

COVID-19 CMSS (Clinical Management Support System)

Web Conference support to the clinical management of COVID-19 patients (COVID-19 -CMSS)

Fields marked with * are mandatory.

Aim: The Web conferencing support system for the clinical management of COVID-19 patients, (COVID19-CMSS), is created to support clinicians and healthcare professionals dealing with the care and management of COVID-19 patients in hospitals across the EU/UK and EEA countries. It provides with **a communication mean which will allow discussion on clinical cases and exchange and sharing of expertise and information on the diagnosis and treatment of cases.** It will also support education and training on COVID-19, by organising webinars.

Operation of the system: The Web conferencing system proposed is a commercial solution (WebEx) provided free of charge by the European Commission (EC) and whose functionalities allow for sharing computer screens (text, X-rays etc...) and for using mobile devices to communicate with a high level of security.

After completing your registration you will receive the information on how to request the organisation of web conferences or webinars along with a database of the participant clinicians including their affiliation and contact details (country, hospital, name, email address and phone number).

Data protection: The requested personal information of the clinicians and its use is covered by the attached privacy statement in compliance with the GDPR. A factsheet describing the system is also attached.

Please complete all the mandatory fields.

Healthcare Provider

* Please select you country

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czechia
- Denmark
- Estonia
- Finland

- France
- Germany
- Greece
- Hungary
- Ireland
- Italy
- Latvia
- Lithuania
- Luxembourg
- Malta
- Netherlands
- Norway
- Poland
- Portugal
- Romania
- Slovak Republic
- Slovenia
- Spain
- Sweden
- United Kingdom

* Please select your hospital. If the hospital is not in the list, select OTHER and you will be given the opportunity to add it.
