Annex II : Control programme submitted for obtaining EU cofinancing - Reduction of prevalence of Salmonella serotypes

Member States seeking a financial contribution from the European Union for national programmes of eradication, control and surveillance shall submit online this application completely filled out.

In case of difficulty, please contact SANTE-VET-PROG@ec.europa.eu, describe the issue and mention the version of this document: 2015 1.00

Your current version of Acrobat is: 11.015

Instructions to complete the form:

1) You need to have at least the Adobe Reader version 8.1.3 or higher to fill and submit this form.

2) To verify your data entry while filling your form, you can use the “verify form” button at the top of each page.

3) When you have finished filling the form, verify that your internet connection is active, save a copy on your computer and then click on the “submit notification” button below. If the form is properly filled, the notification will be submitted to the EU server and a submission number will appear in the corresponding field.

4) All programmes submitted online are kept in a central database. However only the information in the last submission is used when processing the data.

5) IMPORTANT: Once you have received the submission number, save the form on your computer for your records.

6) If the form is not properly filled in, an alert box will appear indicating the number of incorrect fields. Please check your form again, complete it and re-submit it according to steps 3). Should you still have difficulties, please contact SANTE-VET-PROG@ec.europa.eu.

7) For simplification purposes you are invited to submit multi-annual programmes.

8) As mentioned during the Plenary Task Force of 28/2/2014, you are invited to submit your programmes in English.
Programme of eradication of Salmonella serotypes

Identification of the programme

Member state: ESPANA

Disease: Salmonella

This program is multi annual: yes

Type of submission: Funding request for subsequent year of already approved multiannual programme

Request of Union co-financing from beginning of: 2014

Contact

Name: JOSÉ LUIS SAÉZ LLORENTE

Your job type within the CA: JEFE ÁREA DE PROGRAMAS SANITARIOS Y ZOONOSIS

Animal population

Animal population: Breeding flocks of Gallus gallus
Programme of eradication of Salmonella serotypes

A. Technical information

By submitting this programme, the Member State (MS) attests that the relevant provisions of the EU legislation will be implemented during its entire period of approval, in particular:

- Regulation (EC) No 2160/2003 on the control of *Salmonella* and other specified food-borne zoonotic agents,

As a consequence, the following measures will be implemented during the whole period of the programme:

1. The **aim of the programme** is to implement all relevant measures in order to reduce to 1% or less the maximum percentage of adult breeding flocks of *Gallus gallus* remaining positive for the target *Salmonella* serovars: *Salmonella* Enteritidis (SE), Typhimurium (ST)(including the antigenic formula 1,4,[5],12:i:-), Hadar (SH), Infantis (SI) and Virchow (SV).

   For a MS with less than 100 adult breeding flocks of *Gallus gallus* the target is to have no more than one such flock remaining positive for the relevant *Salmonella* serovars per year.

   **Comments (max. 32000 chars):**

   No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

2. The programme will be implemented on the **whole territory** of the Member State.

   **Comments (max. 32000 chars):**

   No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
3. Flocks subject to the programme

<table>
<thead>
<tr>

</tbody>
</table>

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

4. Notification of the detection of target *Salmonella* serovars

A procedure is in place which guarantees that the detection of the presence of the relevant *Salmonella* serotypes during sampling at the initiative of the food business operator (FBO) is notified without delay to the competent authority by the laboratory performing the analyses. Timely notification of the detection of the presence of any of the relevant *Salmonella* serotypes remains the responsibility of the food business operator and the laboratory performing the analyses.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

5. Biosecurity measures

FBOs have to implement measures to prevent the contamination of their flocks.
6. Minimum sampling requirements for food business operators:

Samples at the initiative of the FBOs will be taken and analysed to test for the target *Salmonella* serovars respecting the following minimum sampling requirements:

a. Rearing flocks: day-old chicks, four-week-old birds, two weeks before moving to laying phase or laying unit

b. Adults breeding flocks: depending if the MS achieved the EU target for more than 2 years

- Every second week during the laying period
- Every three weeks during the laying period (derogation of point 2.1.2.3 of Annex to Regulation (EC) No 200/2010)

Comments - Indicate also who takes the FBO samples

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

7. Samples are taken in accordance with provisions of point 2.2 of Annex to Regulation (EU) No 200/2010

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

8. Specific requirements laid down in Annex II.C of Regulation (EC) No 2160/2003 will be complied with where relevant (i.e. due to the presence of SE or ST (including monophasic ST 1,4,[5],12:i:-), all birds of infected rearing or adult flocks are slaughtered or killed and destroyed, and all eggs are destroyed or heat treated):
Comments - Indicate also if birds are slaughtered or killed and destroyed, and if eggs are destroyed or heat treated (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

9. Please describe the measures that shall be implemented in a flock (rearing and adult) where *Salmonella Hadar, Infantis or Virchow* is detected:

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

10. If birds from flocks infected with SE or ST are slaughtered, please describe the measures that shall be implemented by the FBO and the CA to ensure that fresh poultry meat meet the relevant **EU microbiological criteria** (row 1.28 of Chapter 1 of Annex I to Regulation (EC) No 2073/2005): absence of SE/ST in 5 samples of 25g:

*Measures implemented by the FBO (max. 32000 chars)*:

FBO debe comunicar a los servicios veterinarios oficiales del matadero, los resultados de los análisis de salmonella. Existe normativa nacional que así lo determina, en concreto el Real Decreto 361/2009, de 20 de marzo, por el que se regula la información sobre la cadena alimentaria que debe acompañar a los animales destinados a sacrificio.
En función de los resultados de los análisis realizados en granja, se toman las medidas oportunas en matadero.
El sector, junto con la Administración, en concreto la Agencia española de seguridad alimentaria y nutrición, elaboró una Guía para dar cumplimiento a la normativa europea en relación a los criterios microbiológicos. (se adjunta Guía: Guía de Salmonella en aves de engorde muestreos en matadero.pdf)

*Measures implemented by the CA (max. 32000 chars)*:

Las medidas anteriormente explicada, son conjuntas entre los FBO y la autoridad competente.
11. **Laboratories** in which samples (official and FBO samples) collected within this programme are analysed are accredited to ISO 17025 standard and the analytical methods for *Salmonella* detection is within the scope of their accreditation.

*Comments (max. 32000 chars)* :
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

12. The **analytical methods** used for the detection of the target *Salmonella* serovars is the one defined in Part 3.2 of the Annex of Regulation (EU) No 200/2010 i.e. Amendment 1 of EN/ISO 6579-2002/Amd1:2007. *Microbiology of food and animal feeding stuffs - Horizontal method for the detection of Salmonella spp. -- Amendment 1: Annex D: Detection of Salmonella spp. in animal faeces and in environmental samples from the primary production stage*.

Serotyping is performed following the Kaufman-White-Le Minor scheme. For samples taken on behalf of the FBO alternative methods may be used if validated in accordance with the most recent version of EN/ISO16140.

*Comments (max. 32000 chars)* :
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

13. Samples are transported and stored in accordance with point 3.1.1 of the Annex to Regulation (EU) No 200/2010. In particular, samples examination shall start in the laboratory within 48 hours following receipt and within 96 hours after sampling.

*Comments (max. 32000 chars)* :
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
14. Please describe the **official controls at feed level** (including sampling).

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

15. **Official controls at holding, flock and hatchery level**

a. Please describe the official checks concerning the **general hygiene provisions** (Annex I of Regulation (EC) No 852/2004) including checks on biosecurity measures, and consequences in case of unsatisfactory outcome.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

b. Routine official **sampling scheme when FBO sampling takes place at the hatchery**: EU minimum requirements are implemented i.e. official sampling are performed:

- every 16 weeks at the hatchery
- twice during the laying phase at the holding (within four weeks at the beginning, within eight weeks before the end), and
- at the holding each time samples taken at the hatchery are positive for target serovars

If the CA has decided to implement the derogation of point 2.1.2.3 of Annex to Regulation (EC) No 200/2010 (when EU target achieved for more than two years), the EU minimum requirement for official sampling is: once a year at the hatchery, once at the holding during the laying phase.
Programme of eradication of Salmonella serotypes

**Comments** - Indicate also: 1) if additional official sampling going beyond EU minimum requirements is performed, 2) who is taking the official samples, 3) if the derogation quoted above is applied (max. 32000 chars):

<table>
<thead>
<tr>
<th>No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016</th>
</tr>
</thead>
</table>

c. Routine official **sampling scheme when FBO sampling takes place at the holding**: EU minimum requirements are implemented i.e. official sampling are performed:

- Three times during the laying phase at the holding (within four weeks at the beginning, within eight weeks before the end and a third one in between)

If the CA has decided to implement the derogation of point 2.1.2.3 of Annex to Regulation (EC) No 200/2010 (EU target achieved for more than two years), the EU minimum requirement for official sampling is: twice at the holding during the laying phase.

**Comments** - Indicate also: 1) if additional official sampling going beyond EU minimum requirements is performed, please describe, 2) who is taking the official samples, 3) if the derogation quoted above is applied (max. 32000 chars):

<table>
<thead>
<tr>
<th>No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016</th>
</tr>
</thead>
</table>

d. When **samples (FBO or official) taken at the hatchery** are positive for a target *Salmonella* serovar, describe the measures taken if the confirmatory samples taken at the holding are negative:

- Testing for antimicrobials or bacterial growth inhibitors (at least 5 birds per house) and if those substances are detected the flock is considered infected and eradication measures are implemented (annex II.C of Regulation (EC) No 2160/2003)

- Other official samples are taken on the breeding flock; if positive, the flock is considered infected and eradication measures are implemented, if negative, all restrictive measures are lifted
Other official samples are taken on the progeny; if positive, the flock is considered infected and eradication measures are implemented, if negative, all restrictive measures are lifted.

Comments - Describe also if any other measures are implemented (max. 32000 chars):

En España, no se toman muestras en incubadora. No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

**e. Official confirmatory sampling** (in addition to the confirmatory samples at the holding which are systematically performed if FBO or official samples are positive at the hatchery):

- After positive official samples at the holding:
  - Always
  - Sometimes (criteria apply)
  - Never

- After positive FBO samples at the holding:
  - Always
  - Sometimes (criteria apply)
  - Never

Comments - Describe also the criteria (if any) quoted above (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

**f. Article 2 of Regulation (EC) No 1177/2006 (antimicrobials shall not be used as a specific method to control *Salmonella* in poultry):** please describe the official controls implemented (documentary checks, samplletaking) to check the correct implementation of this provision (at the holding and at the hatchery). For samples please describe the samples taken, the analytical method used, the result of the tests.
Programme of eradication of Salmonella serotypes

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

16. *Salmonella* vaccination

- **Voluntary**
- **Compulsory**
- **Forbidden**

Use of *Salmonella* vaccines is in compliance with provisions of Article 3 of Regulation (EC) No 1177/2006.

Comments - If performed please describe the vaccination scheme (vaccines used, vaccines providers, target flocks, number of doses administered per bird, etc) (max. 32000 chars):

Ya enviado en programa multianual aprobado por UE 2014-2016.
La vacunación para reproductoras es voluntaria, salvo en el caso de manadas de reproductoras pesadas que vayan a repoblar una nave en la que la manada saliente fue positiva, que es obligatoria.

17. System for compensation to owners for the value of their birds slaughtered or culled and the eggs destroyed or heat treated.

Describe the system for compensation to owners. Indicate how improper implementation of biosecurity measures can affect the payment of compensation (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

18. Official procedure to test, after the depopulation of an infected flock, the efficacy of the disinfection of a poultry house.

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
B. General information

1. Structure and organisation of the Competent Authorities (from the central CA to the local CAs)

Short description and/or reference to a document presenting this description (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

2. Legal basis for the implementation of the programme

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

3. Give a short summary of the outcome of the monitoring of the target Salmonella serovars (SE, ST) implemented in accordance with Article 4 of Directive 2003/99/EC (evolution of the prevalence values based on the monitoring of animal populations or subpopulations or of the food chain).

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.
Ver documento adjunto (prevalencia repro)

4. System for the registration of holdings and identification of flocks

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
5. System to monitor the implementation of the programme.

Programme of eradication of Salmonella serotypes

E. Financial information

1. Identification of the implementing entities - financial circuits/flows

Identify and describe the entities which will be in charge of implementing the eligible measures planned in this programme which costs will constitute the reimbursement/payment claim to the EU. Describe the financial flows/circuits followed.

Each of the following paragraphs (from a to e) shall be filled out if EU cofinancing is requested for the related measure.

a) Implementing entities - **sampling**: who perform the official sampling? Who pays?
(e.g. authorised private vets perform the sampling and are paid by the regional veterinary services (state budget); sampling equipment is provided by the private laboratory testing the samples which includes the price in the invoice which is paid by the local state veterinary services (state budget))

Las muestras oficiales son tomadas por veterinarios oficiales.
El coste de la toma de muestras, lo asume la Administración, en este caso las comunidades autónomas.

b) Implementing entities - **testing**: who performs the testing of the official samples? Who pays?
(e.g. regional public laboratories perform the testing of official samples and costs related to this testing are entirely paid by the state budget)

Las muestras oficiales son analizadas en los laboratorios oficiales de las comunidades autónomas. Los análisis los paga la comunidad autónoma. El laboratorio nacional de referencia (LNR, Algete), también realiza análisis de serotipado de muestras oficiales. En menor número también hace análisis de aislamiento e identificación. Estos análisis los paga el LNR.
c) Implementing entities - **compensation**: who performs the compensation? Who pays?
(e.g. compensation is paid by the central level of the state veterinary services, or compensation is paid by an insurance fund fed by compulsory farmers contribution)

Los servicios veterinarios oficiales de las comunidades autónomas (CCAA) ordenan los sacrificios obligatorios y son los encargados de llevar a cabo las compensaciones por sacrificio. Las CCAA son las encargadas de pagarlos.

d) Implementing entities - **vaccination**: who provides the vaccine and who performs the vaccination? Who pays the vaccine? Who pays the vaccinator?
(e.g. farmers buy their vaccine to the private vets, send the paid invoices to the local state veterinary services which reimburse the farmers of the full amount and the vaccinator is paid by the regional state veterinary services)

Las vacunas son compradas por los FBO, o bien directamente, o bien a través de Agrupaciones de Defensa Sanitaria (ADS), que son asociaciones de ganaderos, siendo mayoritaria (prácticamente el 100% de los casos) esta segunda opción.
La vacunación es responsabilidad del ganadero, que puede ser quien la aplique directamente, o que lo haga el veterinario privado de la explotación, en este caso, el ganadero sería el encargado de pagarla.
La administración paga las dosis de vacunas al ganadero y en la mayoría de los casos, prácticamente en el 100% de los casos, lo hace a través de las asociaciones de ganaderos (ADS).

e) Implementing entities - **other essential measures**: who implement this measure? Who provide the equipment/service? Who pays?

La limpieza y desinfección de las instalaciones se realiza siempre después de vaciar las naves.
Antes de repoblar nuevamente las naves, es obligatorio verificar la limpieza y desinfección, tomando muestra ambientales.
Estas actividades corren a cargo del FBO, y es el quien las paga.
Programme of eradication of Salmonella serotypes

2 Co-financing rate (see provisions of applicable Work Programme)

*The maximum co-financing rate is in general fixed at 50%. However based on provisions of Article 5.2 and 5.3 of the Regulation (EU) No 652/2014, we request that the co-financing rate for the reimbursement of the eligible costs would be increased:*

- [ ] Up to 75% for the measures detailed below
- [ ] Up to 100% for the measures detailed below

3. Source of funding of eligible measures

All eligible measures for which cofinancing is requested and reimbursement will be claimed are financed by public funds.

- [x] yes
- [ ] no

Attachments

**IMPORTANT:**

1) The more files you attach, the longer it takes to upload them.
2) This attachment files should have one of the format listed here: jpg, jpeg, tiff, tif, xls, xlsx, doc, docx, ppt, pptx, bmp, pna, pdf.
3) The total file size of the attached files should not exceed 2 500Kb (~ 2.5 Mb). You will receive a message while attaching when you try to load too much.
4) IT CAN TAKE SEVERAL MINUTES TO UPLOAD ALL THE ATTACHED FILES. Don't interrupt the uploading by closing the pdf and wait until you have received a Submission Number!
5) Only use letters from a-z and numbers from 1-10 in the attachment names, otherwise the submission of the data will not work.

Annex II : Control programme submitted for obtaining EU cofinancing - Reduction of prevalence of Salmonella serotypes

Member States seeking a financial contribution from the European Union for national programmes of eradication, control and surveillance shall submit online this application completely filled out.

In case of difficulty, please contact SANTE-VET-PROG@ec.europa.eu, describe the issue and mention the version of this document 2015 1.00

Your current version of Acrobat is: 11.015

Instructions to complete the form:

1) You need to have at least the Adobe Reader version 8.1.3 or higher to fill and submit this form.

2) To verify your data entry while filling your form, you can use the “verify form” button at the top of each page.

3) When you have finished filling the form, verify that your internet connection is active, save a copy on your computer and then click on the “submit notification” button below. If the form is properly filled, the notification will be submitted to the EU server and a submission number will appear in the corresponding field. If you don’t succeed to submit your programme following this procedure, check with your IT service that the security settings of your computer are compatible with this online submission procedure.

4) All programmes submitted online are kept in a central database. However only the information in the last submission is used when processing the data.

5) IMPORTANT: Once you have received the submission number, save the form on your computer for your records.

6) If the form is not properly filled in, an alert box will appear indicating the number of incorrect fields. Please check your form again, complete it and re-submit it according to steps 3). Should you still have difficulties, please contact SANTE-VET-PROG@ec.europa.eu.

7) For simplification purposes you are invited to submit multi-annual programmes.

8) As mentioned during the Plenary Task Force of 28/2/2014, you are invited to submit your programmes in English.

Submission Date: Wednesday, May 27, 2015 10:49:57
Submission Number: 1432716600587-4454
Programme of eradication of Salmonella serotypes

Identification of the programme

Member state: ESPANA

Disease: Salmonella

This program is multi annual: yes

Type of submission: Funding request for subsequent year of already approved multiannual programme

Request of Union co-financing from beginning of: 2014

Contact

Name: JOSÉ LUIS SÁEZ LLORENTE

Your job type within the CA: JEFE DE ÁREA DE PROGRAMAS SANITARIOS Y ZOONOSIS

Animal population

Animal population: Broiler flocks of Gallus gallus
Programme of eradication of Salmonella serotypes

A. Technical information

By submitting this programme, the Member State (MS) attests that the relevant provisions of the EU legislation will be implemented during its entire period of approval, in particular:

- Regulation (EC) No 2160/2003 on the control of *Salmonella* and other specified food-borne zoonotic agents,
- Regulation (EU) No 200/2012 concerning a Union target for the reduction of Salmonella enteritidis and Salmonella Typhimurium in flocks of broilers,

As a consequence, the following measures will be implemented during the whole period of the programme:

1. The **aim of the programme** is to implement all relevant measures in order to reduce the maximum annual percentage of flocks of *broilers* remaining positive to *Salmonella* Enteritidis (SE) and *Salmonella* Typhimurium (ST)(including the serotypes with the antigenic formula 1,4,[5],12:i:-) (‘Union target’) to 1% or less.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.

2. Geographical coverage of the programme

The programme will be implemented on the **whole territory** of the MS.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

3. Flocks subject to the programme

The programme covers all flocks of broilers. It does not apply to flocks for private domestic use.
Programme of eradication of Salmonella serotypes

4. Notification of the detection of target *Salmonella* serovars

A procedure is in place which guarantees that the detection of the presence of the relevant *Salmonella* serotypes during sampling at the initiative of the food business operator (FBO) is notified without delay to the competent authority (CA) by the laboratory performing the analyses. Timely notification of the detection of the presence of any of the relevant *Salmonella* serotypes remains the responsibility of the FBO and the laboratory performing the analyses.

5. Biosecurity measures

FBOs have to implement measures to prevent the contamination of their flocks.

Comments - Describe also the biosecurity measures that shall be applied, quote the document describing them (if any) and attach a copy

Comments - Describe also the biosecurity measures that shall be applied, quote the document describing them (if any) (max. 32000 chars) :

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

<table>
<thead>
<tr>
<th></th>
<th>Number of holdings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total number of holdings with broilers in the MS</td>
<td>4 392</td>
</tr>
<tr>
<td>Total number of houses in these holdings</td>
<td>37 442</td>
</tr>
<tr>
<td>Number of holdings with more than 5,000 broilers</td>
<td>4300</td>
</tr>
</tbody>
</table>
6. Minimum sampling requirements for food business operators (FBO):

Samples at the initiative of the FBO's will be taken and analysed to test for the target *Salmonella* serovars respecting the following minimum sampling requirements:

All flocks of broilers within three weeks before slaughter.

*Comments - Indicate also who takes the FBO samples*

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

The CA accepts to derogate from this sampling rule and instead of this the FBOs shall sample at least one flock of broilers per round on holdings with more than one flock where:

(i) an all in / all out system is used in all flocks of the holding;  
(ii) the same management applies to all flocks;  
(iii) feed and water supply is common to all flocks;  
(iv) during at least the last six rounds, tests for *Salmonella* spp. according to the sampling scheme set out in the first subparagraph in all flocks on the holding and samples of all flocks of at least one round were carried out by the competent authority;  
(v) all results from the testing according to the first subparagraph and point (b) for SE or ST were negative.

*Comments - Indicate if the derogation is applied and in this case how many holdings and flocks are concerned*

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

The CA accepts to derogate from the general sampling rule and authorises FBO sampling in the last six weeks prior to the date of slaughter in case the broilers are either kept more than 81 days or fall under organic broiler production according to Commission Regulation (EC) No 889/2008.

*Comments - Indicate if the derogation is applied and in this case how many holdings and flocks are concerned*

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
7. **Samples are taken** in accordance with provisions of point 2.2 of Annex to Regulation (EU) No 200/2012

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.

8. When birds from flocks infected with SE or ST are slaughtered, please describe the measures that shall be implemented by the FBO and the CA to ensure that fresh poultry meat meet the relevant EU **microbiological criteria** (row 1.28 of Chapter 1 of Annex I to Regulation (EC) No 2073/2005): absence of SE/ST in 5 samples of 25g.

**Measures implemented by the FBO (max. 32000 chars):**

FBO debe comunicar a los servicios veterinarios oficiales del matadero, los resultados de los análisis de salmonella. Existe normativa nacional que así lo determina, en concreto el Real Decreto 361/2009, de 20 de marzo, por el que se regula la información sobre la cadena alimentaria que debe acompañar a los animales destinados a sacrificio.

En función de los resultados de los análisis realizados en granja, se toman las medidas oportunas en matadero.

El sector, junto con la Administración, en concreto la Agencia española de seguridad alimentaria y nutrición, elaboró una Guía para dar cumplimiento a la normativa europea en relación a los criterios microbiológicos. (se adjunta documento: Guía de Salmonella en aves de engorde muestreos en matadero.pdf)

**Measures implemented by the CA (max. 32000 chars):**

Las medidas anteriormente explicada, son conjuntas entre los FBO y la autoridad competente.

9. **Laboratories** in which samples (official and FBO samples) collected within this programme are analysed are accredited to ISO 17025 and the analytical methods for **Salmonella** detection is within the scope of their accreditation.

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
10. The **analytical methods** used for the detection of the target *Salmonella* serovars is the one defined in Part 3.2 of the Annex of Regulation (EU) No 200/2012 i.e. Amendment 1 of EN/ISO 6579-2002/Amdl:2007. 'Microbiology of food and animal feeding stuffs - Horizontal method for the detection of *Salmonella* spp. — Amendment 1: Annex D: Detection of *Salmonella* spp. in animal faeces and in environmental samples from the primary production stage'. Serotyping is performed following the Kauffman-White-Le Minor scheme. For samples taken on behalf of the FBO alternative methods may be used if validated in accordance with the most recent version of EN/ISO16140.

**Comments**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

11. Samples are transported and stored in accordance with point 2.2.4 and 3.1 of the Annex to Regulation (EU) No 200/2012. In particular samples examination at the laboratory shall start within 48 hours following receipt and within 4 days after sampling.

**Comments (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

12. Please describe the **official controls at feed level** (including sampling).

**Comments (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
13. Official controls at holding and flock level

a. Please describe the official checks concerning the **general hygiene provisions** (Annex I of Regulation (EC) No 852/2004) including checks on biosecurity measures, and consequences in case of unsatisfactory outcome.

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

b. Routine official **sampling scheme**: EU minimum requirements are implemented i.e. official sampling are performed:

- in one flock of broilers per year on 10% of holding comprising at least 5,000 birds;

Comments - Indicate also: 1) if additional official sampling going beyond EU minimum requirements is performed give a description of what is done 2) who is taking the official samples (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

c. **Official confirmatory sampling**:

E. Financial information

1. Identification of the implementing entities - financial circuits/flows

Identify and describe the entities which will be in charge of implementing the eligible measures planned in this programme which costs will constitute the reimbursement/payment claim to the EU. Describe the financial flows/circuits followed.

Each of the following paragraphs (from a to e) shall be filled out if EU cofinancing is requested for the related measure.

a) Implementing entities - **sampling:** who perform the official sampling? Who pays?
(e.g. authorised private vets perform the sampling and are paid by the regional veterinary services (state budget); sampling equipment is provided by the private laboratory testing the samples which includes the price in the invoice which is paid by the local state veterinary services (state budget))

Las muestras oficiales son tomadas por veterinarios oficiales.
Programme of eradication of Salmonella serotypes

El coste de la toma de muestras, lo asume la Administración, en este caso las comunidades autónomas.

b) Implementing entities - **testing**: who performs the testing of the official samples? Who pays?
(e.g. regional public laboratories perform the testing of official samples and costs related to this testing are entirely paid by the state budget)

Las muestras oficiales son analizadas en los laboratorios oficiales de las comunidades autónomas. Los análisis los paga la comunidad autónoma. El laboratorio nacional de referencia (LNR, Algete), también realiza análisis de serotipado de muestras oficiales. En menor número también hace análisis de aislamiento e identificación. Estos análisis los paga el LNR.

c) Implementing entities - **compensation**: who performs the compensation? Who pays?
(e.g. compensation is paid by the central level of the state veterinary services, or compensation is paid by an insurance fund fed by compulsory farmers contribution)

Los servicios veterinarios oficiales de las comunidades autónomas (CCAA) ordenan los sacrificios obligatorios y son los encargados de llevar a cabo las compensaciones por sacrificio. Las CCAA son las encargadas de pagarlos.

d) Implementing entities - **vaccination**: who provides the vaccine and who performs the vaccination? Who pays the vaccine? Who pays the vaccinator?
(e.g. farmers buy their vaccine to the private vets, send the paid invoices to the local state veterinary services which reimburse the farmers of the full amount and the vaccinator is paid by the regional state veterinary services)

No se realiza la vacunación en broilers
Programme of eradication of Salmonella serotypes

e) Implementing entities - other essential measures: who implement this measure? Who provide the equipment/service? Who pays?

La limpieza y desinfección de las instalaciones se realiza siempre después de vaciar las naves. Antes de repoblar nuevamente las naves, es obligatorio verificar la limpieza y desinfección, tomando muestra ambientales. Estas actividades corren a cargo del FBO, y es el quien las paga.

2 Co-financing rate (see provisions of applicable Work Programme)

The maximum co-financing rate is in general fixed at 50%. However based on provisions of Article 5.2 and 5.3 of the Regulation (EU) No 652/2014, we request that the co-financing rate for the reimbursement of the eligible costs would be increased:

- [ ] Up to 75% for the measures detailed below
- [ ] Up to 100% for the measures detailed below
3. Source of funding of eligible measures

All eligible measures for which cofinancing is requested and reimbursement will be claimed are financed by public funds.

Annex II : Control programme submitted for obtaining EU cofinancing - Reduction of prevalence of Salmonella serotypes

Member States seeking a financial contribution from the European Union for national programmes of eradication, control and surveillance shall submit online this application completely filled out.

In case of difficulty, please contact SANTE-VET-PROG@ec.europa.eu, describe the issue and mention the version of this document 2015 1.00

Your current version of Acrobat is: 11.015

Instructions to complete the form:

1) You need to have at least the Adobe Reader version 8.1.3 or higher to fill and submit this form.

2) To verify your data entry while filling your form, you can use the “verify form” button at the top of each page.

3) When you have finished filling the form, verify that your internet connection is active, save a copy on your computer and then click on the “submit notification” button below. If the form is properly filled, the notification will be submitted to the EU server and a submission number will appear in the corresponding field. If you don't succeed to submit your programme following this procedure, check with your IT service that the security settings of your computer are compatible with this online submission procedure.

4) All programmes submitted online are kept in a central database. However only the information in the last submission is used when processing the data.

5) IMPORTANT: Once you have received the submission number, save the form on your computer for your records.

6) If the form is not properly filled in, an alert box will appear indicating the number of incorrect fields. Please check your form again, complete it and re-submit it according to steps 3). Should you still have difficulties, please contact SANTE-VET-PROG@ec.europa.eu.

7) For simplification purposes you are invited to submit multi-annual programmes.

8) As mentioned during the Plenary Task Force of 28/2/2014, you are invited to submit your programmes in English.

Animal population

Animal population: Laying flocks of Gallus gallus
Programme of eradication of Salmonella serotypes

A. Technical information

By submitting this programme, the Member State (MS) attests that the relevant provisions of the EU legislation will be implemented during its entire period of approval, in particular:

- Regulation (EC) No 2160/2003 on the control of *Salmonella* and other specified food-borne zoonotic agents,

As a consequence, the following measures will be implemented during the whole period of the programme:

1. Aim of the programme

   It is to implement all relevant measures in order to reduce the prevalence of *Salmonella* Enteritidis and *Salmonella* Typhimurium (including the serotypes with the antigenic formula 1,4,[5],12:i:-) in adult laying hens of *Gallus gallus* ('Union target') as follows:

   - An annual minimum percentage of reduction of positive flocks of adult laying hens equal to at least 10% where the prevalence in the preceding year was less than 10%.
   - An annual minimum percentage of reduction of positive flocks of adult laying hens equal to at least 20% where the prevalence in the preceding year was more than or equal to 10% and less than 20%.
   - A reduction of the maximum percentage equal to 2% or less of positive flocks of adult laying hens.
   - The Member States has less than 50 flocks of adult laying hens: the target is to have not more than one adult flock remaining positive.

The Union target shall be achieved every year based on the monitoring of the previous year.

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

3. Flocks subject to the programme

The programme covers all flocks of adult laying hens of *Gallus gallus* but does not apply to flocks for private domestic use or leading to the direct supply, by the producer, of small quantities of table eggs to the final consumer or to local retail establishments directly supplying the eggs to the final consumer. For the latter case (direct supply), national rules are adopted ensuring *Salmonella* control in these flocks.

The programme covers also all rearing flocks of future laying hens.

Comments (max. 32000 chars):

4. Notification of the detection of target *Salmonella* serovars

A procedure is in place which guarantees that the detection of the presence of the relevant *Salmonella* serotypes during sampling at the initiative of the food business operator (FBO) is notified without delay to the competent authority by the laboratory performing the analyses. Timely notification of the detection of the presence of any of the relevant *Salmonella* serotypes remains the responsibility of the food business operator and the laboratory performing the analyses.

Comments (max. 32000 chars) :
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

5. Biosecurity measures

FBOs have to implement measures to prevent the contamination of their flocks.

Comments - Describe also the biosecurity measures that shall be applied, quote the document describing them (if any) (max. 32000 chars) :
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
6. Minimum sampling requirements for food business operators (FBO):

Samples at the initiative of the FBOs will be taken and analysed to test for the target *Salmonella* serovars respecting the following minimum sampling requirements:

a. Rearing flocks: day-old chicks, two weeks before moving to laying phase or laying unit

b. Adults laying flocks: every 15 weeks during the laying period

Comments - Indicate also who takes the FBO samples, and, if additional FBO sampling, going beyond the minimum sampling requirements, is performed, please describe what is done.

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

7. Samples are taken in accordance with provisions of point 2.2 of Annex to Regulation (EU) No 517/2011

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

8. Specific requirements laid down in Annex II.D of Regulation (EC) No 2160/2003 will be complied with where relevant. In particular:

- due to the presence or the suspicion of the presence of SE or ST (including monophasic ST 1,4,[5],12:i:-) in the flock, eggs cannot be used for human consumption unless heat treated;

- eggs from these flocks shall be marked and considered as class B eggs.

Comments - Indicate also if prompt depopulation of the infected flocks is compulsory (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
9. If birds from flocks infected with SE or ST are slaughtered, please describe the measures that shall be implemented by the FBO and the CA to ensure that fresh poultry meat meet the relevant EU microbiological criteria (row 1.28 of Chapter 1 of Annex I to Regulation (EC) No 2073/2005): absence of SE/ST in 5 samples of 25g:

**Measures implemented by the FBO (max. 32000 chars):**

FBO debe comunicar a los servicios veterinarios oficiales del matadero, los resultados de los análisis de salmonella. Existe normativa nacional que así lo determina, en concreto el Real Decreto 361/2009, de 20 de marzo, por el que se regula la información sobre la cadena alimentaria que debe acompañar a los animales destinados a sacrificio.

En función de los resultados de los análisis realizados en granja, se toman las medidas oportunas en matadero.

El sector, junto con la Administración, en concreto la Agencia española de seguridad alimentaria y nutrición, elaboró una Guía para dar cumplimiento a la normativa europea en relación a los criterios microbiológicos. (se adjunta documento: Guía de Salmonella en aves de engorde muestreos en matadero.pdf)

**Measures implemented by the CA (max. 32000 chars):**

Las medidas anteriormente explicada, son conjuntas entre los FBO y la autoridad competente.

10. **Laboratories** in which samples (official and FBO samples) collected within this programme are analysed are accredited to ISO 17025 standard and the analytical methods for Salmonella detection is within the scope of their accreditation.

**Comments (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
11. The **analytical methods** used for the detection of the target *Salmonella* serovars is the one defined in Part 3.2 of the Annex of Regulation (EU) No 517/2011 i.e. Amendment 1 of EN/ISO 6579-2002/Amd1:2007. *`Microbiology of food and animal feeding stuffs  - Horizontal method for the detection of Salmonella spp. -- Amendment 1: Annex D: Detection of Salmonella spp. in animal faeces and in environmental samples from the primary production stage'*. Serotyping is performed following the Kaufman-White-Le Minor scheme. For samples taken on behalf of the FBO alternative methods may be used if validated in accordance with the most recent version of EN/ISO16140.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.

12. Samples are transported and stored in accordance with point 3.1 of the Annex to Regulation (EU) No 517/2011. In particular, samples examination shall start in the laboratory within 4 days after sampling.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.

13. Please describe the **official controls at feed level** (including sampling).

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.
Programme of eradication of Salmonella serotypes

14. Official controls at holding, flock and hatchery level

a. Please describe the official checks concerning the general hygiene provisions (Annex I of Regulation (EC) No 852/2004) including checks on biosecurity measures, and consequences in case of unsatisfactory outcome.

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

b. Routine official sampling scheme: EU minimum requirements are implemented i.e. official sampling are performed:

■ in one flock per year per holding comprising at least 1,000 birds;

■ at the age of 24 +/- 2 weeks in laying flocks housed in buildings where the relevant Salmonella was detected in the preceding flock;

■ in any case of suspicion of Salmonella infection when investigating food-borne outbreaks in accordance with Article 8 of Directive 2003/99/EC or any cases where the competent authority considers it appropriate, using the sampling protocol laid down in point 4(b) of Part D to Annex II to Regulation (EC) No 2160/2003;

■ in all other laying flocks on the holding in case Salmonella Enteritidis or Salmonella Typhimurium is detected in one laying flock on the holding;

■ in cases where the competent authority considers it appropriate.

Comments - Indicate also 1) if additional official sampling going beyond EU minimum requirements is performed give a description of what is done 2) who is taking the official samples

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

c. Official confirmatory sampling:

### 15. *Salmonella* vaccination

|  |  |
| Voluntary | ☐ |
| ☒ Compulsory | |
| ☐ Forbidden | |
Use of *Salmonella* vaccines is in compliance with provisions of Article 3 of Regulation (EC) No 1177/2006.

**Comments** - If performed please describe the vaccination scheme (vaccines used, vaccines providers, target flocks, number of doses administered per bird, etc) (max. 32000 chars):

Respecto al uso de vacunas, la normativa aplicable es el R(CE) 1177/2006, de 1 de agosto de 2006, por el que se aplica el Reglamento (CE) 2160/2003 del Parlamento Europeo y del Consejo con respecto a los requisitos de uso de métodos específicos de control en el marco de los programas nacionales de control de la salmonela en las aves de corral.

Todas las gallinas ponedoras se someterán al menos durante la fase de cría, a programas de vacunación obligatorios contra *Salmonella Enteritidis* que reduzcan la excreción y la contaminación de los huevos. Sólo se exceptuarán de esta obligatoriedad aquellas explotaciones que a juicio de la autoridad competente tenga unas adecuadas medidas de bioseguridad, tengan completamente implantado un plan de vigilancia y autocontrol de *Salmonella*, y que hayan demostrado su eficacia con análisis negativos a *S. enteritidis* y *S. typhimurium* incluyendo las cepas monofásicas de *Salmonella typhimurium* con fórmula antigénica 1,4,[5],12:i:-; durante, al menos, los 12 últimos meses (en los autocontroles) y siempre que hayan llevado a cabo, asimismo, controles oficiales con resultados negativos a *S. enteritidis* y *S. typhimurium*, incluyendo las cepas monofásicas de *Salmonella typhimurium* con fórmula antigénica 1,4,[5],12:i:-; en el último control oficial.

No obstante, dicha vacunación será obligatoria en todas las explotaciones de aves ponedoras que realicen intercambios intracomunitarios de huevos destinados a consumo humano.

Para la vacunación de las manadas únicamente podrán utilizarse vacunas que dispongan de la previa autorización de comercialización de la Agencia Española de Medicamentos y Productos Sanitarios o por la Comisión Europea de conformidad con el Reglamento (CE) Nº 726/2004 del Parlamento y del Consejo. Las vacunas atenuadas para las cuales no exista un adecuado método para diferenciar bacteriológicamente las cepas vacunales de las cepas de campo, no podrán ser utilizadas en el marco de este programa de control.

Las vacunas vivas no podrán ser utilizadas en gallinas ponedoras durante la fase de puesta, a no ser que se haya demostrado su seguridad y hayan sido autorizadas para este propósito de acuerdo con la Directiva 2001/82/CE del Parlamento y del Consejo (modificada por la Directiva 2004/28/CE).

Realizada la vacunación, se anotarán en el libro de registro de tratamientos con medicamentos al menos, los siguientes datos: fecha de vacunación, identificación de la vacuna administrada/s, naturaleza de la vacuna/s administrada/s, cantidad (número de dosis y cantidad de cada dosis), nombre y dirección del proveedor del medicamento, e identificación del lote de animales tratados.

El propietario de la granja de recria debe certificar la vacunación de cada lote de pollitas a la granja de ponedoras de destino, indicando el tipo de vacuna utilizada y las fechas de las vacunaciones. El registro del uso de vacunas se está llevando a cabo a través de una aplicación informática.

Ver documento adjunto sobre "objetivos vacunación en 2016 ponedoras".

---

16. **System for compensation to owners** for the value of their birds slaughtered or culled and the eggs destroyed or heat treated.

Describe the system for compensation to owners. Indicate also how improper implementation of biosecurity measures can affect the payment of compensation (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.
17. Official procedure to test, after the depopulation of an infected flock, the **efficacy of the disinfection** of a poultry house.

*(max. 32000 chars)*:

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

*Page 17 of 21*
**E. Financial information**

1. Identification of the implementing entities - financial circuits/flows

Identify and describe the entities which will be in charge of implementing the eligible measures planned in this programme which costs will constitute the reimbursement/payment claim to the EU. Describe the financial flows/circuits followed.

Each of the following paragraphs (from a to e) shall be filled out if EU cofinancing is requested for the related measure.

a) Implementing entities - **sampling**: who perform the official sampling? Who pays?
(e.g. authorised private vets perform the sampling and are paid by the regional veterinary services (state budget); sampling equipment is provided by the private laboratory testing the samples which includes the price in the invoice which is paid by the local state veterinary services (state budget))

Las muestras oficiales son tomadas por veterinarios oficiales.
El coste de la toma de muestras, lo asume la Administración, en este caso las comunidades autónomas.

b) Implementing entities - **testing**: who performs the testing of the official samples? Who pays?
(e.g. regional public laboratories perform the testing of official samples and costs related to this testing are entirely paid by the state budget)

Las muestras oficiales son analizadas en los laboratorios oficiales de las comunidades autónomas. Los análisis los paga la comunidad autónoma.
El laboratorio nacional de referencia (LNR, Algete), también realiza análisis de serotipado de muestras oficiales. En menor número también hace análisis de aislamiento e identificación. Estos análisis los paga el LNR.
c) Implementing entities - **compensation**: who performs the compensation? Who pays?
(e.g. compensation is paid by the central level of the state veterinary services,
or compensation is paid by an insurance fund fed by compulsory farmers contribution)

Los servicios veterinarios oficiales de las comunidades autónomas (CCAA) ordenan los sacrificios obligatorios y son los encargados de llevar a cabo las compensaciones por sacrificio. Las CCAA son las encargadas de pagarlos.

d) Implementing entities - **vaccination**: who provides the vaccine and who performs the vaccination? Who pays the vaccine? Who pays the vaccinator?
(e.g. farmers buy their vaccine to the private vets, send the paid invoices to the local state veterinary services which reimburse the farmers of the full amount and the vaccinator is paid by the regional state veterinary services)

Las vacunas son compradas por los FBO, o bien directamente, o bien a través de Agrupaciones de Defensa Sanitaria (ADS), que son asociaciones de ganaderos, siendo mayoritaria (prácticamente el 100% de los casos) esta segunda opción.
La vacunación es responsabilidad del ganadero, que puede ser quien la aplique directamente, o que lo haga el veterinario privado de la explotación, en este caso, el ganadero sería el encargado de pagarle.
La administración paga las dosis de vacunas al ganadero y en la mayoría de los casos, prácticamente en el 100% de los casos, lo hace a través de las asociaciones de ganaderos (ADS).

e) Implementing entities - **other essential measures**: who implement this measure? Who provide the equipment/service? Who pays?

La limpieza y desinfección de las instalaciones se realiza siempre después de vaciar las naves.
Antes de repoblar nuevamente las naves, es obligatorio verificar la limpieza y desinfección, tomando muestra ambientales.
Estas actividades corren a cargo del FBO, y es el quien las paga.
Programme of eradication of Salmonella serotypes

2 Co-financing rate (see provisions of applicable Work Programme)

The maximum co-financing rate is in general fixed at 50%. However based on provisions of Article 5.2 and 5.3 of the Regulation (EU) No 652/2014, we request that the co-financing rate for the reimbursement of the eligible costs would be increased:

- [ ] Up to 75% for the measures detailed below
- [ ] Up to 100% for the measures detailed below

3. Source of funding of eligible measures

All eligible measures for which cofinancing is requested and reimbursement will be claimed are financed by public funds.

- [x] yes
- [ ] no

Annex II : Control programme submitted for obtaining EU cofinancing - Reduction of prevalence of Salmonella serotypes

Member States seeking a financial contribution from the European Union for national programmes of eradication, control and surveillance shall submit online this application completely filled out.

In case of difficulty, please contact SANTE-VET-PROG@ec.europa.eu, describe the issue and mention the version of this document: 2015 1.00

Your current version of Acrobat is: 11.015

Instructions to complete the form:

1) You need to have at least the Adobe Reader version 8.1.3 or higher to fill and submit this form.

2) To verify your data entry while filling your form, you can use the “verify form” button at the top of each page.

3) When you have finished filling the form, verify that your internet connection is active, save a copy on your computer and then click on the “submit notification” button below. If the form is properly filled, the notification will be submitted to the EU server and a submission number will appear in the corresponding field. If you don’t succeed to submit your programme following this procedure, check with your IT service that the security settings of your computer are compatible with this online submission procedure.

4) All programmes submitted online are kept in a central database. However only the information in the last submission is used when processing the data.

5) IMPORTANT: Once you have received the submission number, save the form on your computer for your records.

6) If the form is not properly filled in, an alert box will appear indicating the number of incorrect fields. Please check your form again, complete it and re-submit it according to steps 3). Should you still have difficulties, please contact SANTE-VET-PROG@ec.europa.eu.

7) For simplification purposes you are invited to submit multi-annual programmes.

8) As mentioned during the Plenary Task Force of 28/2/2014, you are invited to submit your programmes in English.
**Programme of eradication of Salmonella serotypes**

**Identification of the programme**

**Member state:** ESPANA

**Disease:** Salmonella

**This program is multi annual:** yes

**Type of submission:** Funding request for subsequent year of already approved multiannual programme

**Request of Union co-financing from beginning of:** 2014

**Contact**

**Name:** JOSÉ LUIS SAÉZ LLORENTE

**Your job type within the CA:** JEFE DE ÁREA DE PROGRAMAS SANITARIOS Y ZOONOSIS

**Phone:** 0034913474060

**Email:** jsaezlo@magrama.es

**Animal population**

**Animal population:** Breeding flocks of Turkeys
Programme of eradication of Salmonella serotypes

A. Technical information

By submitting this programme, the Member State (MS) attests that the relevant provisions of the EU legislation will be implemented during its entire period of approval, in particular:

- Regulation (EC) No 2160/2003 on the control of *Salmonella* and other specified food-borne zoonotic agents,

- Regulation (EU) No 1190/2012 concerning a Union target for the reduction of *Salmonella* Enteritidis and Typhimurium in flocks of turkeys,

As a consequence, the following measures will be implemented during the whole period of the programme:

1. Aim of the programme

   It is to implement all relevant measures in order to reduce the maximum annual percentage of flocks of breeding turkeys remaining positive to *Salmonella* Enteritidis (SE) and *Salmonella* Typhimurium (ST) (including the serotypes with the antigenic formula 1,4,[5],12:i:-) ('Union target') to 1% or less.

   However, for MS with less than 100 flocks of adult fattening turkeys, the Union target shall be that annually no more than one flock of adult fattening turkeys may remain positive.

Comments(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

2. Geographical coverage of the programme

   The programme will be implemented on the whole territory of the Member State.
3. Flocks subject to the programme

<table>
<thead>
<tr>
<th></th>

</tbody>
</table>

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.

4. Notification of the detection of target *Salmonella* serovars

A procedure is in place which guarantees that the detection of the presence of the relevant *Salmonella* serotypes during sampling at the initiative of the food business operator (FBO) is notified without delay to the competent authority by the laboratory performing the analyses. Timely notification of the detection of the presence of any of the relevant *Salmonella* serotypes remains the responsibility of the food business operator and the laboratory performing the analyses.

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016.

5. Biosecurity measures

FBOs have to implement measures to prevent the contamination of their flocks.
Programme of eradication of Salmonella serotypes

Comments - Describe also the biosecurity measures that shall be applied, quote the document describing them (if any) and attach a copy (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

6. Minimum sampling requirements for food business operators (FBO):

Samples at the initiative of the FBO's will be taken and analysed to test for the target *Salmonella* serovars respecting the following minimum sampling requirements:

- Rearing flocks: at day-old, at four weeks of age, two weeks before moving to laying phase or laying unit
- Adult flocks: Every third week during the laying period at the holding or at the hatchery (only at the holding for flocks producing hatching eggs intended for trade within the union). The last sampling session takes place withing three weeks before slaughter.

By way of derogation, if the Union target has been achieved for at least two consecutive calendar years in the whole Member State, sampling at the holding may be extended to take place every four weeks. However, the competent authority may decide to keep or revert to a three-week testing interval in the case of detection of the presence of the relevant *Salmonella* serotypes in a breeding flock on the holding and/or in any other case deemed appropriate by the competent authority.

Comments - Indicate also 1)if who takes the FBO samples 2) if the derogation is applied 3)if additional FBO sampling (going beyond minimum sampling requirements) is performed, please describe what is done. (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
En España no se está aplicando la excepción de tomar muestras cada 4 semanas.

7. Samples are taken in accordance with provisions of point 2.2 of Annex to Regulation (EU) No 1190/2012

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
Programme of eradication of Salmonella serotypes

8. Specific requirements laid down in Annex II.C of Regulation (EC) No 2160/2003 will be complied with where relevant (due to the presence of SE or ST (including monophasic ST 1,4,[5],12:i:-), all birds of infected reading or adult flocks are slaughtered or killed and destroyed, and all eggs are destroyed or heat treated):

Comments - Indicate also if birds are slaughtered or killed and destroyed and if eggs are destroyed or heat treated (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

9. If birds from flocks infected with SE or ST are slaughtered, please describe the measures that shall be implemented by the FBO and the CA to ensure that fresh poultry meat meet the relevant EU microbiological criteria (row 1.28 of Chapter 1 of Annex I to Regulation (EC) No 2073/2005): absence of SE/ST in 5 samples of 25g:

Measures implemented by the FBO (max. 32000 chars):

FBO debe comunicar a los servicios veterinarios oficiales del matadero, los resultados de los análisis de salmonella. Existe normativa nacional que así lo determina, en concreto el Real Decreto 361/2009, de 20 de marzo, por el que se regula la información sobre la cadena alimentaria que debe acompañar a los animales destinados a sacrificio.

En función de los resultados de los análisis realizados en granja, se toman las medidas oportunas en matadero.

El sector, junto con la Administración, en concreto la Agencia española de seguridad alimentaria y nutrición, elaboró una Guía para dar cumplimiento a la normativa europea en relación a los criterios microbiológicos. (se adjunta documento: Guía de Salmonella en aves de engorde muestreos en matadero.pdf)

Measures implemented by the CA (max. 32000 chars):

Las medidas anteriormente explicada, son conjuntas entre los FBO y la autoridad competente.

10. Laboratories in which samples (official and FBO samples) collected within this programme are analysed are accredited to ISO 17025 standard and the analytical methods for Salmonella detection is within the scope of their accreditation.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
11. The **analytical methods** used for the detection of the target *Salmonella* serovars is the one defined in Part 3.2 of the Annex of Regulation (EU) No 1190/2012 i.e. Amendment 1 of EN/ISO 6579-2002/Amd1:2007. *Microbiology of food and animal feeding stuffs - Horizontal method for the detection of Salmonella spp. -- Amendment 1: Annex D: Detection of Salmonella spp. in animal faeces and in environmental samples from the primary production stage*. 

Serotyping is performed following the Kaufman-White-Le Minor scheme. For samples taken on behalf of the FBO alternative methods may be used if validated in accordance with the most recent version of EN/ISO16140.

**Comments (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

12. Samples are transported and stored in accordance with point 2.2.4 and 3.1 of the Annex to Regulation (EU) No 1190/2012. In particular, samples examination shall start in the laboratory within 48 hours following receipt and within 96 hours after sampling.

**Comments (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

13. Please describe the **official controls at feed level** (including sampling).

**Comments (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
14. Official controls at holding and flock level

a. Please describe the official checks concerning the general hygiene provisions (Annex I of Regulation (EC) No 852/2004) including checks on biosecurity measures, and consequences in case of unsatisfactory outcome.

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

b. Routine official sampling scheme: EU minimum requirements are implemented i.e. official sampling are performed:

■ once a year, all flocks with at least 250 adult breeding turkeys between 30 and 45 weeks of age and in all holdings with elite, great grand parents and grand parent breeding turkeys; the competent authority may decide that this sampling may also take place at the hatchery; and

■ all flocks on holdings in case of detection of Samonella Enteritidis or Salmonella Typhimurium from samples taken at the hatchery (FBO or official samples), to investigate the origin of infection;

Comments - Indicate also 1) if additional official sampling going beyond EU minimum requirements is performed, give a description of what is done 2) who is taking the official samples (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

c. Official confirmatory sampling (in addition to the confirmatory samples at the holding which are systematically performed if FBO or official samples are positive at the hatchery):

After positive official samples at the holding

- Always
- Sometimes (criteria apply)
- Never
After positive FBO samples at the holding

- Always
- Sometimes (criteria apply)
- Never

Comments - Describe also the criteria (if any) quoted above (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

---

d. Article 2 of Regulation (EC) No 1177/2006 (antimicrobials shall not be used as a specific method to control Salmonella in poultry): please describe the official controls implemented (documentary checks, samplertaking) to check the correct implementation of this provision (at the holding and at the hatchery). For samples please describe the samples taken, the analytical method used, the result of the tests.

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

---

15. *Salmonella* vaccination

- Voluntary
- Compulsory
- Forbidden

Use of *Salmonella* vaccines is in compliance with provisions of Article 3 of Regulation (EC) No 1177/2006.

Comments - If performed please describe the vaccination scheme (vaccines used, vaccines providers, target flocks, number of doses administered per bird, etc) (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
16. System for compensation to owners for the value of their birds slaughtered or culled and the eggs destroyed or heat treated.

Describe the system for compensation to owners. Indicate how improper implementation of biosecurity measures can affect the payment of compensation (max. 32000 chars)

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

17. Official procedure to test, after the depopulation of an infected flock, the efficacy of the disinfection of a poultry house.

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

B. General information

1. Structure and organisation of the Competent Authorities (from the central CA to the local CAs)

Short description and/or reference to a document presenting this description (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

2. Legal basis for the implementation of the programme

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
3. Give a short summary of the outcome of the monitoring of the target Salmonella serovars (SE, ST) implemented in accordance with Article 4 of Directive 2003/99/EC (evolution of the prevalence values based on the monitoring of animal populations or subpopulations or of the food chain).

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
Ver documento adjunto (prevalencia pavos reproductores)

4. System for the registration of holdings and identification of flocks

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

5. System to monitor the implementation of the programme.

(max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
Programme of eradication of Salmonella serotypes

C. Targets

1. Targets related to flocks official monitoring

1.1 Targets on laboratory tests on official samples for year:

<table>
<thead>
<tr>
<th>Region</th>
<th>Type of the test (description)</th>
<th>Target population (categories and species targeted)</th>
<th>Type of sample</th>
<th>Objective</th>
<th>Number of planned tests</th>
</tr>
</thead>
<tbody>
<tr>
<td>ESPAÑA</td>
<td>Bacteriological detection test</td>
<td>Breeding flocks of Turkeys</td>
<td>environmental sample</td>
<td>routine sampling</td>
<td>140</td>
</tr>
<tr>
<td>ESPAÑA</td>
<td>Serotyping</td>
<td>Breeding flocks of Turkeys</td>
<td>-</td>
<td>-</td>
<td>10</td>
</tr>
<tr>
<td>ESPAÑA</td>
<td>Antimicrobial detection test</td>
<td>Breeding flocks of Turkeys</td>
<td>FEED AND WATER</td>
<td>routine test</td>
<td>5</td>
</tr>
<tr>
<td>ESPAÑA</td>
<td>Test for verification of the efficacy of disinfection</td>
<td>Breeding flocks of Turkeys</td>
<td>-</td>
<td>-</td>
<td>3</td>
</tr>
</tbody>
</table>

1.2 Targets on official sampling of flocks for year:

<table>
<thead>
<tr>
<th>Region</th>
<th>Type of flock</th>
<th>Total number of flocks (a)</th>
<th>Number of flocks in the programme</th>
<th>Number of flocks checked (b)</th>
<th>Number of flock visits to take official samples (d)</th>
<th>Number of official samples taken</th>
<th>Targeted serotypes (c)</th>
<th>Possible number of positive flocks</th>
<th>Number of flocks to be depopulated</th>
<th>Total number of animals to be slaughtered or destroyed</th>
<th>Quantity of eggs to be destroyed (number)</th>
<th>Quantity of eggs to be channelled to egg product (number)</th>
</tr>
</thead>
</table>

Add a new row
# Programme of eradication of Salmonella serotypes

## Targets on vaccination

### Targets on vaccination for year: 2016

<table>
<thead>
<tr>
<th>NUTS Region</th>
<th>Number of flocks in the programme</th>
<th>Number of flocks expected to be vaccinated</th>
<th>Number of animals expected to be vaccinated</th>
<th>Number of doses of vaccine expected to be administered</th>
</tr>
</thead>
</table>

(a) Including eligible and non-eligible flocks for the programme

(b) Check means to perform a flock level test under the programme for the presence of Salmonella. In this column a flock must not be counted twice even if it has been checked more than once.

(c) Salmonella Enteritidis + Salmonella Typhimurium = SE + ST  
Salmonella Enteritidis + Salmonella Typhimurium + Salmonella Hadar + Salmonella Infantis + Salmonella Virchow = SE + ST + SH + SI + SV

(d) Each visit for the purpose of taking official samples shall be counted. Several visits on the same flock for taking official samples shall be counted separately.
Programme of eradication of Salmonella serotypes

D. **Detailed analysis of the cost of the programme**

1. **Costs of the planned activities for year: 2016**

</tbody>
</table>
1. Identification of the implementing entities - financial circuits/flows

Identify and describe the entities which will be in charge of implementing the eligible measures planned in this programme which costs will constitute the reimbursement/payment claim to the EU. Describe the financial flows/circuits followed.

Each of the following paragraphs (from a to e) shall be filled out if EU cofinancing is requested for the related measure.

a) Implementing entities - **sampling**: who perform the official sampling? Who pays?
(e.g. authorised private vets perform the sampling and are paid by the regional veterinary services (state budget); sampling equipment is provided by the private laboratory testing the samples which includes the price in the invoice which is paid by the local state veterinary services (state budget))

Las muestras oficiales son tomadas por veterinarios oficiales. El coste de la toma de muestras, lo asume la Administración, en este caso las comunidades autónomas.

b) Implementing entities - **testing**: who performs the testing of the official samples? Who pays?
(e.g. regional public laboratories perform the testing of official samples and costs related to this testing are entirely paid by the state budget)

Las muestras oficiales son analizadas en los laboratorios oficiales de las comunidades autónomas. Los análisis los paga la comunidad autónoma. El laboratorio nacional de referencia (LNR, Algete), también realiza análisis de serotipado de muestras oficiales. En menor número también hace análisis de aislamiento e identificación. Estos análisis los paga el LNR.
c) Implementing entities - **compensation**: who performs the compensation? Who pays?
(e.g. compensation is paid by the central level of the state veterinary services, or compensation is paid by an insurance fund fed by compulsory farmers contribution)

Los servicios veterinarios oficiales de las comunidades autónomas (CCAA) ordenan los sacrificios obligatorios y son los encargados de llevar a cabo las compensaciones por sacrificio. Las CCAA son las encargadas de pagarlos.

---

d) Implementing entities - **vaccination**: who provides the vaccine and who performs the vaccination? Who pays the vaccine? Who pays the vaccinator?
(e.g. farmers buy their vaccine to the private vets, send the paid invoices to the local state veterinary services which reimburse the farmers of the full amount and the vaccinator is paid by the regional state veterinary services)

No se cofinancian las dosis de vacunas compradas por el FBO.

---

e) Implementing entities - **other essential measures**: who implement this measure? Who provide the equipment/service? Who pays?

La limpieza y desinfección de las instalaciones se realiza siempre después de vaciar las naves.
Antes de repoblar nuevamente las naves, es obligatorio verificar la limpieza y desinfección, tomando muestra ambientales.
Estas actividades corren a cargo del FBO, y es el quien las paga.
2. Co-financing rate (see provisions of applicable Work Programme)

The maximum co-financing rate is in general fixed at 50%. However based on provisions of Article 5.2 and 5.3 of the Regulation (EU) No 652/2014, we request that the co-financing rate for the reimbursement of the eligible costs would be increased:

- [ ] Up to 75% for the measures detailed below
- [ ] Up to 100% for the measures detailed below

3. Source of funding of eligible measures

All eligible measures for which cofinancing is requested and reimbursement will be claimed are financed by public funds.

- [x] yes
- [ ] no
Programme of eradication of Salmonella serotypes

Attachments

**IMPORTANT:**

1) The more files you attach, the longer it takes to upload them.
2) This attachment files should have one of the format listed here: *jpg, jpeg, tiff, tif, xls, xlsx, doc, docx, ppt, pptx, bmp, pna, pdf.*
3) The total file size of the attached files should not exceed 2500kb (~ 2.5 Mb). You will receive a message while attaching when you try to load too much.
4) **IT CAN TAKE SEVERAL MINUTES TO UPLOAD ALL THE ATTACHED FILES.** Don't interrupt the uploading by closing the pdf and wait until you have received a Submission Number!
5) Only use letters from a-z and numbers from 1-10 in the attachment names, otherwise the submission of the data will not work.

Member States seeking a financial contribution from the European Union for national programmes of eradication, control and surveillance shall submit online this application completely filled out.

In case of difficulty, please contact SANTE-VET-PROG@ec.europa.eu, describe the issue and mention the version of this document 2015 1.00

Your current version of Acrobat is: 11.015

Instructions to complete the form:

1) You need to have at least the Adobe Reader version 8.1.3 or higher to fill and submit this form.

2) To verify your data entry while filling your form, you can use the “verify form” button at the top of each page.

3) When you have finished filling the form, verify that your internet connection is active, save a copy on your computer and then click on the "submit notification" button below. If the form is properly filled, the notification will be submitted to the EU server and a submission number will appear in the corresponding field. If you don't succeed to submit your programme following this procedure, check with your IT service that the security settings of your computer are compatible with this online submission procedure.

4) All programmes submitted online are kept in a central database. However only the information in the last submission is used when processing the data.

5) IMPORTANT: Once you have received the submission number, save the form on your computer for your records.

6) If the form is not properly filled in, an alert box will appear indicating the number of incorrect fields. Please check your form again, complete it and re-submit it according to steps 3). Should you still have difficulties, please contact SANTE-VET-PROG@ec.europa.eu.

7) For simplification purposes you are invited to submit multi-annual programmes.

8) As mentioned during the Plenary Task Force of 28/2/2014, you are invited to submit your programmes in English.

Annex II : Control programme submitted for obtaining EU cofinancing - Reduction of prevalence of Salmonella serotypes
Programme of eradication of Salmonella serotypes

Identification of the programme

Member state: ESPANA

Disease: Salmonella

This program is multi annual: yes

Type of submission: Funding request for subsequent year of already approved multiannual programme

Request of Union co-financing from beginning of: 2014

Contact

Name: JOSÉ LUIS SAÉZ LLORENTE

Your job type within the CA: JEFE DE ÁREA DE PROGRAMAS ASANITARIOS Y ZOONOSIS

Phone: 0034913474060

Email: jsaezlo@magrama.es

Animal population

Animal population: Fattening flocks of Turkeys
Programme of eradication of Salmonella serotypes

A. Technical information

By submitting this programme, the Member State (MS) attests that the relevant provisions of the EU legislation will be implemented during its entire period of approval, in particular:

- Regulation (EC) No 2160/2003 on the control of *Salmonella* and other specified food-borne zoonotic agents,
- Regulation (EU) No 200/2012 concerning a Union target for the reduction of *Salmonella enteritidis* and *Salmonella Typhimurium* in flocks of turkeys,

As a consequence, the following measures will be implemented during the whole period of the programme:

1. The **aim of the programme** is to implement all relevant measures in order to reduce the maximum annual percentage of flocks of *turkeys* remaining positive to *Salmonella Enteritidis* (SE) and *Salmonella Typhimurium* (ST)(including the serotypes with the antigenic formula 1,4,[5],12:i:-)('Union target') to 1% or less. However, for the MS with less than 100 flocks of adult fattening turkeys, the Union target shall be that annually no more than one flock of adult fattening turkeys may remain positive.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

2. **Geographical coverage of the programme**

The programme will be implemented on the **whole territory** of the MS.

Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
## 3. Flocks subject to the programme

The programme covers all flocks of broilers. It does not apply to flocks for private domestic use.

### Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

| Number of holdings with fattening turkeys in the MS | 544 |
| Total number of houses in these holdings           | 3 150 |
| Number of holdings with more than 500 fattening turkeys | 544 |

## 4. Notification of the detection of target *Salmonella* serovars

A procedure is in place which guarantees that the detection of the presence of the relevant *Salmonella* serotypes during sampling at the initiative of the food business operator (FBO) is notified without delay to the competent authority (CA) by the laboratory performing the analyses. Timely notification of the detection of the presence of any of the relevant *Salmonella* serotypes remains the responsibility of the FBO and the laboratory performing the analyses.

### Comments (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

## 5. Biosecurity measures

FBOs have to implement measures to prevent the contamination of their flocks.

### Comments:

- Describe also the biosecurity measures that shall be applied, quote the document describing them (if any) (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
6. Minimum sampling requirements for food business operators (FBO):

Samples at the initiative of the FBO's will be taken and analysed to test for the target *Salmonella* serovars respecting the following minimum sampling requirements:

All flocks of fattening turkeys within three weeks before slaughter.

The competent authority may authorise sampling in the last six weeks prior to the date of slaughter in case the turkeys are either kept more than 100 days or fall under organic turkey production according to Commission Regulation (EC) No 889/2008.

Comments - Indicate also who takes the FBO samples and if this derogation is applied and in this case how many holdings and flocks are concerned.

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

7. Samples are taken in accordance with provisions of point 2.2 of Annex to Regulation (EU) No 1190/2012

Comments (max. 32000 chars) :

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

8. When birds from flocks infected with SE or ST are slaughtered, please describe the measures that shall be implemented by the FBO and the CA to ensure that fresh poultry meat meet the relevant EU microbiological criteria (row 1.28 of Chapter 1 of Annex I to Regulation (EC) No 2073/2005): absence of SE/ST in 5 samples of 25g.

Measures implemented by the FBO (max. 32000 chars) :

FBO debe comunicar a los servicios veterinarios oficiales del matadero, los resultados de los análisis de salmonella. Existe normativa nacional que así lo determina, en concreto el Real Decreto 361/2009, de 20 de marzo, por el que se regula la información sobre la cadena alimentaria que debe acompañar a los animales destinados a sacrificio.
En función de los resultados de los análisis realizados en granja, se toman las medidas oportunas en
Programme of eradication of Salmonella serotypes

El sector, junto con la Administración, en concreto la Agencia española de seguridad alimentaria y nutrición, elaboró una Guía (Guía del sector de avicultura de carne en España para el cumplimiento del Reglamento (UE) Nº 1086/2011 que modifica los Reglamentos (UE) Nº 2160/2003 Y (CE) Nº 2073/2005) para dar cumplimiento a la normativa europea en relación a los criterios microbiológicos.

**Measures implemented by the CA (max. 32000 chars):**

Las medidas anteriormente explicadas, son conjuntas entre los FBO y la autoridad competente.

<table>
<thead>
<tr>
<th>9. <strong>Laboratories</strong> in which samples (official and FBO samples) collected within this programme are analysed are accredited to ISO 17025 and the analytical methods for <em>Salmonella</em> detection is within the scope of their accreditation.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Comments (max. 32000 chars):</strong></td>
</tr>
<tr>
<td>No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016</td>

| 10. The **analytical methods** used for the detection of the target *Salmonella* serovars is the one defined in Part 3.2 of the Annex of Regulation (EU) No 200/2012 i.e. Amendment 1 of EN/ISO 6579-2002/Amdl:2007. 'Microbiology offood and animal feeding stuffs - Horizontal method for the detection of *Salmonella* spp. — Amendment 1: Annex D: Detection of *Salmonella* spp. in animal faeces and in environmental samples from the primary production stage'. Serotyping is performed following the Kauffman-White-Le Minor scheme. For samples taken on behalf of the FBO alternative methods may be used if validated in accordance with the most recent version of EN/ISO16140. |
| **Comments** |
| No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016 |
11. Samples are transported and stored in accordance with point 2.2.4 and 3.1 of the Annex to Regulation (EU) No 200/2012. In particular samples examination at the laboratory shall start within 48 hours following receipt and within 4 days after sampling.

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

12. Please describe the **official controls at feed level** (including sampling).

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

13. **Official controls at holding and flock level**

a. Please describe the official checks concerning the **general hygiene provisions** (Annex I of Regulation (EC) No 852/2004) including checks on biosecurity measures, and consequences in case of unsatisfactory outcome.

Comments (max. 32000 chars):
No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

b. Routine official **sampling scheme**: EU minimum requirements are implemented i.e. official sampling are performed:

- in one flock of fattening turkeys per year on 10% of holding comprising at least 500 fattening turkeys;
c. Official confirmatory sampling:

<table>
<thead>
<tr>
<th>After positive official samples at the holding</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Always</td>
<td>☐ Sometimes (criteria apply)</td>
<td>☒ Never</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>After positive FBO samples at the holding</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Always</td>
<td>☐ Sometimes (criteria apply)</td>
<td>☒ Never</td>
</tr>
</tbody>
</table>

Comments - Justify the confirmatory sampling strategy - Describe also the criteria (if any) quoted above (max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

d. Article 2 of Regulation (EC) No 1177/2006 (antimicrobials shall not be used as a specific method to control Salmonella in poultry): please describe the official controls implemented (documentary checks, sample taking) to check the correct implementation of this provision. For samples please describe the samples taken, the analytical method used, the result of the tests.

(max. 32000 chars):

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016
14. Official procedure to test, after the depopulation of an infected flock, the **efficacy of the disinfection** of a poultry house.

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

---

**B. General information**

1. Structure and organisation of the **Competent Authorities** (from the central CA to the local CAs)

**Short description and/or reference to a document presenting this description (max. 32000 chars):**

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

---

**2. Legal basis** for the implementation of the programme

No aplicable, ya enviado en programa multianual aprobado por UE 2014-2016

---

3. Give a short summary of the outcome of the **monitoring of the target Salmonella serovars** (SE, ST) implemented in accordance with Article 4 of Directive 2003/99/EC (evolution of the prevalence values based on the monitoring of animal populations or subpopulations or of the food chain).
### Programme of eradication of Salmonella serotypes

#### 1.2 Targets on official sampling of flocks for year: 2016

<table>
<thead>
<tr>
<th>Region</th>
<th>Type of flock</th>
<th>Total number of flocks (a)</th>
<th>Number of flocks in the programme</th>
<th>Number of flocks checked (b)</th>
<th>Number of flock visits to take official samples (d)</th>
<th>Number of official samples taken</th>
<th>Targeted serotypes (c)</th>
<th>Possible number of positive flocks</th>
<th>Number of flocks to be depopulated</th>
<th>Total number of animals to be slaughtered or destroyed</th>
<th>Quantity of eggs to be destroyed (number)</th>
<th>Quantity of eggs to be channelled to egg product (number)</th>
</tr>
</thead>
</table>
| ESPAÑA | Fattening flocks | 3 250 | 3 250 | 3 250 | 100 | 100 | SE+ST | 8 | 0 | 0 | 0 | 0
Programme of eradication of Salmonella serotypes

(a) Including eligible and non eligible flocks for the programme

(b) Check means to perform a flock level test under the programme for the presence of Salmonella. In this column a flock must not be counted twice even if it has been checked more than once.

(c) Salmonella Enteritidis + Salmonella Typhimurium = SE + ST  
   Salmonella Enteritidis + Salmonella Typhimurium + Salmonella Hadar + Salmonella Infantis +Salmonella Virchow = SE+ ST + SH +SI + SV

(d) Each visit for the purpose of taking official samples shall be counted. Several visits on the same flock for taking official samples shall be counted separately.

2  Targets on vaccination

2.1  Targets on vaccination for year : 2016

<table>
<thead>
<tr>
<th>NUTS Region</th>
<th>Number of flocks in the programme</th>
<th>Number of flocks expected to be vaccinated</th>
<th>Number of animals expected to be vaccinated</th>
<th>Number of doses of vaccine expected to be administered</th>
</tr>
</thead>
</table>

D. Detailed analysis of the cost of the programme

1. Costs of the planned activities for year: 2016

### 1. Testing of official samples

<table>
<thead>
<tr>
<th>Cost related to</th>
<th>Specification</th>
<th>Number of tests</th>
<th>Unitary cost in EUR</th>
<th>Total amount in EUR</th>
<th>Union funding requested</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost of analysis</td>
<td>Bacteriological detection test</td>
<td>100</td>
<td>18.19</td>
<td>1819</td>
<td>yes</td>
</tr>
<tr>
<td>Cost of analysis</td>
<td>Serotyping</td>
<td>55</td>
<td>38.38</td>
<td>2110.9</td>
<td>yes</td>
</tr>
<tr>
<td>Cost of analysis</td>
<td>Test for verification of the efficacy of disinfection</td>
<td>10</td>
<td>16.72</td>
<td>167.2</td>
<td>yes</td>
</tr>
</tbody>
</table>

### 2. Vaccination (if you ask cofinancing for purchase of vaccins, you should also fill in A.16 and E.2)

<table>
<thead>
<tr>
<th>Cost related to</th>
<th>Specification</th>
<th>Number of vaccine dosis</th>
<th>Average cost per dose in EUR</th>
<th>Total amount in EUR</th>
<th>Union funding requested</th>
</tr>
</thead>
</table>

### 3. Slaughter and destruction (without any salaries)

<table>
<thead>
<tr>
<th>Cost related to</th>
<th>Compensation of</th>
<th>Number of units</th>
<th>Unitary cost in EUR</th>
<th>Total amount in EUR</th>
<th>Union funding requested</th>
</tr>
</thead>
</table>

### 4. Cleaning and disinfection

<table>
<thead>
<tr>
<th>Cost related to</th>
<th>Specification</th>
<th>Number of units</th>
<th>Unitary cost in EUR</th>
<th>Total amount in EUR</th>
<th>Union funding requested</th>
</tr>
</thead>
</table>

### 5. Other essential costs (Art. 8.1.h of Regulation (EU) No 652/2014)

Add a new row
### E. Financial information

1. Identification of the implementing entities - financial circuits/flows

Identify and describe the entities which will be in charge of implementing the eligible measures planned in this programme which costs will constitute the reimbursement/payment claim to the EU. Describe the financial flows/circuits followed.

Each of the following paragraphs (from a to e) shall be filled out if EU cofinancing is requested for the related measure.

a) Implementing entities - **sampling**: who perform the official sampling? Who pays? (e.g. authorised private vets perform the sampling and are paid by the regional veterinary services (state budget); sampling equipment is provided by the private laboratory testing the samples which includes the price in the invoice which is paid by the local state veterinary services (state budget))

Las muestras oficiales son tomadas por veterinarios oficiales.
Programme of eradication of Salmonella serotypes

El coste de la toma de muestras, lo asume la Administración, en este caso las comunidades autónomas.

b) Implementing entities - **testing**: who performs the testing of the official samples? Who pays? (e.g. regional public laboratories perform the testing of official samples and costs related to this testing are entirely paid by the state budget)

Las muestras oficiales son analizadas en los laboratorios oficiales de las comunidades autónomas. El coste de los análisis lo asume la comunidad autónoma. El laboratorio nacional de referencia (LNR, Algete), también realiza análisis de serotipado de muestras oficiales. En menor número también hace análisis de aislamiento e identificación. Estos análisis los paga el LNR.

c) Implementing entities - **compensation**: who performs the compensation? Who pays? (e.g. compensation is paid by the central level of the state veterinary services, or compensation is paid by an insurance fund fed by compulsory farmers contribution)

Los servicios veterinarios oficiales de las comunidades autónomas (CCAA) ordenan los sacrificios obligatorios y son los encargados de llevar a cabo las compensaciones por sacrificio. Las CCAA son las encargadas de pagarlos.

d) Implementing entities - **vaccination**: who provides the vaccine and who performs the vaccination? Who pays the vaccine? Who pays the vaccinator? (e.g. farmers buy their vaccine to the private vets, send the paid invoices to the local state veterinary services which reimburse the farmers of the full amount and the vaccinator is paid by the regional state veterinary services)

No se lleva a cabo vacunación en pavos de engorde.
Programme of eradication of Salmonella serotypes

e) Implementing entities  - **other essential measures**: who implement this measure? Who provide the equipment/service? Who pays?

La limpieza y desinfección de las instalaciones se realiza siempre después de vaciar las naves. Antes de repoblar nuevamente las naves, es obligatorio verificar la limpieza y desinfección, tomando muestra ambientales. Estas actividades corren a cargo del FBO, y es el quien las paga.

2   Co-financing rate (see provisions of applicable Work Programme)

*The maximum co-financing rate is in general fixed at 50%. However based on provisions of Article 5.2 and 5.3 of the Regulation (EU) No 652/2014, we request that the co-financing rate for the reimbursement of the eligible costs would be increased:*

- [ ] Up to 75% for the measures detailed below
- [ ] Up to 100% for the measures detailed below
3. Source of funding of eligible measures

All eligible measures for which cofinancing is requested and reimbursement will be claimed are financed by public funds.

☑ yes
☐ no

Attachments

IMPORTANT:
1) The more files you attach, the longer it takes to upload them.
2) This attachment files should have one of the format listed here: jpg, jpeg, tiff, tif, xls, xlsx, doc, docx, ppt, pptx, bmp, pna, pdf.
3) The total file size of the attached files should not exceed 2 500Kb (~2.5 Mb). You will receive a message while attaching when you try to load too much.
4) IT CAN TAKE SEVERAL MINUTES TO UPLOAD ALL THE ATTACHED FILES. Don't interrupt the uploading by closing the pdf and wait until you have received a Submission Number!
5) Only use letters from a-z and numbers from 1-10 in the attachment names, otherwise the submission of the data will not work.
