reduction |
| <input type="checkbox"/> EO tracking human settlement | |

*** End user dimension (Who are the end users? How are they involved? How consolidated are the user needs?)**

1500 character(s) maximum

*** Market potential (Please document the level of already established market/uptake potential?)**

1000 character(s) maximum

* Targeted Technology Readiness Level (TRL) (What level of service demonstration/validation have you achieved /do you aim to achieve?)

1000 character(s) maximum

* Description of planned upscaling activities (e.g. wider user base, extended service quality with additional data sources, transnational deployment in Europe, closer-to-market activity, service replication/incubation, other upscaling activity?)

1500 character(s) maximum

* Link to GEO and GEOSS (How do you intend to take advantage of GEOSS data/GEO activities?)

800 character(s) maximum

* Leveraging Copernicus (How about exploiting existing data/services/platforms/resources from the Copernicus programme?)

1000 character(s) maximum

Duration(starting from September 2018)

- One-year duration
- Two-year duration
- Three-year duration

* Funding resources (Reference to existing/upcoming funding resources or projects supporting your Expression of Intent)

50 character(s) maximum

Comments (optional)

1000 character(s) maximum

3 ABOUT THE EuroGEOSS REQUEST 2018

* How did you learn about this EuroGEOSS Request?

300 character(s) maximum

Suggestions in view of future EuroGEOSS Requests (optional).

We would like to give you the opportunity to comment on this survey.

This will be taken into account for subsequent EuroGEOSS Requests after 2018.

1000 character(s) maximum

THANK YOU FOR YOUR COOPERATION.
