Number of resolved ASF outbreaks in pigs:

- **PODLASKIE region**: 16
- **MAZOWIECKIE region**: 6
- **LUBELEKIE region**: 58 out of 59 outbreaks have been resolved
Epizootic situation
in warszawski – zachodni,
legionowski and piaseczyński district
(as of 29 November 2017)
1) 608 case of ASF in wild boar (the first in legionowowski district).
One dead wild boar was found on 14 November 2017.
The result of RT-PCR test performed by the NVRI and received on 17 November 2017 was positive.

2) 609 case of ASF in wild boar (the second in legionowowski district).
One dead wild boar was found on 4 November 2017.
The result of RT-PCR test performed by the NVRI and received on 17 November 2017 was positive.

3) 626 case of ASF in wild boar (the first in warszawski - zachodni district).
Four dead wild boars were found on 15 (one of them) and 16 (three wild boar) November 2017.
The results of RT-PCR tests performed by the NVRI and received on 22 November 2017 were positive.

4) 642 case of ASF in wild boar (the second in warszawski - zachodni district).
One dead wild boar was found on 22 November 2017.
The results of RT-PCR tests performed by the NVRI and received on 24 November 2017 were positive.

5) 646 case of ASF in wild boar (the third in legionowowski district).
One dead wild boars was found on 22 November 2017.
The results of RT-PCR tests performed by the NVRI and received on 24 November 2017 were positive.
6) 647 case of ASF in wild boar (the fourth in legionowski district).
One dead wild boar was found on 22 November 2017.
The result of RT-PCR test performed by the NVRI and received on 24 November 2017 was positive.

7) 648 case of ASF in wild boar (the fifth in legionowski district).
One dead wild boar was found on 22 November 2017.
The result of RT-PCR test performed by the NVRI and received on 24 November 2017 was positive.

8) 649 case of ASF in wild boar (the sixth in legionowski district).
One dead wild boars was found on 22 November 2017.
The results of RT-PCR tests performed by the NVRI and received on 24 November 2017 were positive.

9) 652 case of ASF in wild boar (the third in warszawski - zachodni district).
One dead wild boar was found on 24 November 2017.
The results of RT-PCR tests performed by the NVRI and received on 27 November 2017 were positive.

10) 653 case of ASF in wild boar (the first in piaseczyński district).
Four dead wild boars were found on 23 November 2017.
The results of RT-PCR tests performed by the NVRI and received on 27 November 2017 were positive.
