

Analysis of major deficiencies detected during the non-discriminatory inspections and an action plan to address them as provided for in Article 27 (2) of Regulation (EC) No 1/2005

Lithuania
2015

1. ANALYSIS OF THE MAJOR DEFICIENCIES DETECTED DURING THE NON-DISCRIMINATORY INSPECTIONS:

In 2015, official inspectors of the State Food and Veterinary Service (SFVS) carried out 3889 checks to evaluate the conformity of animal transportation with requirements of Council Regulation (EC) 1/2005. The analysis of major infringements is given in the table below:

Classification of infringements during transport of animals in 2015

No	Non conformity	Number of cases	Percentage of cases
1.	Journey times and resting periods	11	25 %
2.	Absence of confirmation of disinfection	5	11 %
3.	Absence of certificates of competence or transporter authorisations	12	27 %
4.	Absence of accompanying documents for animals	4	10 %
5.	Fitness of animals	6	13 %
6.	Transport practices	6	13 %
	TOTAL	44	100%

Penalties for the breach of requirements were imposed in 5 cases. 12 cases were reported as laid down in Article 26 of Regulation 1/2005. In other cases dates for correction of nonconformities were fixed.

2. ACTION PLAN TO ADDRESS THE DEFICIENCIES DESCRIBED UNDER POINT

The training for SFVS official veterinary inspectors who perform official control of animals during transport (general conditions for transport of animals, transport documents and checks of journey logs) were organized on 8 December 2015.

Cooperation with Competent Authorities in other Member States and notification of infringements as laid down in Article 26 of Regulation 1/2005 was carried out.
