

**Summary of feed ban rules as laid down in the TSE Regulation (as applicable from 1 July 2017)**

|   | Farmed animals other than fur animals |                             |      | Pets and fur animals |
|---|---------------------------------------|-----------------------------|------|----------------------|
|   | Ruminants                             | Non-ruminants (except fish) | Fish |                      |
| <b>Ruminant PAP, including ruminant blood meal</b>  | NA                                    | NA                          | NA   | A                    |
| <b>Non-ruminant PAP, including non-ruminant blood meal and insect PAP, but excluding fishmeal</b>       | NA                                    | NA                          | A    | A                    |
| <b>Blood products from ruminants</b>  | NA                                    | NA                          | NA   | A                    |
| <b>Gelatine and collagen from ruminants</b>   | NA                                    | NA                          | NA   | A                    |
| <b>Hydrolysed proteins other than those derived from non-ruminants or from ruminant hides and skins</b> | NA                                    | NA                          | NA   | A                    |
| <b>Fishmeal</b>   | NA*                                   | A                           | A    | A                    |
| <b>Blood products from non-ruminants</b>  | NA                                    | A                           | A    | A                    |
| <b>Di and tricalcium phosphate of animal origin</b>   | NA                                    | A                           | A    | A                    |
| <b>Hydrolysed proteins from non-ruminants or from ruminant hides and skins</b>                          | A                                     | A                           | A    | A                    |
| <b>Gelatine and collagen from non-ruminants</b>   | A                                     | A                           | A    | A                    |
| <b>Egg, egg products, milk, milk products, colostrum</b>  | A                                     | A                           | A    | A                    |
| <b>Animal proteins other than the above- mentioned ones</b>   | NA                                    | A                           | A    | A                    |

\* Milk replacers containing fishmeal and intended only for unweaned ruminants are authorised.

A = authorised

NA = not authorised
